

General Executive
Samia Abou Hamad

15/01/2025

Dear Sir,

I am pleased to inform you that your application for the position of General Executive has been successful. We are pleased to have you on board and look forward to your contribution to the company.

Yours faithfully,

Samia Abou Hamad

Introduction

To the Student

Themes is a series of textbooks designed for students studying English as a first foreign language. This is the third book for the Secondary Cycle in the new National Curriculum.

The aim of the Workbook is mainly to provide practice in the language. More specifically, the objective is to provide reinforcement of the skills introduced in the Student's Book as well as to give further practice on certain language items in writing, reading, and listening comprehension that may or may not have appeared in the Student's Book. The Workbook provides the students with exercises corresponding to each lesson in the Student's Book.

The exercises in the Workbook are to be done either in class or at home depending upon the teacher's directives. A table of contents has been included which corresponds to the Student's Book.

The authors believe that the Workbook is in no way exhaustive but only suggestive of how students can further their practical application in learning the language.

The Authors

Table of Contents

PART 1: THE NATURAL WORLD

Unit one: Natural Phenomena

Chapter 1: The World Within Us

Parts A and B	A Way With Words	13, 14
Part C	Writing Skills: Paraphrasing	15
	Language Conventions: Editing for Fragments	
Part D	Focusing on Process/Product Writing	15
	Pre-writing Activities	
	Choosing the Topic	
	Brainstorming-Free Writing	
	Paraphrasing	
	Reporting and Summarizing	
Part E	Expanding Your Point of View	20
	Peer Feedback Guidelines	
	Revising	
	Conferencing with the Teacher	
	Further Drafting	
	Final Outline	
	Revising for Publishing	
Part F	Sequenced Writing Project	24

Chapter 2: The World Around Us

Parts A and B	A Way With Words	25, 26
Part C	Writing Skills: Paraphrasing	27
	Language Conventions: Comma Splices and Fused Sentences	
Part D	Focusing on Process/Product Writing	28
	Focusing on Paragraph / Essay Format	
	Focusing on Main Ideas-Thesis Statement/ Topic Sentences	
	Pre-writing Activities	
	Choosing a topic	
	Brainstorming - Listing	
	Paraphrasing	
	Reporting and Summarizing	
	First Draft	
Part E	Expanding Your Point of View	34

Chapter 3: New Worlds

Parts A and B	A Way With Words	39, 40
Part C	Writing Skills: Paraphrasing	41
	Language Conventions: Subject-verb Agreement	
Part D	Focusing on Process/Product Writing	42
	Pre-writing Activities	
	Choosing the Topic	
	Brainstorming - Free Writing	
	Paraphrasing	
	Reporting and Summarizing	
	First Draft	
Part E	Expanding Your Point of View	47

PART 2 THE WORLD OF HUMAN INTERVENTION

Unit Two: Technology

Chapter 1: The World Within Us

Part A	A Way With Words	55
Part B	Looking for Relevant Information for a Research Topic	56
Part C	Writing Skills: Summarizing Passages	56
	Language Conventions: Achieving Consistency in Tense, Person, Number and Tone	
Part D	Focusing on Process/Product Writing	58
	Focusing on Supporting Evidence and the Unity of Ideas	
	Pre-writing Activities	
	Choosing a Topic	
	Brainstorming -Free Writing/Listing/Mind-mapping	
	Paraphrasing	
	Reporting and Summarizing	
	First Draft	
Part E	Expanding Your Point of View	66
Part F	Sequenced Writing Project- Writing a Survey Report	72
	Choosing and Analyzing the Sample	

The National Textbook Project

This is the second installment of textbooks completed by the Center as part of a three-stage effort to produce the books called for by the New Curricula. We are placing these books in the hands of students with the great hope that we are moving, step by step, toward the goal of acquiring sound and modern learning, using sophisticated educational means and up-to-date methodology that encourage and reinforce individual thinking and research, the acquisition of skills, the development of ethical and national attitudes, the feeling of national belonging as well as the feeling of belonging to humanity at large.

The on-going revolution in information, communication and educational technology has undoubtedly limited the role of the textbook and lowered the rank it used so recently to occupy. However, in our society and in many other societies, the textbook remains the basic means of education, and it is our duty to exert our utmost effort and care to come up with the best product as to form and content. Yet we should not lose sight of the fact that the textbook is not sufficient by itself but should rather be used as a stepping stone to access other sources of information. What is important is to keep a clear vision and maintain the right course toward our objective. The means should not turn into the end and the student should always remain the focus of the learning/teaching process.

No one ignores or denies the fact that textbook writing requires very high academic and educational qualifications and very wide field experience. The authors committees undeniably possess such qualifications and qualities, yet last year's textbooks did contain some faults and gaps which were duly pointed out by researchers in many articles, and, indeed, we have benefited from some of them. Such is the nature of human work, no matter how good the intentions or how great the effort exerted.

Constructive criticism is a real contribution to raising the standard of authorship, minimizing errors and filling gaps. We only hope that criticism will always be objective and motivated by a desire to enhance educational reform in order to achieve better products.

A favorite adage handed down from our old scholars: "He who criticizes you is as helpful as a co-author". Let all criticism directed at the Center be of this caliber.

In closing, we hope that we all will have benefited from our experience and that the textbooks of the third and final stage be closer to realizing our hopes and more beneficial to our students. We are now preparing ourselves to assess the parts so far achieved of the new curricula and to assure that our educational movement is proceeding on the right track for achieving the best results.

Part C	Writing Skills: Avoiding Logical Fallacies	120
	Language Conventions: Pronoun Agreement	

Chapter 1 *The World Within Us*

Part A

A Way With Words

I. In the blanks write the correct form of the words in parentheses. Make any necessary changes. Check your work with a partner.

1. (benefit) His holiday has had a _____ effect on his productivity.
2. (heal) He was _____ after a long period of hospitalization.
3. (discerning) It was difficult _____ which of them was to blame.
4. (skeptical) He is always accused of being a _____ since he never takes things at face value.
5. (insignificant) The _____ of the amount of money involved made the act so much worse.
6. (levitating) The crowd was amazed when the magician raised his hands and the woman lying on the couch _____ up into the air.
7. (reincarnate) Some Buddhists believe in the _____ of a man as an animal.
8. (bolstered) The teacher tried _____ up her students' pride in themselves.

II. Using the words in the box, choose the one that has the opposite meaning of each word below.

beneficial insignificant levitating saturated skeptical

1. believing _____
2. precipitating _____
3. empty _____
4. harmful _____
5. important _____

III. Use each of these expressions in sentences of your own:

1. at first

2. at best

3. at LL2000 each

Now read what you have written. What main idea about your topic emerged from this free writing? Write this main idea down and circle any parts of your free writing that seem to support this main idea.

C. Paraphrasing

Keeping your topic in mind, reread the passages in this chapter for information which may help you support your main idea. Take notes by paraphrasing a sentence or two from the passages.

to mind, without trying to organize your ideas or worry about grammar or vocabulary. You are free writing in order to help yourself think about the topic.

Free Writing

1. Choose a topic that interests you. Write for 5-10 minutes. Do not worry about grammar or vocabulary. Just write what comes into your mind.

2. After you finish, read what you wrote. Circle any words or phrases that you like or that you think are important. Write a few sentences about each one.

3. Use the words and phrases you circled to write a short paragraph about the topic. This is your first draft. You can write it again if you want.

4. Now write a second paragraph about the topic. This is your second draft. You can write it again if you want.

5. Finally, write a third paragraph about the topic. This is your third draft. You can write it again if you want.

D. Reporting and Summarizing

Now working with a classmate, tell him/her (1) what your topic is, (2) what your main idea is, and (3) how you plan to support it. Your partner must then summarize orally what you said.

E. First Draft

Begin with a topic sentence that expresses what your main idea is and how you plan to support it. You must stick to your main idea without losing the point. If you use an idea from the reading passages or any other source, paraphrase it and mention the author's name or the title of the selection. Feel free to use terminology and new vocabulary from the reading passages in this chapter. Conclude with a sentence restating the topic sentence and /or a list of your main supports.

4. at all

5. at 60 kms an hour

6. at chess

7. at rest

Part B

A Way With Words

I. Choose from the words in the box the one that best suits the blank in each of the sentences below. Write the word in the blank, making any necessary changes.

awestruck cynical dismayed gullible
hoax humility intrigued reverence

1. They listened with _____ to the news of the earthquake.
2. They hold him with great _____, listening carefully to each word he says.
3. I do not appreciate your _____ remarks.
4. There was no bomb as the telephone caller said; it was a _____.
5. We sat in _____ silence after we heard the whole truth.
6. The whole class was _____ by the surprise their teacher had prepared for them.
7. We could not believe how _____ she was when she ran out of the house to greet the Martians.
8. It was with great _____ that they approached the sacred spot.

II. Unscramble the letters to write a bold word from the reading texts.

1. fyed _____
2. amsidy _____
3. aicncl _____
4. elugbill _____
5. thimuily _____

Part C

Writing Skills - Paraphrasing

Directions: Using the strategy practiced in class, paraphrase the following sentences from *Thinking Critically about ESP*.

1. "The scientific attitude blends curious skepticism with open-minded humility."
2. "To gain reverence for and to be in awe of life, we need look no further than our own perceptual system and its capacity for organizing formless nerve impulses into colorful sights, vivid sounds, and evocative smells."

Language Conventions: Editing for Fragments

Directions: Underline the fragments in the following passage. Then rewrite the passage correctly in the space provided below.

Superstition. What is it? First, there is belief in the existence or power of the supernatural. Meaning that there is believed to be some force that can influence the events on earth. Second, irrational fear of the unknown. Which has been endemic to the human race since the early days when a cave man did not know if that cave was safe to enter or if he would be attacked by a bear. Third, a religion or practice based on such tendencies. The belief that a charm or talisman, such as throwing salt or hanging a horseshoe over the doorway, can affect the aforementioned supernatural force. Finally, there is a widely held but wrong idea. This is a belief that is readily believed. Because everyone else believes it. It may be wrong or preposterous, but all the other people think that it is right and you believe it too.

Part D

Focusing on Process/Product Writing

Pre-writing Activities

A. Write down the **topic** that you chose. _____

B. Brainstorming

Free Writing

Write freely on your topic. Do not spend more than 20 minutes. Write whatever comes

III. *Second Main Support*

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

IV. *Third Main Support*

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

V. Conclusion:

Section 6: *Revising for Publishing*

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the Internet , you may need to revise it by going over the steps in parts D and E again.

Section 5: Final Outline

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

Concluding Sentence:

The Essay

I. Thesis Statement:

II. First Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guidelines

For the writer:

- Read your paragraph clearly.
- Ask for peer comments (positive and negative).
- Make notes of suggested changes.

For the listener:

- Listen quietly until the writer finishes.
- Does the writer begin with a clear topic sentence?
- Do all of the writer's supports refer back to his/her topic sentence?
- Does the conclusion restate the writer's topic sentence and/or list his/her main supports?

Section 2: **Revising**

Use the criteria listed in the "Paragraph Assessment Guidelines."

Section 3: **Conferencing with the Teacher**

Section 4: **Further Drafting**

Part F

Sequenced Writing Project

Topic:

Intended Audience:

Purpose:

In a paragraph, comment on the importance of your chosen topic.

$$\begin{aligned}
 \text{LHS} &= \frac{1}{2} \left(\frac{1}{2} \right) = \frac{1}{4} \\
 \text{RHS} &= \frac{1}{4} \\
 \text{LHS} &= \text{RHS} \\
 \therefore \frac{1}{2} \left(\frac{1}{2} \right) &= \frac{1}{4}
 \end{aligned}$$

In a paragraph, comment on your personal experience with the topic.

- such as why earthquakes and volcanic eruptions occur in very specific areas around the world, and how and why great mountain ranges like the Alps and the Himalayas formed.”

Language Conventions: Comma Splices and Fused Sentences

III. Directions: Find the comma splices and fused sentences in the following passage. Then rewrite the passage using the correction guidelines discussed in class.

Many cultures that experience earthquakes have developed myths to explain their origins, for example, one Greek explanation was that gases from the atmosphere became trapped below ground and rolled around looking for a way out. The rolling generated earthquakes when the gases found a way out, there were volcanoes. This myth has carried on, developing into the modern myth of “earthquake weather.”

Part D

Focusing on Process/Product Writing

Section 1: Writing Topics

I. Focusing on Paragraph/Essay Format

Fill in the following outline to check for organization and content.

Academic Disciplines and Conventions

I. _____

II. _____

1. Hard scientists
- 2.
- 3.

5. intrigue + plan:

6. match + pair:

7. notion + clever:

8. speculate + that:

9. temperate + area:

10. tropics + sun:

Part C

Writing Skills - Paraphrasing

I. Directions: By altering the words and sentence structures, try paraphrasing the following sentences taken from the text in this chapter entitled *The Continental Drift*.

A. "Plate tectonics is a relatively new scientific concept, introduced some 30 years ago, but it has revolutionized our understanding of the dynamic planet upon which we live.

1. Plate tectonics, which is a relatively new scientific concept, has had a great impact on ...

2. Our knowledge of the ever-changing Earth has been ... because of ...

3. Although plate tectonics is ..., it has changed our concept of ...

B. "Plate tectonics has proven to be as important to the earth sciences as the discovery of the structure of the atom was to physics and chemistry.

1. To the earth scientist, plate tectonics is as ... as the discovery of the structure of the atom was to ...

2. How the atom is structured is very similar in its importance to ...

C. "The theory has unified the study of the Earth by drawing together many branches of the earthsciences, from paleontology (the study of fossils) to seismology (the study of earthquakes)."

1. Plate tectonics has tied together ...

2. By combining different branches of the earth sciences, such as ..., the theory...

II. Directions: Now paraphrase the following sentence using either strategy one or strategy two.

"It has provided explanations to questions scientists had speculated upon for centuries

Chapter 2 *The World Around Us*

Part A

A Way With Words

- I. The words in the box are taken from the text you have listened to. Try to match them with the clues given below. Write the words in the blanks.

boundaries clustering crust drifting float massive slab

1. Moving away: _____
2. Thick flat stone: _____
3. Edges; ends: _____
4. Hard outer covering: _____
5. Very big: _____
6. Moving together: _____
7. Not sinking in liquid: _____

- II. Answer these questions regarding the words in the box above.

1. Which pairs of words are very close in meaning?

2. Which words are opposite in meaning?

3. Which two words can be used together as adjective and noun?

4. Which word is used to refer to the Earth but can also be used for bread?

5. Other than referring to plates, what can boundaries be used for?

- III. This is how the words in the box above have been used in the recording. Read the sentences, then write sentences of your own.

1. A tectonic plate is a **massive**, irregularly shaped **slab** of solid rock.

massive:

slab:

2. How do these massive slabs of solid rock **float**, despite their tremendous weight?

3. Continental **crust** is composed of granitic rock.

4. Most of the **boundaries** between individual plates cannot be seen.

5. They have been **drifting** about on the surface ever since.

6. ... like slow-moving bumper cars repeatedly **clustering** together and then separating.

Part B

A Way With Words

I. Without looking at your textbook, write the word from the box that best matches each clue. When you are done, check your answer with your neighbor.

catastrophe content debate fossils intrigued match notion
speculate temperate the tropics

1. This is an event which scares people a lot. _____
2. We do this when we need to fit two similar things together. _____
3. When we think deeply about a subject, we are doing this. _____
4. We do not need warm clothing if we are living there. _____
5. We feel this way when we are interested in an unknown phenomenon. _____
6. People do this when they disagree. _____
7. We tend to do this when we are presenting our beliefs. _____
8. If we think hard, we may come up with this. _____
9. People living in this kind of climate do not suffer from extreme temperatures. _____
10. We can find these in archeological sites. _____

II. You will find below each of the words in the box above paired with another word. Those two words are very often found together. Use them in sentences of your own.

1. catastrophe + terrible: _____

2. contend + that: _____

3. debate + issue: _____

4. fossil + image: _____

Focusing on Process/Product Writing

Section 2: Pre-writing Activities

A. Write down the topic that you chose .

B. Brainstorming - Listing

Listing is faster than free writing. Write down everything that comes to your mind about your chosen topic. Do not write sentences, only words or short phrases. Remember that you are trying to get down quickly as much information as possible. Listing is particularly useful for collecting examples or specific information about a topic. It is also a useful way for writers to get started again if they run out of ideas or suffer from "writer's block."

Working in pairs, make lists related to your topic. Do not spend more than 15 minutes. You are listing in order to help yourself think about the topic.

---	---	---

Now read what you have written. What main supports (effects, reasons or steps) emerged from your lists.

III.

- 1.
2. Articles written for the humanities

IV.

II. Focusing on Main Ideas - Thesis Statement/Topic Sentence

Read the following sentences and decide whether:

- a. it is suitable for a topic sentence in a paragraph,
- b. it requires an essay to be well developed,
- c. it could be either a topic sentence or a thesis statement, or
- d. it is not suitable for a topic sentence or a thesis statement.

In the blank, put a *P* for paragraph, an *E* for essay, *P/E* for both, or a *U* for unsuitable.

- ___ 1. Alfred Wegener was a German geologist, meteorologist and explorer who is probably best known for his theory of continental drift.
- ___ 2. Wegener's book *The Origin of Continents and Oceans* is the basis for the theory of plate tectonics.
- ___ 3. In Wegener's mind, the drifting of continents after the break-up of Pangaea explained not only the matching fossil occurrences but also the dramatic climate change on some continents.
- ___ 4. A tectonic plate is a massive, irregularly shaped slab of solid rock, generally comprised of both continental and oceanic lithosphere - the outer part of the solid earth.
- ___ 5. The floor beneath your feet, even though it feels stable and motionless, rests upon a landmass that is in continuous motion.
- ___ 6. How do these massive slabs of solid rock float, despite their tremendous weight?
- ___ 7. The Earth's internal structure influences plate tectonics.

Give the probable number of body paragraphs for those sentences you selected as being possible thesis statements.

Now write down a thesis statement, keeping in mind your topic and possible main supports.

C. Paraphrasing

Still working in pairs and keeping your topic in mind, search for more information by using multi-media materials (newspapers, the Internet, etc.) that may help you support your thesis. Take notes by paraphrasing or quoting a sentence or two from these sources. Do not forget to cite your sources.

D. Reporting and Summarizing

Working with a classmate, tell him/her (1) what your thesis will be, (2) how you intend to support it, and (3) the probable number of body paragraphs. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Write an essay on your topic that includes an introduction, (a) body paragraph(s) and a conclusion. For many writers, it is easier to write the body paragraph(s) before the introduction and conclusion. If you use an idea from the reading passage in this chapter or any other source, paraphrase it and mention the author's name or the title of the selection.

Section 5: Final Outline

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

Concluding Sentence:

The Essay

I. Thesis Statement

II. First Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

Lined paper template with horizontal ruling lines.

III. Second Main Support

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

IV. Third Main Support

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

V. Conclusion:

Section 6: Revising for Publishing

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the Internet, you may need to revise it by going over the steps in parts D and E again.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guideline

For the writer:

Read your essay clearly.

Ask for peer comments (positive and negative).

Make notes of suggested changes.

For the listener:

Listen quietly until the writer finishes.

Is there an obvious beginning (introduction), middle (body paragraph(s) and end (conclusion)?

Do all of the writer's main supports refer back to the thesis?

Does the conclusion restate the thesis and express someone's opinion(s)?

Section 2: Revising

Use the criteria listed in the "Essay Assessment Guidelines" in this chapter.

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

Possible thesis statement: _____

C. Paraphrasing

Select a couple of quotations that are related to your topic from the texts in this chapter or from other multi-media sources. Paraphrase these quotations.

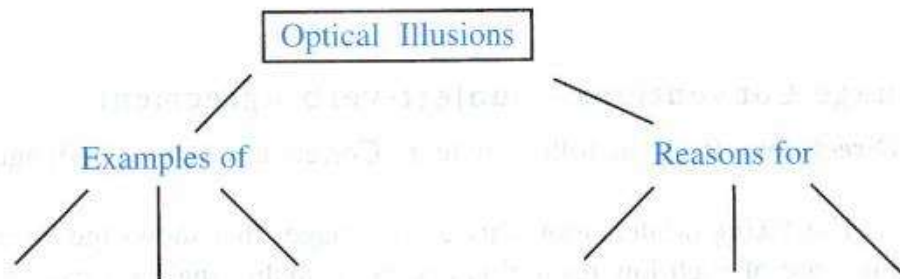

Part D

Focusing on Process/Product Writing

A. Write down the topic that you chose. _____

B. Brainstorming - Mind Mapping _____

Think of a word or phrase which you would like to focus on. It must be related to your topic. Next, write that word or phrase in a box in the middle of the page. Extend your box with arms or branches. On these arms or branches, write down more specific ideas about your topic. Draw as many arms or branches as you need in order to get all of your ideas on the paper. Complete the following mind map with your teacher.

Now construct your own mind map. Relate it to the topic you chose.

Part C

Writing Skills - Paraphrasing

I. Directions: Paraphrase the following sentences from *The Face on Mars* which state Richard Hoagland's theories about who constructed the Face and why it looks so human.

A. "Perhaps evolution worked the same on Mars as it did on Earth and so the Martians looked human."

B. "Or maybe a previously unknown, technologically advanced civilization from Earth's distant past traveled to Mars (or, alternatively, an advanced Martian civilization came to Earth long ago, and we look like them.)"

C. "Or perhaps the Face was built by some sophisticated extra-terrestrials from beyond the solar system as a sign for us."

Language Conventions - Subject-verb Agreement

II. Directions: Read the following text. Correct any subject-verb agreement errors.

The *Viking* orbiters took only a few images that shows the Face on Mars. The pictures are of such low resolution and poor quality that they cannot prove conclusively whether the Face on Mars is naturally occurring or artificial. One of the guiding principles of scientists are that simple, straightforward explanations of phenomena are more likely to be correct than complicated ones. This principle means that if two hypotheses fit the observations equally well, the one that make the fewest assumptions should be chosen.

Part B

A Way With Words

I. The word *plummet* means *fall steeply and suddenly*. The words in the box also mean fall, but differently. Choose the word that best suits the blank in each of the sentences.

dive plunge drop nose-dive sink topple tumble

1. The wall came _____ down after it was hit by a bulldozer.
2. Many people still _____ deep into the sea to look for pearls.
3. The temperature _____ from 28°C to 20°C in 30 minutes.
4. The government was _____ by a bloodless coup d'état.
5. The aircraft _____ straight down towards the ground after the pilot lost control.
6. The Titanic _____ into the North Atlantic a few hours after the start of her maiden voyage.
7. The prices of most goods _____ as a direct result of fierce competition.

II. Another meaning for the word *snap* is *to break off suddenly*, as in the *snapping of a dry branch*. The words in the box to the right mean break. Match them with the situations in the box to the left.

1. By using water
2. Used for telephone interruption
3. Used for bones
4. What we do to frogs in the lab
5. When a room is divided in half
6. When a leg has to be cut off
7. When a couple separates
8. Used for veins or kidneys
9. When glass breaks into small pieces
10. When the skin breaks and blood comes out
11. When the particles break because of decay
12. When a shoulder moves from its place
13. When all the particles break and disappear
14. When the head is cut off

- I. fracture
- II. rupture
- III. dissolve
- IV. split
- V. cut
- VI. disintegrate
- VII. decompose
- VIII. sever
- IX. disconnect
- X. dislocate
- XI. divide
- XII. dissect
- XIII. partition
- XIV. amputate
- XV. shatter

Chapter 3

The New World

Part A

A Way With Words

I. Match the words in Column A with the ones that collocate with them in Column B below.

Column A	Column B
1. ancient	a. appearance
2. image	b. civilization
3. naked	c. enhancement
4. optical	d. evidence
5. random	e. eye
6. rock	f. formation
7. scientific	g. illusion
8. solar	h. patterns
9. TV	i. system

II. Choose a word from the box that best suits the blank in each of the sentences below. Make any necessary changes.

persist outcropping sorely mesa expertise

1. Your _____ attempts to annoy me will never succeed.
2. Don't joke about his weight; it's a _____ subject with him.
3. The temple was built on the highest _____ in the district.
4. His _____ saved the business from failing.
5. If they _____ on breaking the law, they will go to jail.
6. I have a _____ throat as a result of a severe cold.
7. The school should hire an _____ to teach those handicapped children.
8. The _____ near the road to town is a favorite place for shepherds to graze their herds.

III. Fill in the blanks with a suitable word.

1. A person who persists is _____.
2. A person who possesses expertise in a certain subject is an _____.
3. Two words from the list in the box above are very close in meaning; they are _____ and _____.
4. If sore means painful, then sorely means _____.

Lined paper template with horizontal ruling lines.

Handwriting practice lines on page 45. The page contains 20 horizontal blue lines for writing practice.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guidelines

For the writer:

Read your essay clearly.

Ask for peer comments (positive and negative).

Make notes of changes you need to make.

For the listener:

Is there an obvious beginning, middle and end?

Do all the writer's main supports refer back to the thesis?

Has the writer paraphrased from at least one other source?

Does the conclusion restate the thesis and express at least one opinion?

Section 2: Revising

Use the criteria found in the "Essay Assessment Guidelines."

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

D. Reporting and Summarizing

Now work with a classmate. Tell him/her (1) what your thesis is, (2) how you intend to support it, and (3) the probable number of paragraphs in your essay. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Write an essay on your topic. Try to use at least one idea from another source. Remember to cite your source(s).

$\frac{d}{dt} \left(\frac{1}{2} m v^2 \right) = \frac{1}{2} m \frac{dv^2}{dt}$

III. Second Main Support

A. First Supporting Idea

1. Point

2. Point

B. Second Supporting Idea

2. Point

IV. Third Main Support

A. First Supporting Idea

1. Point

2. Point

B. Second Supporting Idea

1. Point

2. Point

V. Conclusion

Summary of the Main Points

The first main point is that the government should increase its spending on infrastructure. This is because infrastructure is the backbone of the economy and it is essential for the growth of the country. The second main point is that the government should increase its spending on education. This is because education is the key to the future of the country and it is essential for the development of the country. The third main point is that the government should increase its spending on health care. This is because health care is the key to the well-being of the country and it is essential for the development of the country.

Part A

A Way With Words

Use each of the following words first as a noun and then as a verb. Include other words that indicate which form you are using. Note that in some cases, the meanings of the two forms are not similar.

1. Flood as a verb: _____
Flood as a noun: _____
2. Challenge as a verb: _____
Challenge as a noun: _____
3. Sound as a verb: _____
Sound as a noun: _____
Sound as an adjective: _____
4. Mind as a verb: _____
Mind as a noun: _____
5. Eye as a verb: _____
Eye as a noun: _____
6. Bite as a verb: _____
Bite as a noun: _____
7. Attempt as a verb: _____
Attempt as a noun: _____
8. Issue as a verb: _____
Issue as a noun: _____
9. Find as a verb: _____
Find as a noun: _____
10. Fast as a verb: _____
Fast as a noun: _____
Fast as an adjective: _____
Fast as an adverb: _____
11. Content as an adjective: _____
Content as a noun: _____

Part B

I. You are assigned a topic for research. The topic is shopping, entertainment, and services in three cities in Lebanon other than Beirut.

What questions would you ask to help you locate relevant information?

Where would you look for this information?

In groups, work out a few record cards.

Example questions:

What types of shopping areas are most distinctive in each city?

What areas are designated as special entertainment areas?

Source: (author, title, and date) Tripoli Municipality. "Special Report on Shopping during the Summer Season," September 1999

Subject: Shopping in Tripoli

Keywords: areas, facilities, goods, prices

Information: 500 shops for clothing, 650 shops for food and house-ware, 300 shops for others (electrical and electronic appliances, perfume, etc...)

(In green) Are these numbers too many or too few for a city with a population of over 500,000 ? Perhaps there should be more areas like "souk" areas, where goods are displayed in quantities, very much like the downtown area rather than have Western-style supermarkets.

Now you do the same. Make up the information

Part C

Writing Skills - Summarizing Passages

Directions: Read the following text adapted from a guide entitled "*Coming to Grips with Reading and Writing Academic Articles*" by Amanda Graham. Using the guidelines found in the chapter for writing good summaries, summarize the text.

Considering the Article as a Whole

You can better understand a scientific article if you examine it as a whole. The first question to ask yourself is who is writing the article. See what you can find out about the author by checking to see what other articles or books the author has written. This will give you an idea about how this article fits into the author's other works or field. Also ask yourself about the author's qualifications. Knowing these will help you trust the conclusions reached in the article and help you identify the focus or a bias. Then you must be able to discern who the audience is. This is important because it affects the style, content and approach of the article. When the author includes only a few references, it suggests an audience of experts. On the other hand, when quite a few references are included, it suggests a general readership. Another question to ask yourself concerns what the article is about. The first two paragraphs should give you an idea along with the title. In some fields, an abstract will precede the text. This will give an uncritical summary of the paper's content. A final question should center on what sources the author uses. Look at the foot- or end-notes and the reference list. Knowing where the author got the information from will tell you whether the author is looking at something new (interviews, government documents, etc.), taking a new look at something old (books and articles), or combining the old with the new. Looking at sources will help you determine something about the author's purpose, audience and content.

Language Conventions: Achieving Consistency in Tense, Person, Number, and Tone

Shifts in Tense

Directions: In the following passage, locate any inconsistent tenses which interfere with understanding the logic in the passage. Correct the passage.

Sound bites are 15- to 30- second media spots, often commissioned by politicians or interest groups, which had attempted to state a position or explain an argument on a complex subject or issue. Since time is scarce and word limits are tight, sound bites relied upon key words, phrases and images to make their point. The medium is more important than the message. Ideas are condensing into simple, highly compact terms.

Shifts in Person and Number

Directions: In the following sentences, locate any confusing shifts in person or number. Correct the sentences.

1. For students to make up his own minds, they will need the most powerful technology of all — well developed questioning skills.
2. Everyone has the ability to learn, so one should not give up when something seems difficult to you.
3. In groups, try to explain what they think the words in italics might refer to. After you come to an agreement about the possible meanings, share it with the rest of the class.
4. A good writer should remember that they must cite sources.
5. Anyone can learn to become a better writer if you try.

Shifts in Tone

Directions: Change the words or expressions in italics to maintain a formal tone.

1. Some *kids* think that it is *pretty cool* to surf the Internet all day long.
2. The teacher *came down* on me for *goofing off* during class.
3. Will you *guys* get into pairs?
4. The teacher *blew his stack* when the students would not calm down.
5. The teacher finally *came across* with the grade I think I deserve.

Part D

Focusing on Process/Product Writing

Section 1: Focusing on Supporting Evidence and the Unity of Ideas

Select one of the final drafts that you wrote in the first unit. With a peer, critique each other's supporting evidence. Suggest other possible forms of support which could have made the draft clearer, more credible and more convincing. Which of the following types of support were used?

D. Reporting and Summarizing

Working with a peer, tell him/her (1) what your thesis /topic sentence is, (2) how you intend to support it and, if writing an essay, (3) the probable number of paragraphs. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Reminder: Cite your source(s) if you use someone else's idea(s).

- ## 1. Facts

2. Statistics

3. Expert testimony

4. Personal experience

5. Examples of different types - specific, extended, and hypothetical

Now rewrite one of your body paragraphs using support which will make your work clearer, more credible and, hopefully, more convincing.

This image shows a single sheet of white paper with horizontal blue lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

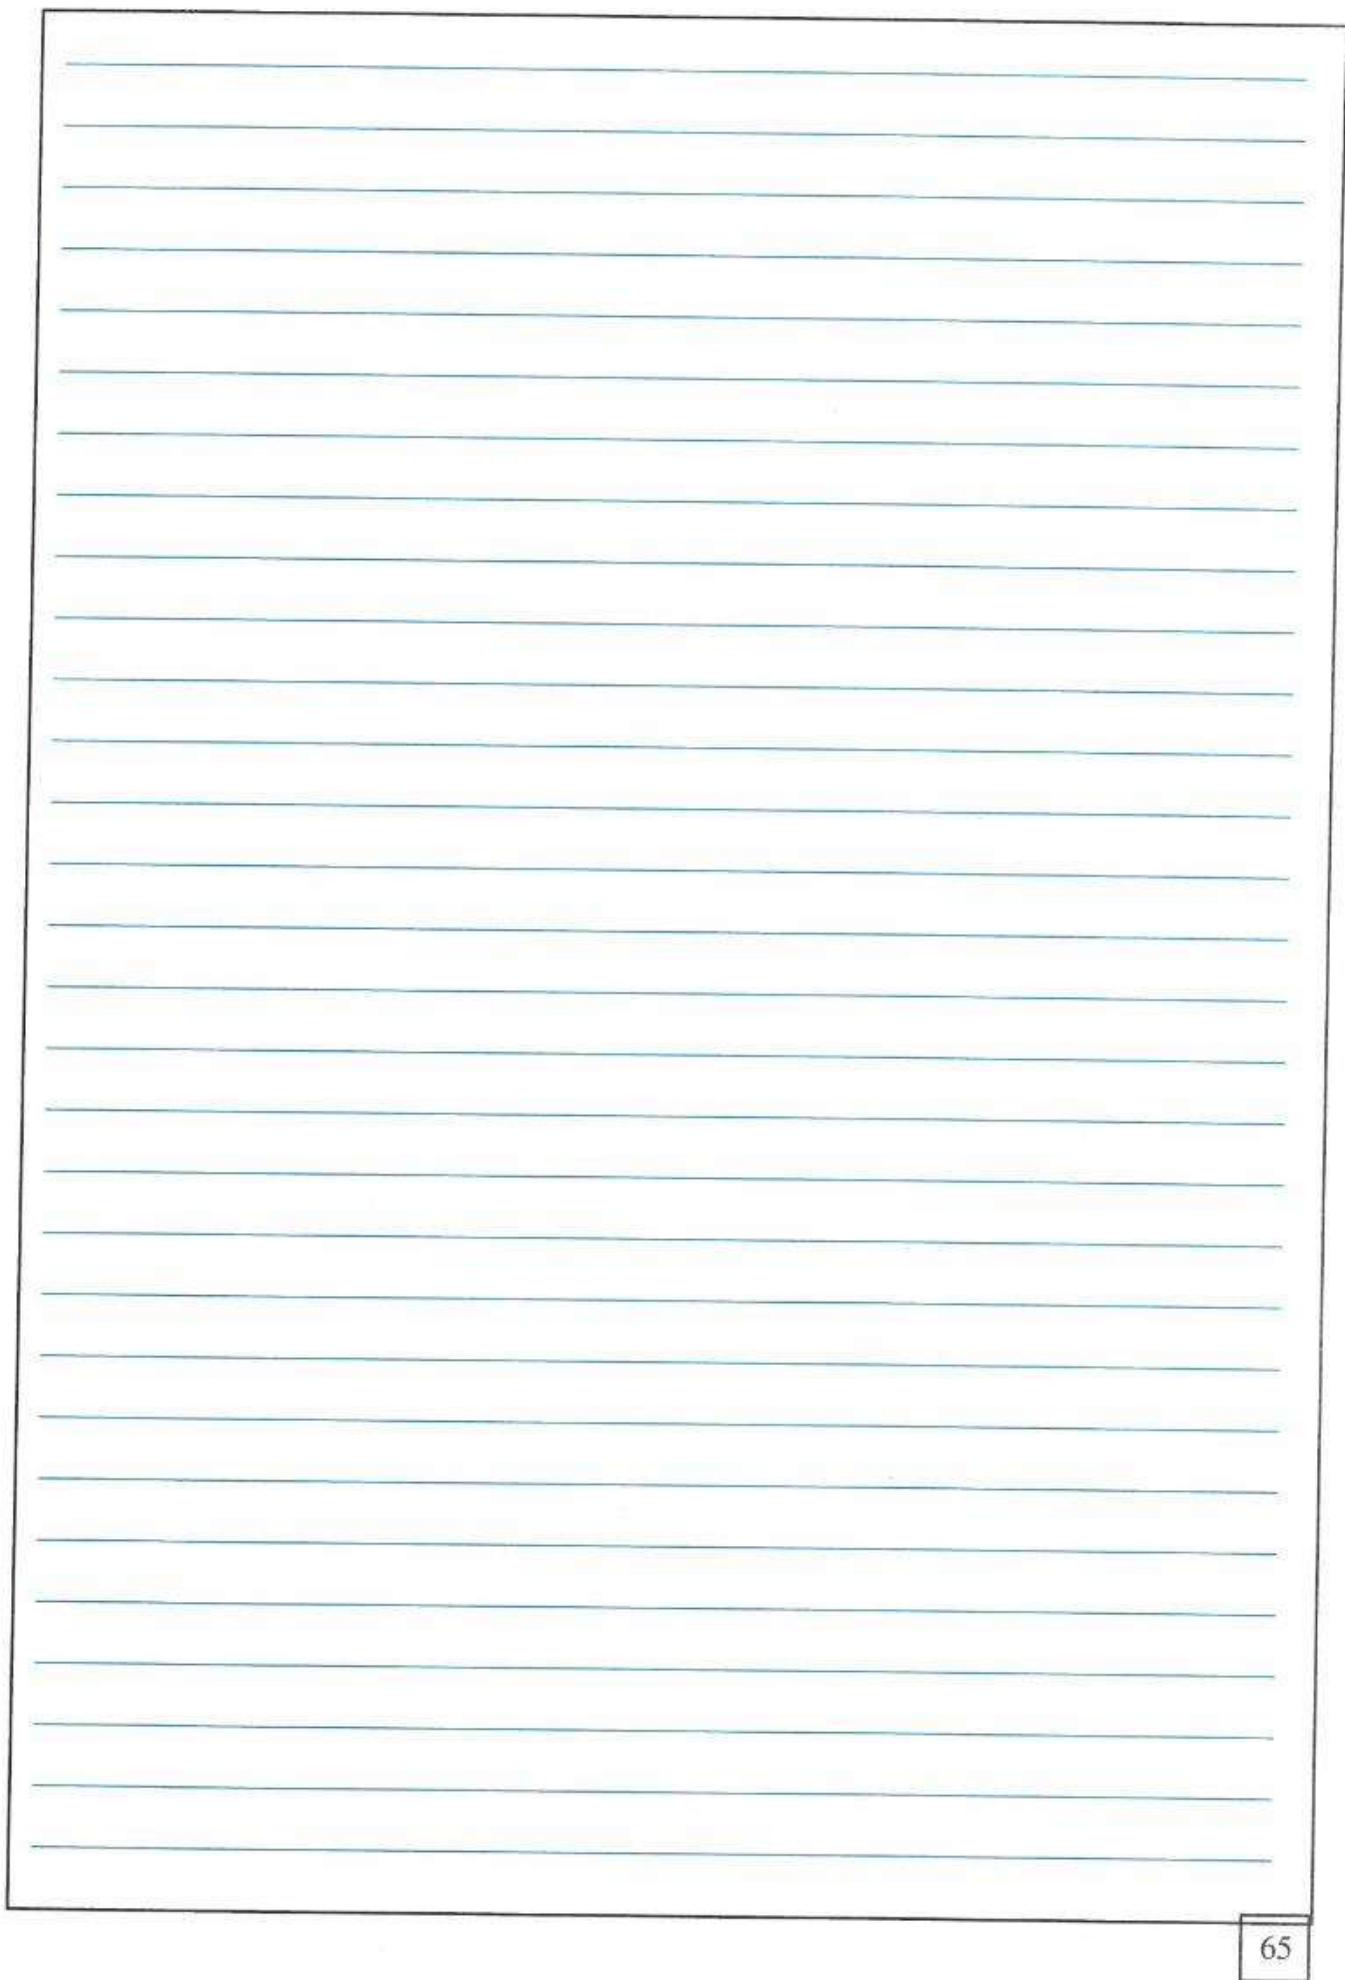

Section 2: Pre-writing Activities

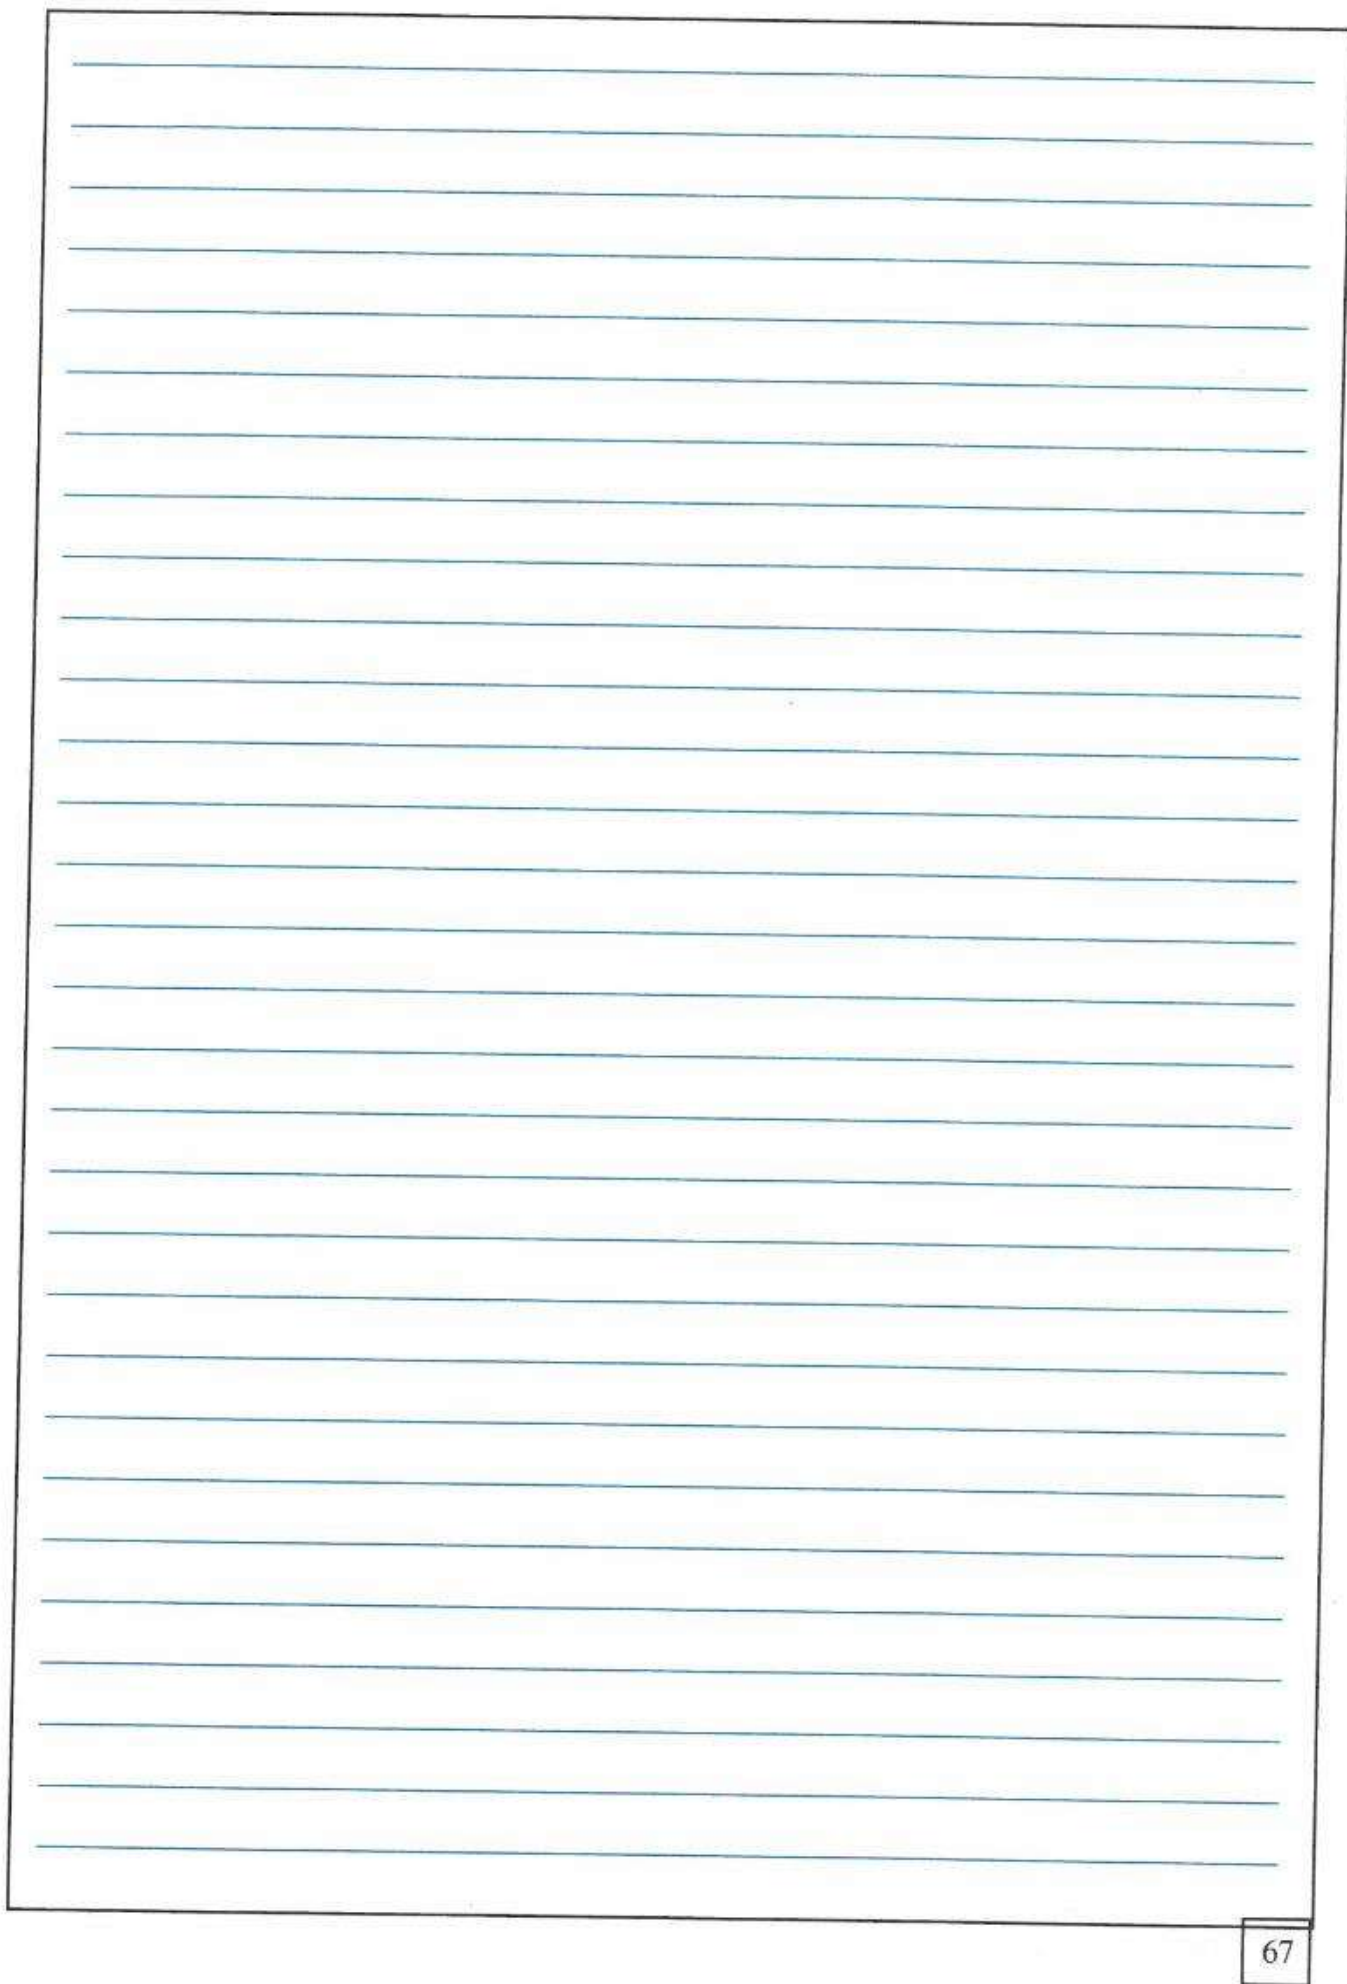

A. Write down the **topic** that you chose.

B. Brainstorming - Free writing, listing, mind mapping

In previous chapters, you have used free writing, listing and mind mapping as brainstorming strategies. Choose the one that you feel suits *thinking* about your topic best. Try to limit your time for brainstorming to no more than 20 minutes.

Blank lined paper with horizontal blue lines.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guidelines

For the writer:

Read your essay clearly.

Ask for peer comments (positive and negative).

Make notes of suggested changes.

For the listener:

Has the proper format been followed?

Do all the writer's main supports refer back to the topic sentence/thesis statement?

Has the writer summarized and/or paraphrased at least one other source?

Section 2: Revising

Use the criteria found in the "Paragraph Assessment Guidelines" or the "Essay Assessment Guidelines."

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

Part F

Sequenced Writing Project

Step 1: Choose and analyze the sample.

Suggest 10 questions for your survey. You will ask each of your participants the same questions.

1.

2.

3.

4.

5.

6.

7.

8.

9.

10.

Step 2: Now analyze your sample.

Who did you question?

What characteristics do they have in common?

Why are they interested in your topic?

What kind of knowledge do they have about your topic?

How does your topic affect them personally?

III. *Second Main Support*

A. First Supporting Idea

1. Detail

B. Second Supporting Idea

1. Detail
2. Detail

IV. *Third Main Support*

A. First Supporting Idea

1. Detail
2. Detail

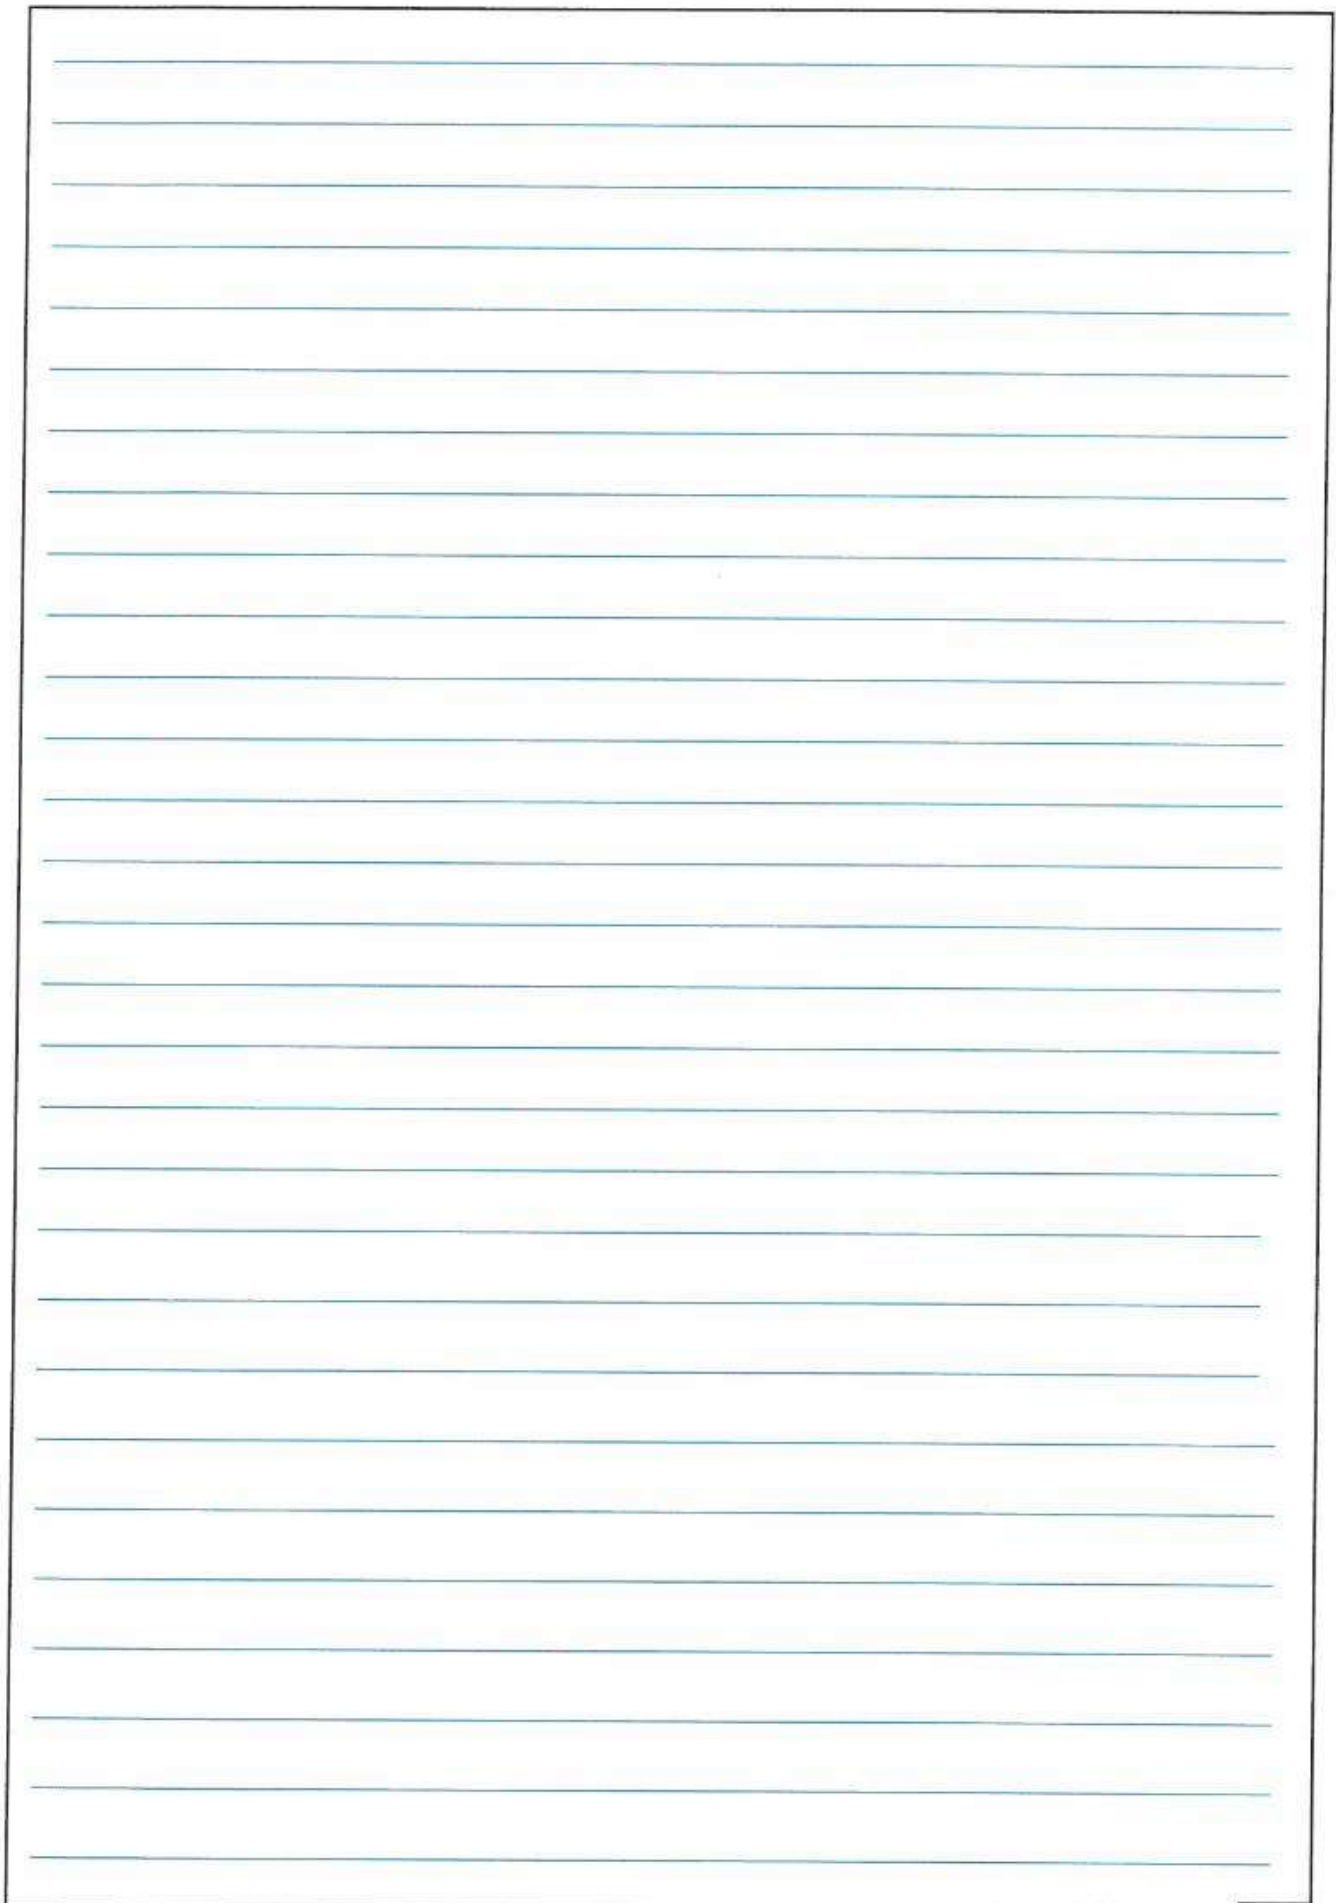

B. Second Supporting Idea

1. Detail
2. Detail

V. Conclusion:

Section 6: *Revising for Publishing*

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the Internet , you may need to revise it by going over the steps in parts D and E again.

Section 5: **Final Outline**

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

Concluding Sentence:

The Essay

I. Thesis Statement

II. *First Main Support*

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

Summary:

Passage 2:

Summary:

Language Conventions: Sentence Variety

Directions: Find another short multi-media text about telemedicine, biotechnology, or any other topic your teacher assigns. Copy the text below and identify the sentence types which the author uses to give the text variety.

Chapter 2 THE WORLD AROUND US

Part A

Affixes

A. Explain the words below by examining the prefix in each word.

Trans- = across, beyond, through -mit = send

1. transport: (porter, portable)
2. emit: (exit, eject)
3. translate: (-late = carry)
4. remit: (return, reject)

B. Explain how trans- means “across” in the following words:

1. transparent:
2. transnational:
3. transform:
4. transfer:
5. transatlantic:

C. The prefix omni- means “all, universally.” Explain the following words:

1. omnidirectional:
2. omnipotent:
3. omnipresent:
4. omniscient: from *scientia* meaning knowledge
5. omnicompetent:

D. Explain the meaning of the following words ending in -ics:

1. physics:
2. statistics:
3. phonetics:
4. metaphysics:
5. aerodynamics:
6. aeromechanics:
7. aeronautics:
8. thermodynamics:
9. ballistics:
10. genetics:

Part B

I. What are the following branches of medicine involved in:

1. gastroenterology:
2. oncology:
3. orthopedics:
4. ophthalmology:
5. hematology:
6. otolaryngology:
7. neurology:

II. Answer the questions:

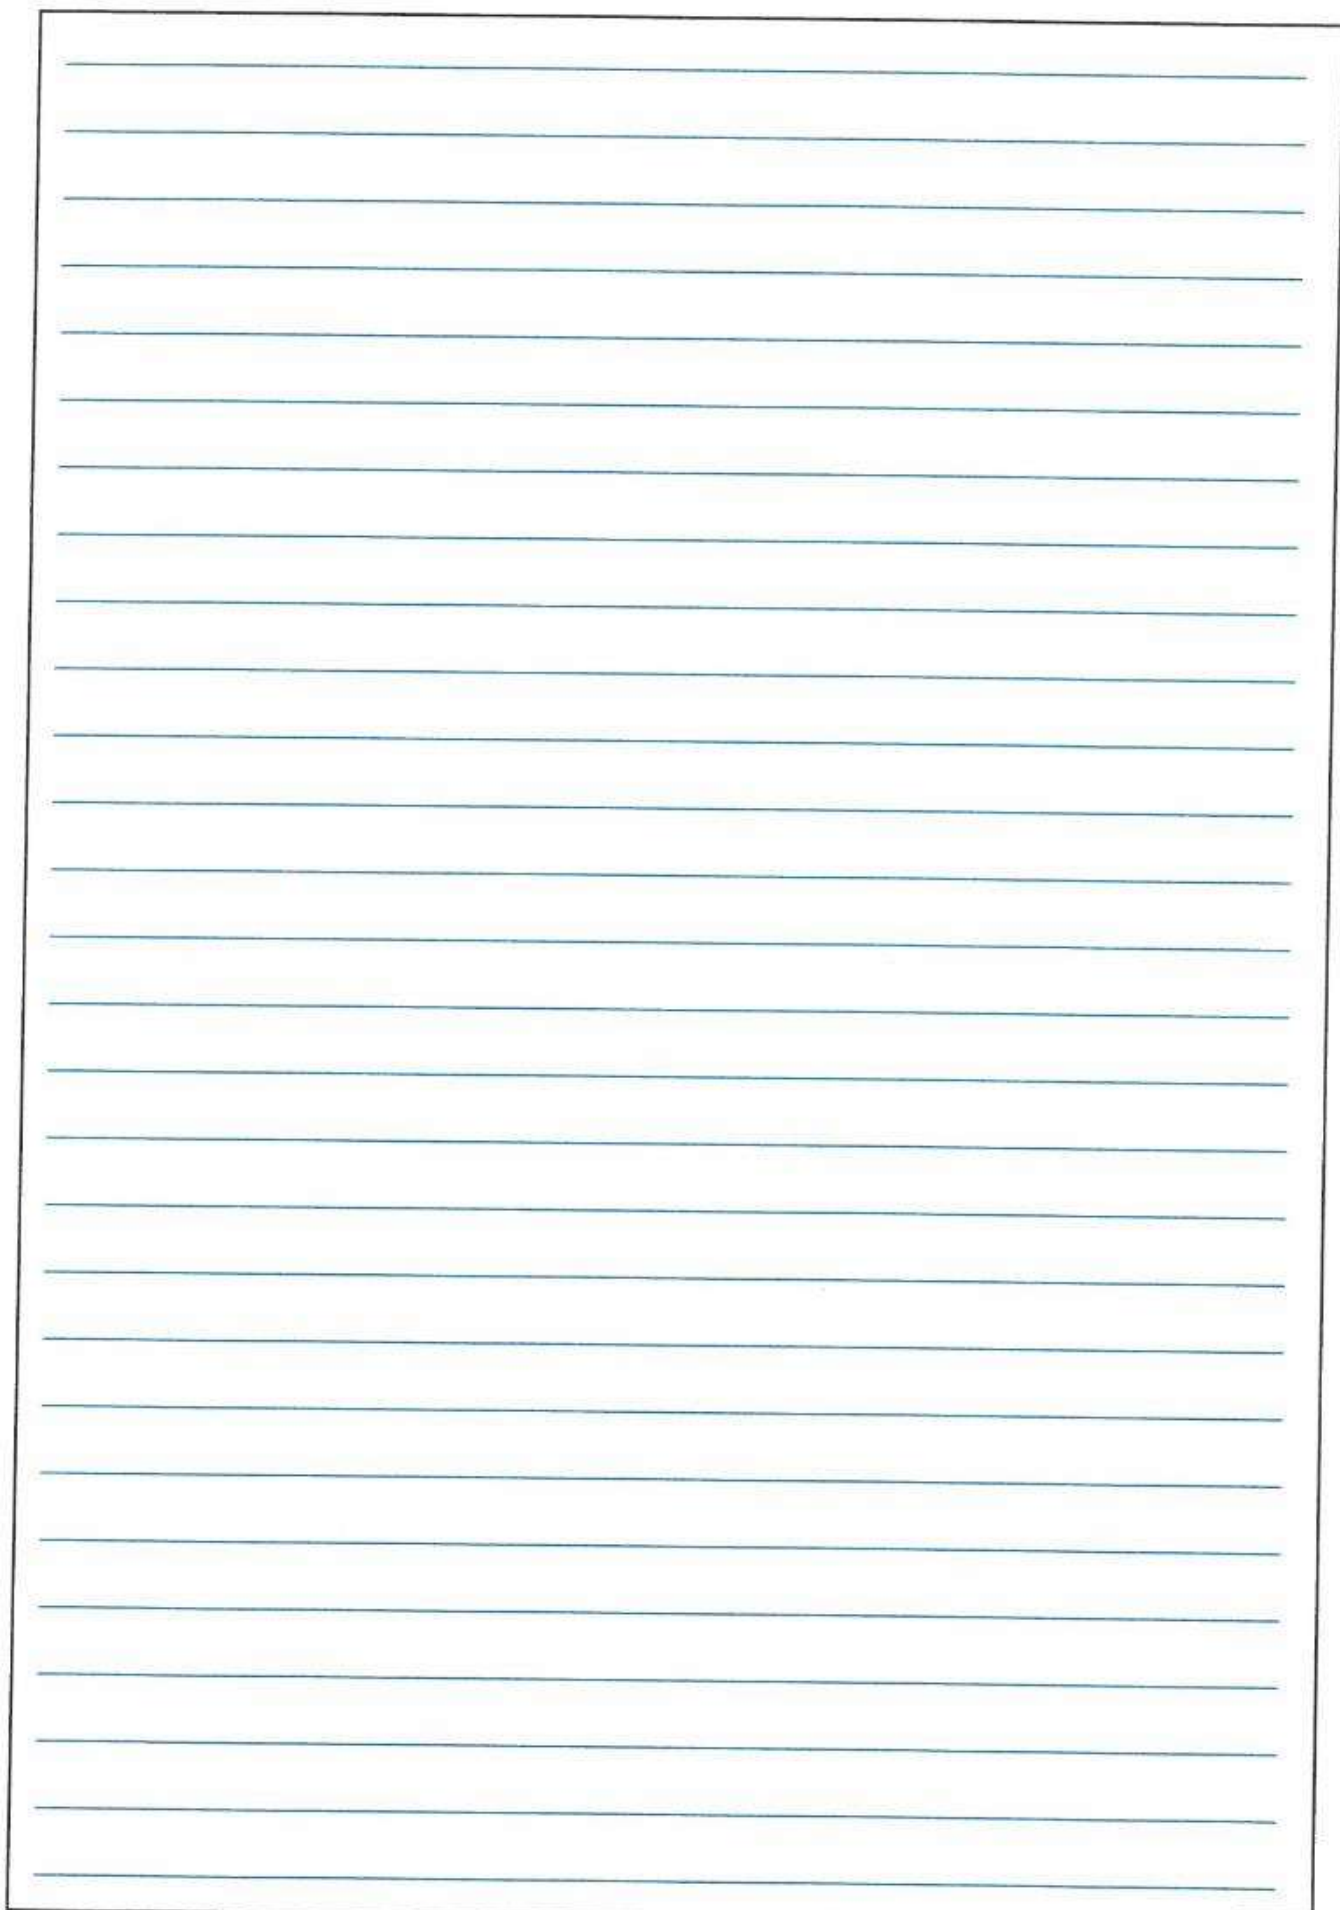

1. Larry needs corrective eyeglasses. Who should he see?
2. Larry also has problems with his throat. Who should he see?
3. Nadine noticed a small growth on her arm. Who should she see?
4. Jessie broke her leg. Who should treat her?
5. Carine has problems with her skin. Who should she see?
6. Fred has a lot of headaches because he is under stress. Who should treat him?
7. Megan bleeds a lot whenever she cuts herself. Who should she see?
8. Jessie was asked to get an x-ray of her broken leg. Who should she go to?
9. Betty is suffering from a stomachache. Who should see her?
10. Dody's father has had a heart attack. Who should examine him?

Part C

Writing Skills - More Summarizing

I. Directions: Choose two passages from any of the texts in Units I or II. Use the strategy that you practiced in class.

Passage 1 :

E. First Draft

Reminder: Cite your source(s) if you use someone else's ideas.

Which sentence type was used least? Why?

Part D

Focusing on Process/Product Writing

Section 1: Focusing on Introductions

With a peer, reread the introductions to all the essays you have written so far in Units I and II. What did you do to attract your reader's attention? How effective were you? Choose one of your introductions and rewrite it in the space below.

Section 2: Pre-writing Activities

A. Write down the topic that you chose _____

B. Brainstorming - Wh - Questions _____

The questions *who*, *what*, *when*, *where*, *why*, and *how* can be used to generate ideas. This strategy is also good for searching for details and for overcoming "writer's block." You must both ask and answer your own questions. Think of as many questions as you can that are related to your topic. Write your questions and answers in the space below.

What will your thesis statement probably be?

C. Summarizing and Paraphrasing _____

Select a passage and/or a quotation that is related to your topic from the texts in this chapter or from another multi-media source. Summarize or paraphrase this passage and/or quotation.

D. Reporting and Summarizing _____

Working with a peer, tell him/her (1) what your thesis is, (2) how you intend to support it, and (3) the probable number of paragraphs in your essay. If your plan seems feasible to your partner, you are ready to begin your first draft.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guideline

For the writer:

Read your essay clearly.

Ask for peer comments (positive and negative).

Make notes of suggested changes.

For the listener:

Has the proper format been followed?

Do all the writer's main supports refer back to the topic sentence/thesis statement?

Is there some sentence variety?

Has the writer summarized and/or paraphrased at least one other source?

Section 2: Revising

Use the criteria listed in the "Essay Assessment Guidelines" in this chapter.

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

Part F

Sequenced Writing Project

Writing a Report

I. Analyzing your Data

Group similar responses together systematically. For example, divide into piles the responses (*yes, no, maybe, sometimes*), the reasons, the types of people surveyed.

Responses:

Reasons:

Types surveyed:

What responses were given? What reasons were given for those responses? Did the responses vary depending upon the type of people you asked?

What can you conclude from your data?

At this point, decide on a logical order for presenting your data. For example,

all those in favor of _____

Reason 1

Reason 2

all those opposed to _____

Reason 1

Reason 2

all those who did not express an opinion _____

If you polled fewer than 20 people, use figures, such as four out of ten polled... If you polled more than 20 people, use percentages, such as 20% of those polled...

You have collected your data, drawn a conclusion, decided on what information to include, and organized your data. In Chapter 3 of this unit, you will write your report.

III. Second Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

IV. Third Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

V. Conclusion:

Section 6: Revising for Publishing

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the internet , you may need to revise it by going over the steps in parts D and E again.

Section 5: Final Outline

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

Concluding Sentence:

The Essay

I. Thesis Statement

II. First Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

2. Detail

This general conclusion will become the thesis statement for your report. You will explain or prove this statement by referring to the data that you collected in your survey.

Next, extract a general statement from each group of similar responses. These may become topic sentences for your body paragraphs.

Remember that your reader will expect you to explain what your raw data means. This is not just your own opinion but your interpretation of the data you have collected.

II. Arranging your Data

Keep your purpose in mind.

_____ Do you want to inform your reader about a group of opinions?

_____ Do you want to share a surprise finding(s) with your reader?

_____ Do you want to expose a situation which you believe needs to be changed?

To begin your report, you must have

1. a statement of the general results of your survey.

2. a description of your sample (number of questions asked, type of people asked, etc.)

Now write in the blanks below sentences using each of the words listed in the table with another word that correlates with it.

1.

2.

3.

4.

5.

6.

7.

8.

9.

10.

11.

12.

13.

14.

Part C

Writing Skills - Making Logical Assertions

I. Directions: Label the following sentences using one of the following categories you discussed in class

- A matter of judgment or opinion
- A matter of fact
- A question of taste
- A possible but unverified fact
- A logical assertion

Part D

Focusing on Process/Product Writing

Section 1: Focusing on Conclusions

Now reread the conclusions of all the final drafts you have written so far in this course. Choose the one you like best. In groups of four, discuss each other's conclusions. Make suggestions for improving these conclusions. Rewrite your conclusion below.

[illegible]

A. The best jobs are found in the geosciences.

B. A project manager reviews reports, keeps track of the money spent, and makes sure that others have enough to do.

C. A project manager should dress very casually while at work

D. Every day is different for an environmental consultant.

E. A project manager should be well-organized, detail-oriented, and interested in working with others.

F. Immunotherapy is treatment through immunization.

G. Computers create more employment than unemployment.

Language Conventions - Subject-verb Agreement

II. Directions: Read the following paragraph carefully. Then, insert an appropriate cohesive device in the blanks below.

The best part of environmental consulting is when I use my scientific training to review reports, discuss interpretations, and analyze the technical data that have been collected. (1) _____, I actually spend most of my time doing management tasks (2) _____ are also commonly done by engineers and environmental scientists. Typically, project managers learn how to keep track of projects (3) _____ on-the-job training. People (4) _____ have the most fun with this type of job are those (5) _____ are good writers, well-oriented, and interested in working with others.

Chapter 3

NEW WORLDS

Part A

A Way With Words

Change the following phrases using hyphenation. The first one is done for you.

A boy who is ten years old	A ten-year-old boy
A vacation of two weeks	
A table with three legs	
An earthquake which lasted for 40 seconds	
A proposition against war	
Weapons which reach long ranges	
A problem with many sides	
A TV program called a situation comedy	

Part B

Correlation

Fill out the chart below by putting checks where you think the words have a strong correlation—or where the words are usually used together. For example, when we use the word *depletion*, we think of resources such as energy, water, etc. Thus *depletion* and *energy* have a strong correlation.

	Energy	Wealth	Food	Level	Water	Reputation
Depletion						
Abundance						
Sustain						
Contamination						
Precipitation						
Dispose						

Section 1: Pre - writing Activities

A. Write down the topic that you chose . _____

B. Brainstorming - Cubing

Cubing involves looking at a topic from six angles so that you have several perspectives on the topic available for use. Spend from three to five minutes examining your topic from each of the following angles.

1. Describe it. (What does it look like?)
2. Compare it. (What is it similar to or different from?)
3. Analyze it. (What is it made of? Does it have parts?)
4. Associate it. (What does it remind you of? What do you associate it with?)
5. Apply it. (What can you do with it? What can you use it for?)
6. Predict. (Will it be used in the future?)

Now reread what you wrote for ideas that you like. Write them down. Look for interesting angles which might make a good perspective for an essay on your topic.

Write a possible thesis statement for your topic.

Lined paper template with horizontal ruling lines.

C. Paraphrasing

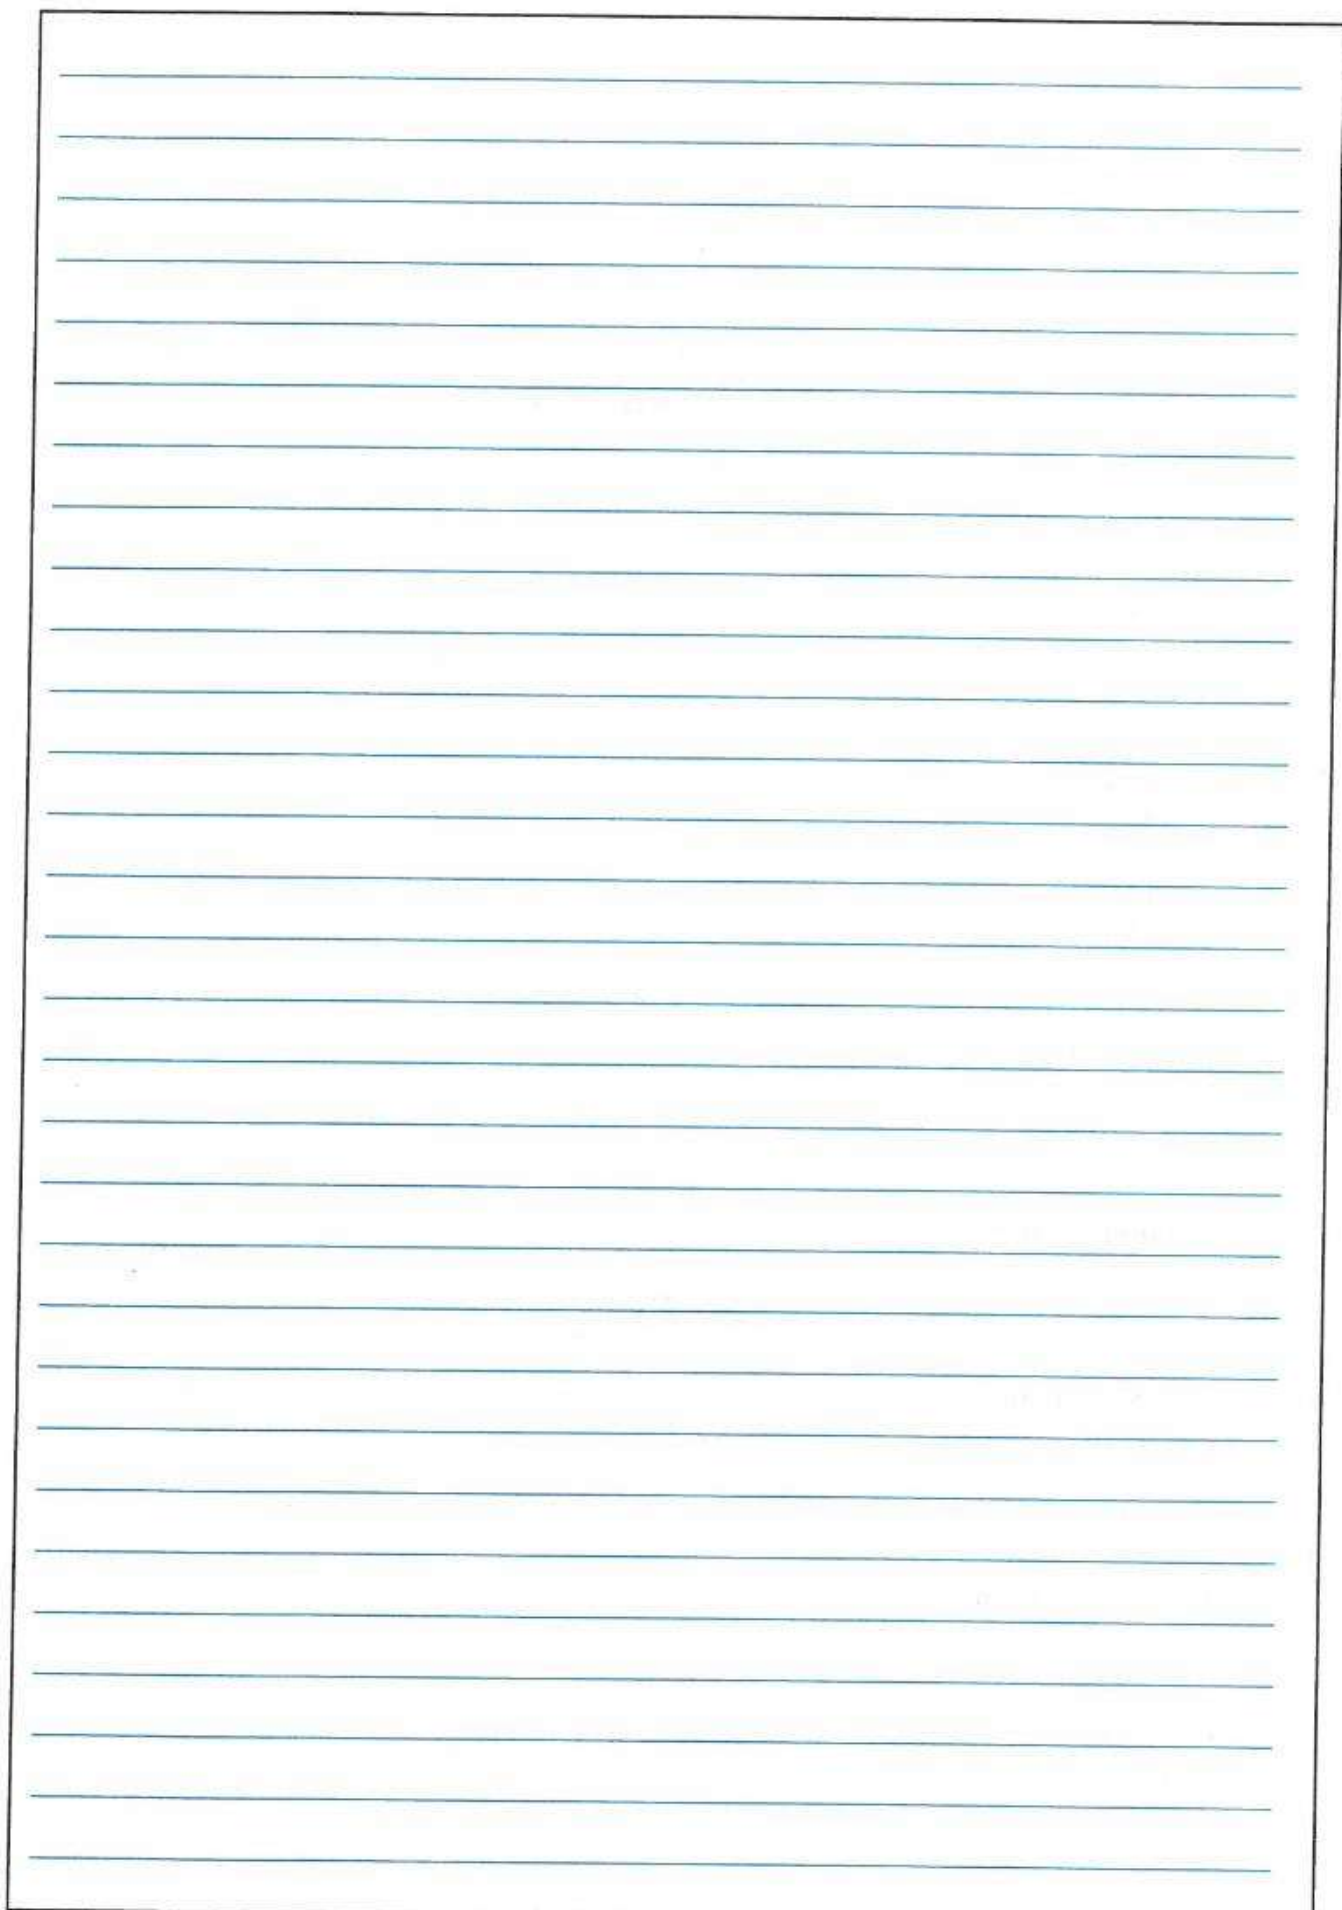

Select a passage and/or a quotation that is related to your topic from the texts in this chapter or from another multi-media source. Summarize or paraphrase this passage and/or quotation.

D. Reporting and Summarizing

Working with a peer, tell him/her (1) what your thesis statement is, (2) how you intend to support it and (3) the probable number of paragraphs. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Reminder: Cite your source(s).

Lined paper template with horizontal ruling lines.

Section 5: **Final Outline**

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

The World Within Us

Part A

A Way With Words

I. Which word in the box can be used with the words listed below?

neck leg temple bone throat

1. a misaligned _____
2. a numb _____
3. a stiff _____
4. a sore _____
5. a throbbing _____

II. Use the following words in sentences of your own. Check your sentence with that of your partner:

1. clasp

2. tuck in

3. exert

4. foster

5. aggravate

Part B

A Questionnaire

I. Take This Test.

? Yes ? No 1. Do you find yourself preoccupied with thoughts of food and eating?

? Yes ? No 2. Do you eat large quantities of food in a short period of time?

Directions: Edit the following passage for errors in pronoun agreement.

Just as there are many different types of headaches, there are many different types of treatment. If something works for one person, they may not be as effective for another. Overall, the best form of treatment is certainly prevention of the headaches in the first place. Be aware of your own personal headache triggers and attempt to avoid it.

Section 2: Pre-writing Activities

- ? Yes ? No 3. Have you used laxatives or diet pills in an attempt to control your weight?
- ? Yes ? No 4. Are you continuously dieting or practicing restrictive eating?
- ? Yes ? No 5. Do you always feel you are fat regardless of other people's opinion?
- ? Yes ? No 6. Are you so dissatisfied with your body that it makes you unhappy?
- ? Yes ? No 7. Are you fearful of gaining weight or becoming fat?
- ? Yes ? No 8. Does your weight determine how you feel about yourself?
- ? Yes ? No 9. Do you eat when you get upset or stressed?
- ? Yes ? No 10. Do you avoid any food that contains fat?
- ? Yes ? No 11. Do you worry that someone will find out about your eating patterns?
- ? Yes ? No 12. Do you feel a lack of control over your eating behavior?
- ? Yes ? No 13. Do you feel self-conscious or embarrassed about eating?
- ? Yes ? No 14. Do you feel you have to exercise after you eat?
- ? Yes ? No 15. Do you sneak food or lie about eating habits?

If you answered "yes" to 10 out of the 15 questions, you might consider talking with someone.

Part C

Writing Skills - Avoiding Logical Fallacies

Directions: Match the following statements with the type of logical fallacy which it contains using the list below.

- a. Argument from Ignorance
- b. Either/or (Black/White) Fallacy
- c. Begging the Question
- d. False Cause
- e. Slippery Slope
- f. Genetic Fallacy
- g. False Analogy
- h. Hasty Generalization
- i. Genuine but Insignificant Cause

- _____ 1. Since you cannot prove that aliens do not exist, they must exist.
- _____ 2. Smoking is causing air pollution in Beirut.
- _____ 3. If you study, you either pass or fail.
- _____ 4. Since I am not lying, it follows that I am telling the truth.
- _____ 5. This must be a good place to eat. The chef is French.
- _____ 6. May and Mazen do not get along , like fire and water.
- _____ 7. If you do not exercise regularly, you will grow fat and die young.
- _____ 8. We have more crime in Lebanon because of violence on television.
- _____ 9. Scientific research has proven that pollution will destroy the Earth.

Language Conventions: Pronoun Agreement

Directions: Underline the antecedent in each of the following sentences. Then circle the correct pronoun.

1. While a biological condition may make you more susceptible to headaches, certain factors called "triggers" are what actually set it/them off.
2. Anyone who is bulimic tries to control his or her/ their weight by bingeing and purging in an attempt to control their/his or her weight.
3. Neither an anorexic nor a bulimic realizes early enough how very serious his or her/their eating disorder is.
4. Both anorexics and bulimics may suffer for years before he or she/they seek professional help.
5. The family must play its/their part in helping an anorexic or bulimic overcome his or her/their problem.

Directions: Edit the following passage for errors in pronoun agreement.

Just as there are many different types of headaches, there are many different types of treatment. If something works for one person, they may not be as effective for another. Overall, the best form of treatment is certainly prevention of the headache in the first place. Be aware of your own personal headache triggers and attempt to avoid it..

Part D

Focusing on Process/Product Writing

Section 1: Focusing on Unity

Read the following excerpt from a text on eating disorders. Decide where each new paragraph should begin. Underline the first sentence of each paragraph.

Anorexia - An Adolescent Problem

Anorexia nervosa is found predominantly among adolescent females between 12 and 18 years of age. These young women most often come from middle- to upper-class families and are described as intelligent, obedient, even "model" children until the eating disorder emerges. At that point, the constant battle over eating disrupts almost every aspect of life for the girl and her family. The disorder is characterized by a relentless pursuit of thinness, coupled with an intense preoccupation with food, eating, and body weight. Anorexics are expert calorie counters. They eventually eliminate all "fattening" foods (most carbohydrates and all fats) and are frequently vegetarians. They often spend considerable time and effort preparing food for others and insist that others eat while they refrain from eating. Anorexics also display peculiar food-handling behaviors, such as food hoarding, cutting food into minute pieces, toying with food, and dawdling for hours over a very small meal. Transient food fads and rituals are also common. One symptom of anorexia nervosa is displaying a distorted body image. Many anorexics view their skeleton-like figures as grossly overweight and complain that they are "too fat" even though significant weight loss is obvious. Other symptoms of anorexia include a sense of ineffectiveness and depression, discomfort after eating, constipation, bingeing, self-induced vomiting, laxative abuse, and hyperactivity. They often use exercise only as another strategy to burn calories and further decrease their weight. Finally, the classic symptoms of starvation appear, including anemia, electrolyte imbalances, and endocrine and immune dysfunction. If left untreated, the deterioration of brain tissue results in apathy, coma, and death in about 1 in 20 anorexics. The only effective treatment is hospitalization. Weight gain and restoration of adequate nutritional status are imperative. Because of the elaborate measures taken by some anorexics to refuse food, refeeding must often be by tube or intravenous feeding. Drug therapy is also used to reduce hyperactivity and anxiety, as well as to stimulate appetite. However, psychotherapy is the cornerstone for treatment. Behavior modification, family therapy, and nutritional counseling are most successful in the long-term rehabilitation of persons with anorexia nervosa.

Blank lined page for writing.

Begin your second loop by focusing on your summary sentence. Write for five minutes.

This image shows a single sheet of white paper with horizontal blue lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Read what you wrote. Summarize the main idea.

Begin your third loop by focusing on the summary sentence you just wrote down.
Write for another five minutes.

This image shows a single sheet of white paper with horizontal blue lines, resembling notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

1. The first part of the text is a description of the author's childhood.

Handwriting practice lines consisting of 20 horizontal blue lines.

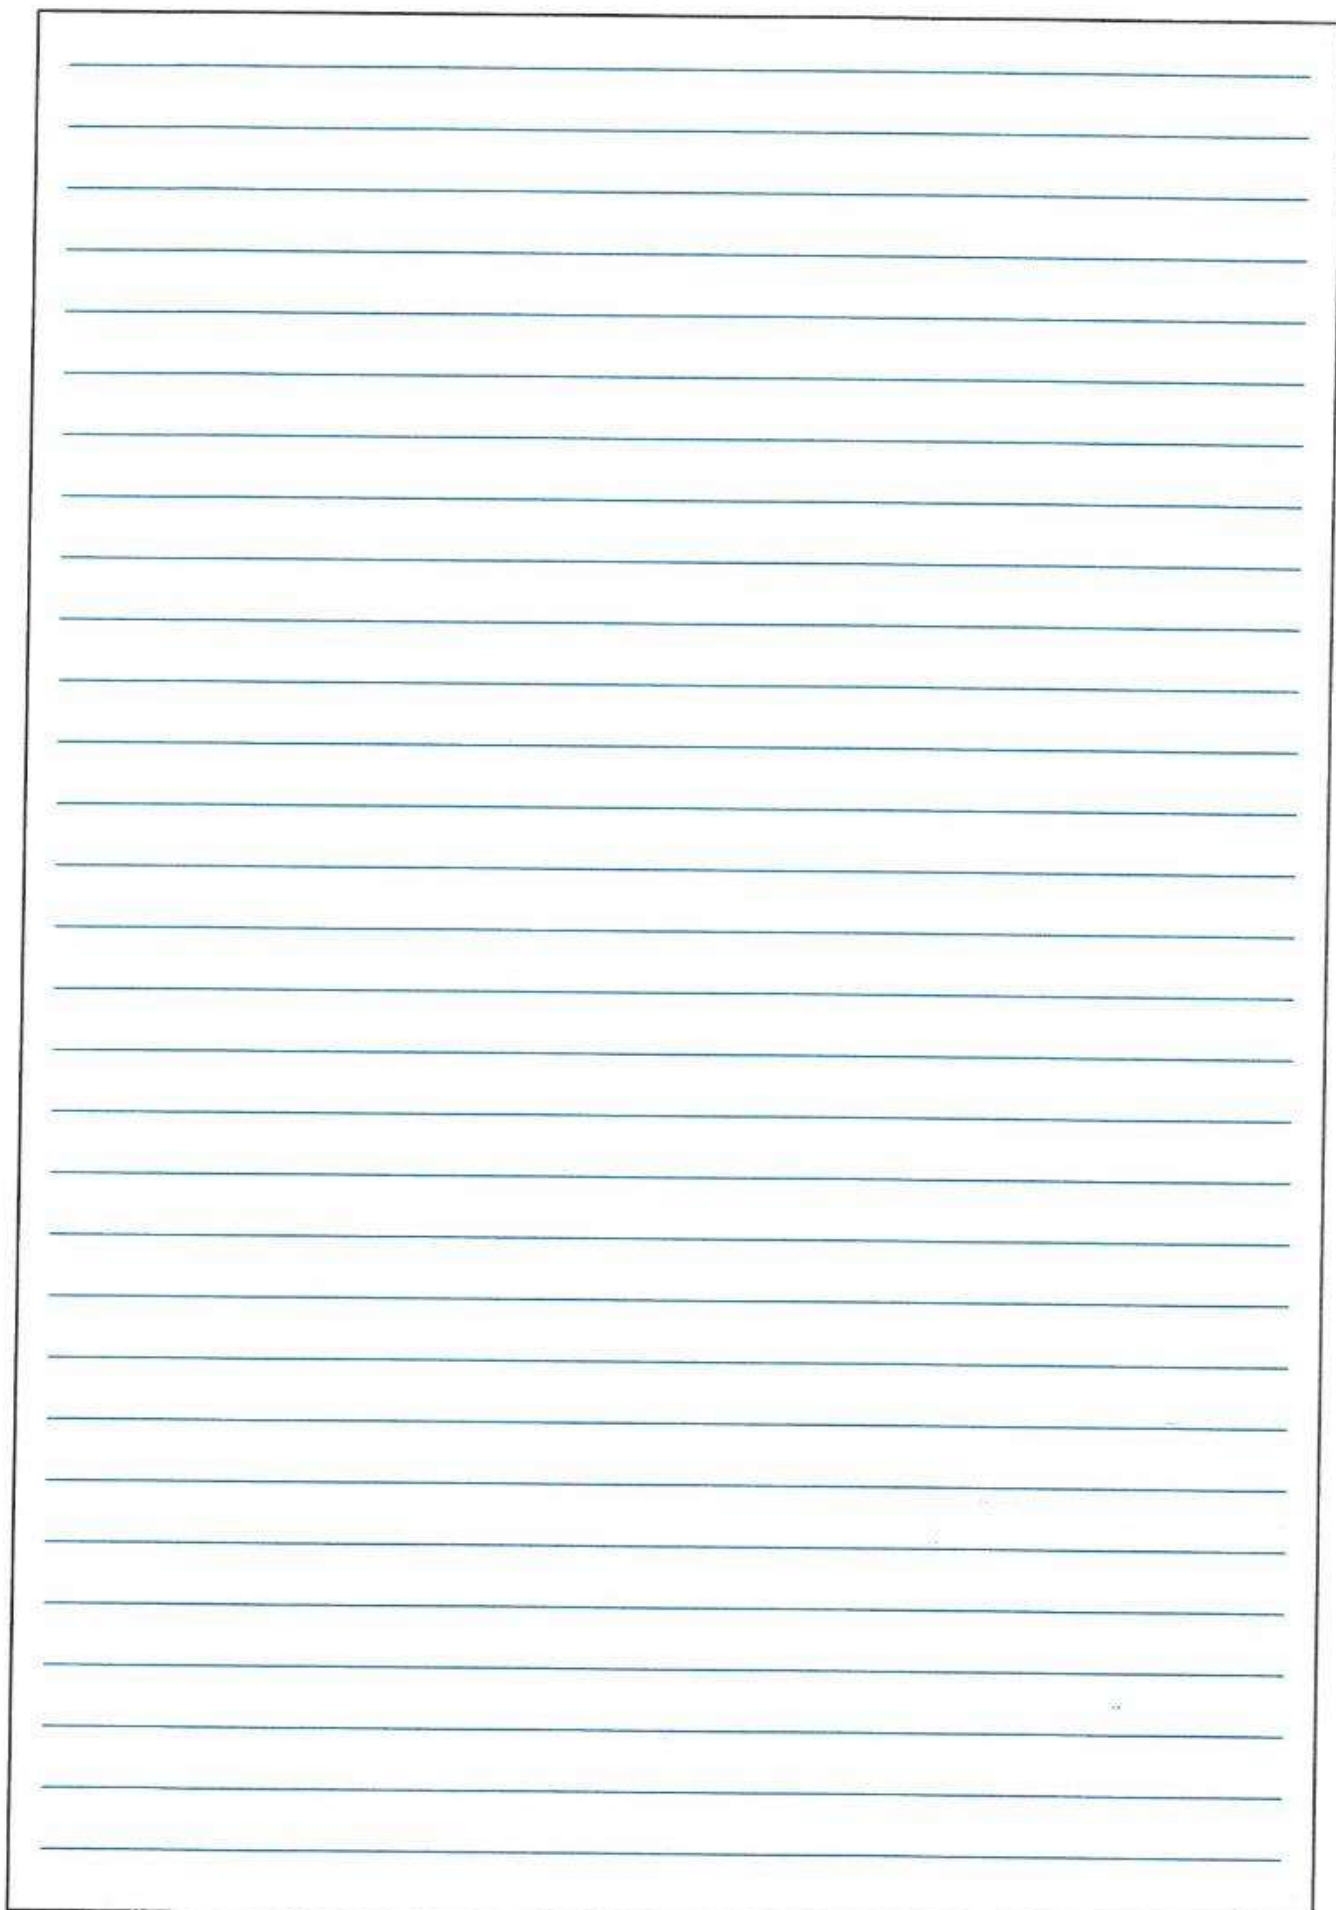

Stop and read what you have written. Write down one complete sentence that summarizes what you have written or find a sentence that you wrote that seems to be the most important idea in your writing. Circle it. This ends your first loop.

If you have found an interesting idea, use it in your essay. This strategy is helpful for a writer who is looking for an “angle” or a clear approach to a subject.

Write down a possible thesis statement for your topic.

C. Paraphrasing/Summarizing/Quoting

Select a passage and/or quotation that is related to your topic from the texts in this chapter or from another multi-media source. Summarize or paraphrase this passage and/or quotation.

D. Reporting

Working with a peer, tell him/her (1) what your thesis statement is, (2) how you intend to support it, and (3) the probable number of paragraphs in your essay. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Reminder: Cite your sources.

1. The first step is to identify the problem. This involves understanding the situation and what needs to be solved.

2. Next, we need to gather information. This could involve looking at data, talking to experts, or researching the problem.

3. Once we have the information, we can start to think of solutions. It's important to consider different options and weigh their pros and cons.

4. After we have a few ideas, we should choose the best one. This is often the simplest solution that still solves the problem.

5. Finally, we need to implement the solution. This means putting it into action and making sure it works.

6. Once the solution is implemented, we should evaluate it. This means checking to see if the problem has been solved and if the solution is still the best one.

7. If the solution doesn't work, we may need to go back to step 3 and think of a different one.

8. If the solution does work, we should celebrate! We've successfully solved the problem.

9. Finally, we should document the solution. This means writing down what we did and how we did it, so that we can use it again in the future.

10. And that's it! We've solved the problem.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guidelines

For the writer:

- Read your paragraph clearly.
- Ask for peer comments (positive and negative).
- Make notes of suggested changes.

For the listener:

- Has the proper format been followed?
- Do all the writer's main supports refer back to the thesis statement?
- Does the writer use effective sub-supports?
- Does the writer use coherence devices properly?
- Has the writer summarized or paraphrased from at least one other source?

Section 2: Revising

Use the criteria listed in the "Essay Assessment Guidelines."

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

III. Second Main Support

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

IV. Third Main Support

A. First Supporting Idea

1. Detail
2. Detail

B. Second Supporting Idea

1. Detail
2. Detail

V. Conclusion:

Section 6: Revising for Publishing

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the Internet , you may need to revise it by going over the steps in parts D and E again.

Part F

Sequenced Writing Project

I. Making Notes on Your Interview

When did the interview take place?

What kind(s) of nonverbal communication did the expert use?

What is your personal impression of the interview?

What main idea emerged from the interview?

List supports for your main idea.

II. First Draft - Report on Your Interview with an Expert

Section 5: Final Outline

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

B. Second Major Support

1. First Minor Support

a. Detail

b. Detail

2. Second Minor Support

a. Detail

b. Detail

Concluding Sentence:

The Essay

I. Thesis Statement

II. First Main Support

A. First Supporting Idea

1. Detail

2. Detail

B. Second Supporting Idea

1. Detail

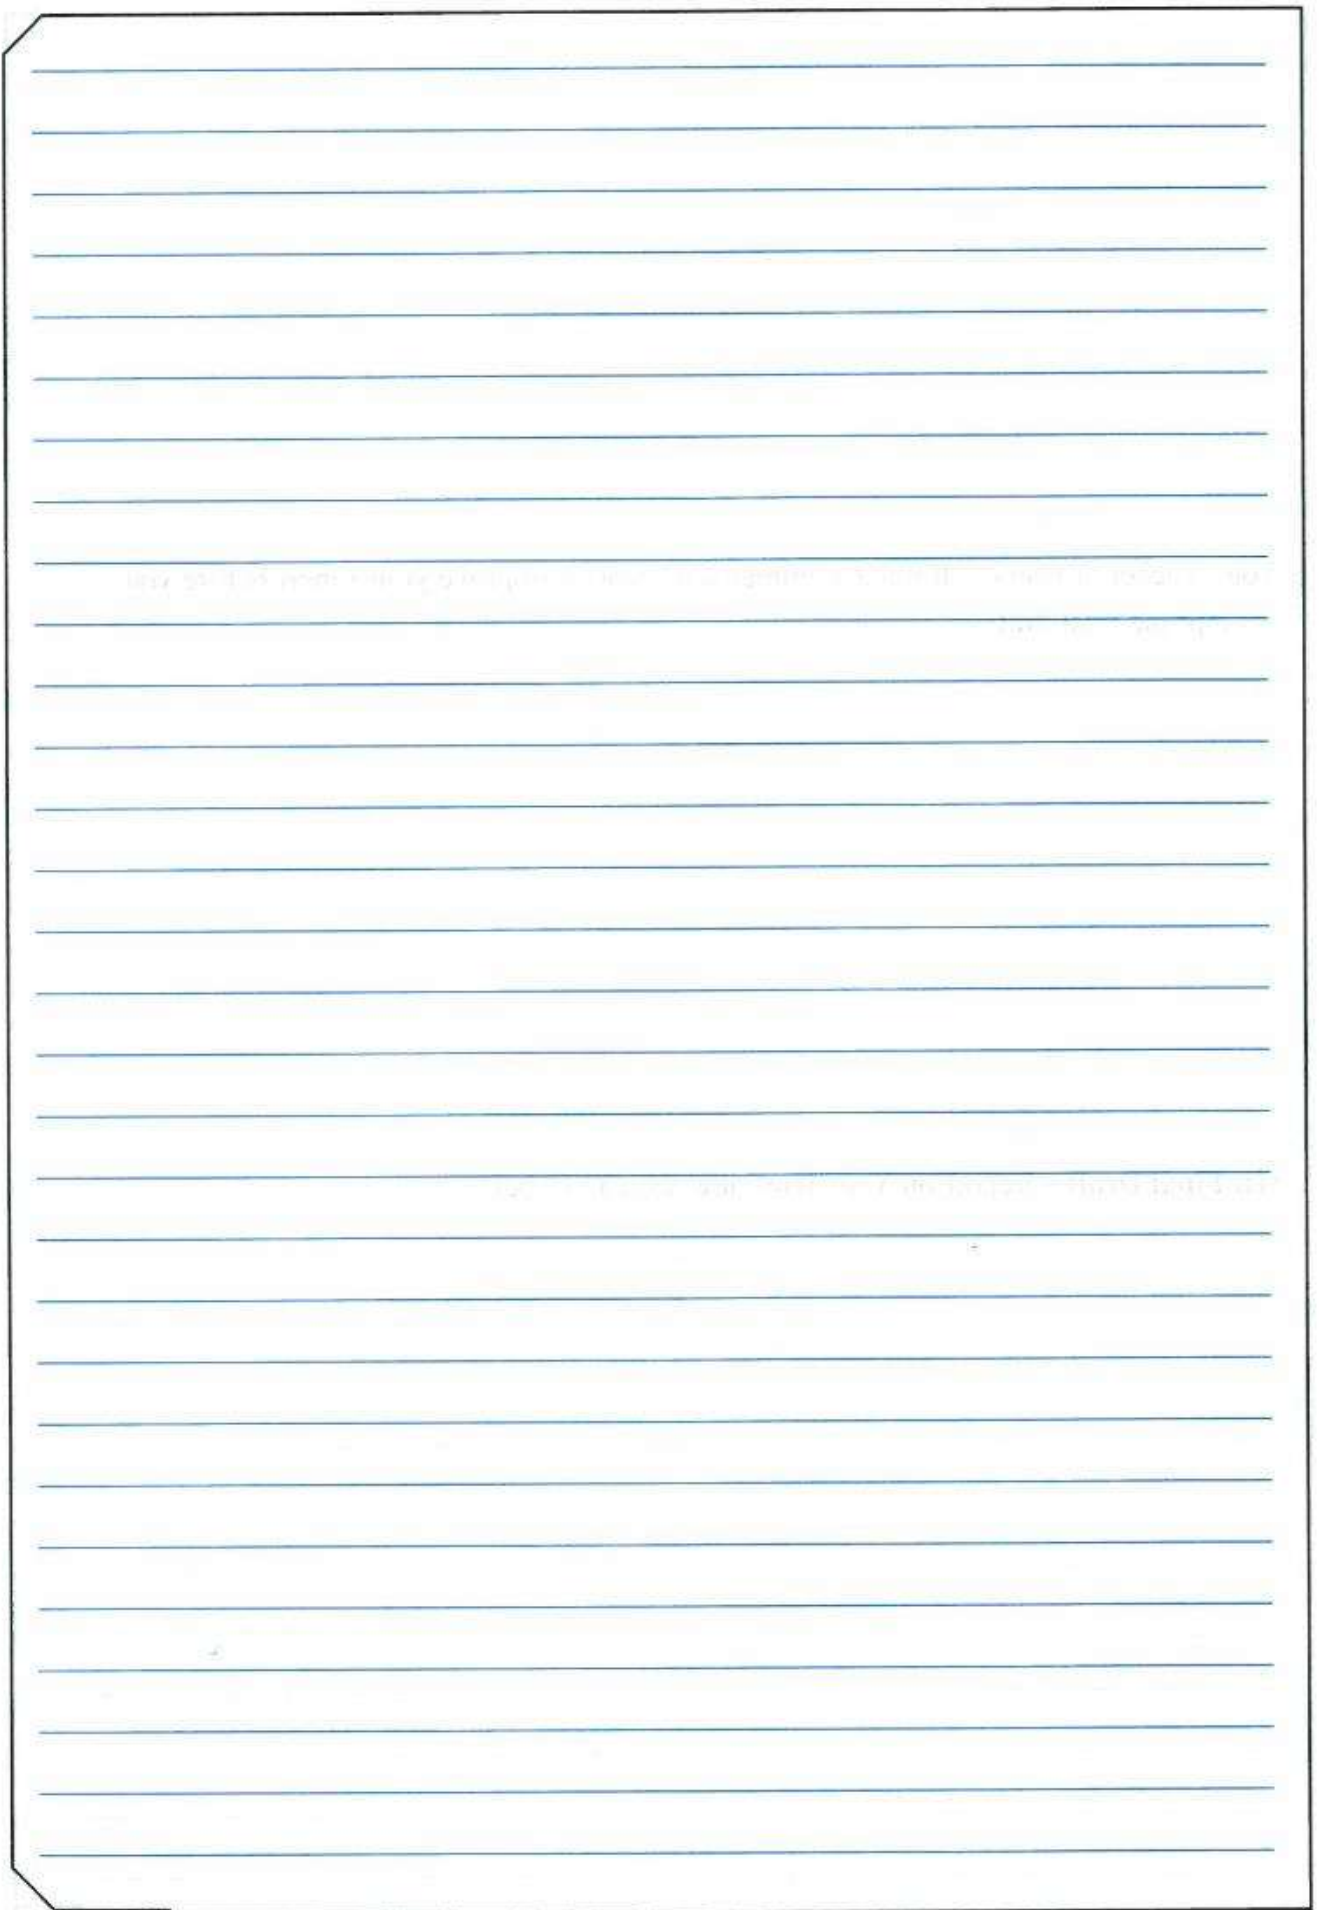

2. Detail

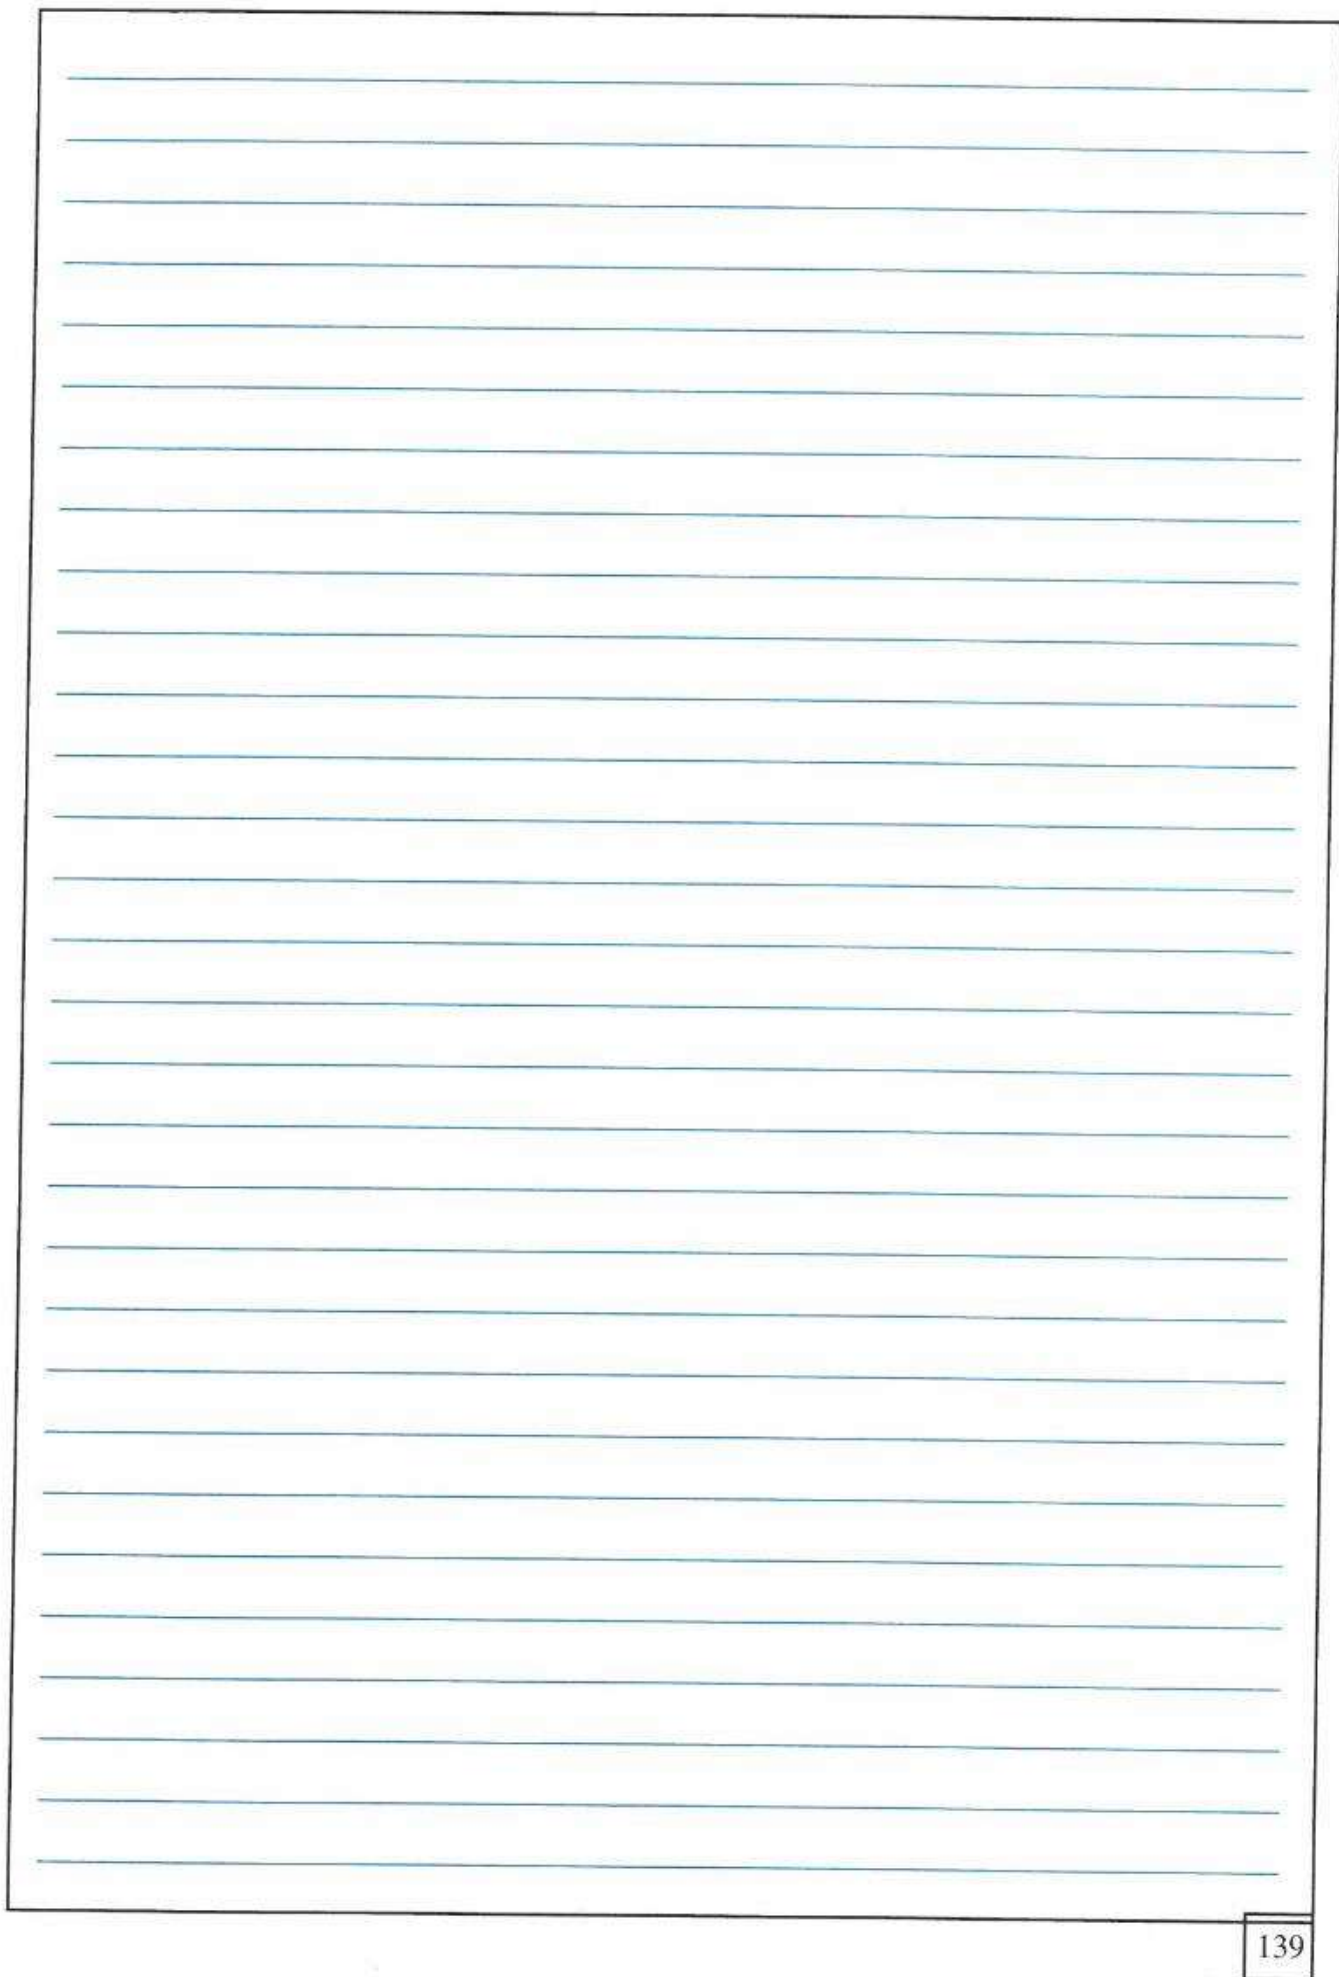

This image shows a single sheet of white paper with horizontal blue lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

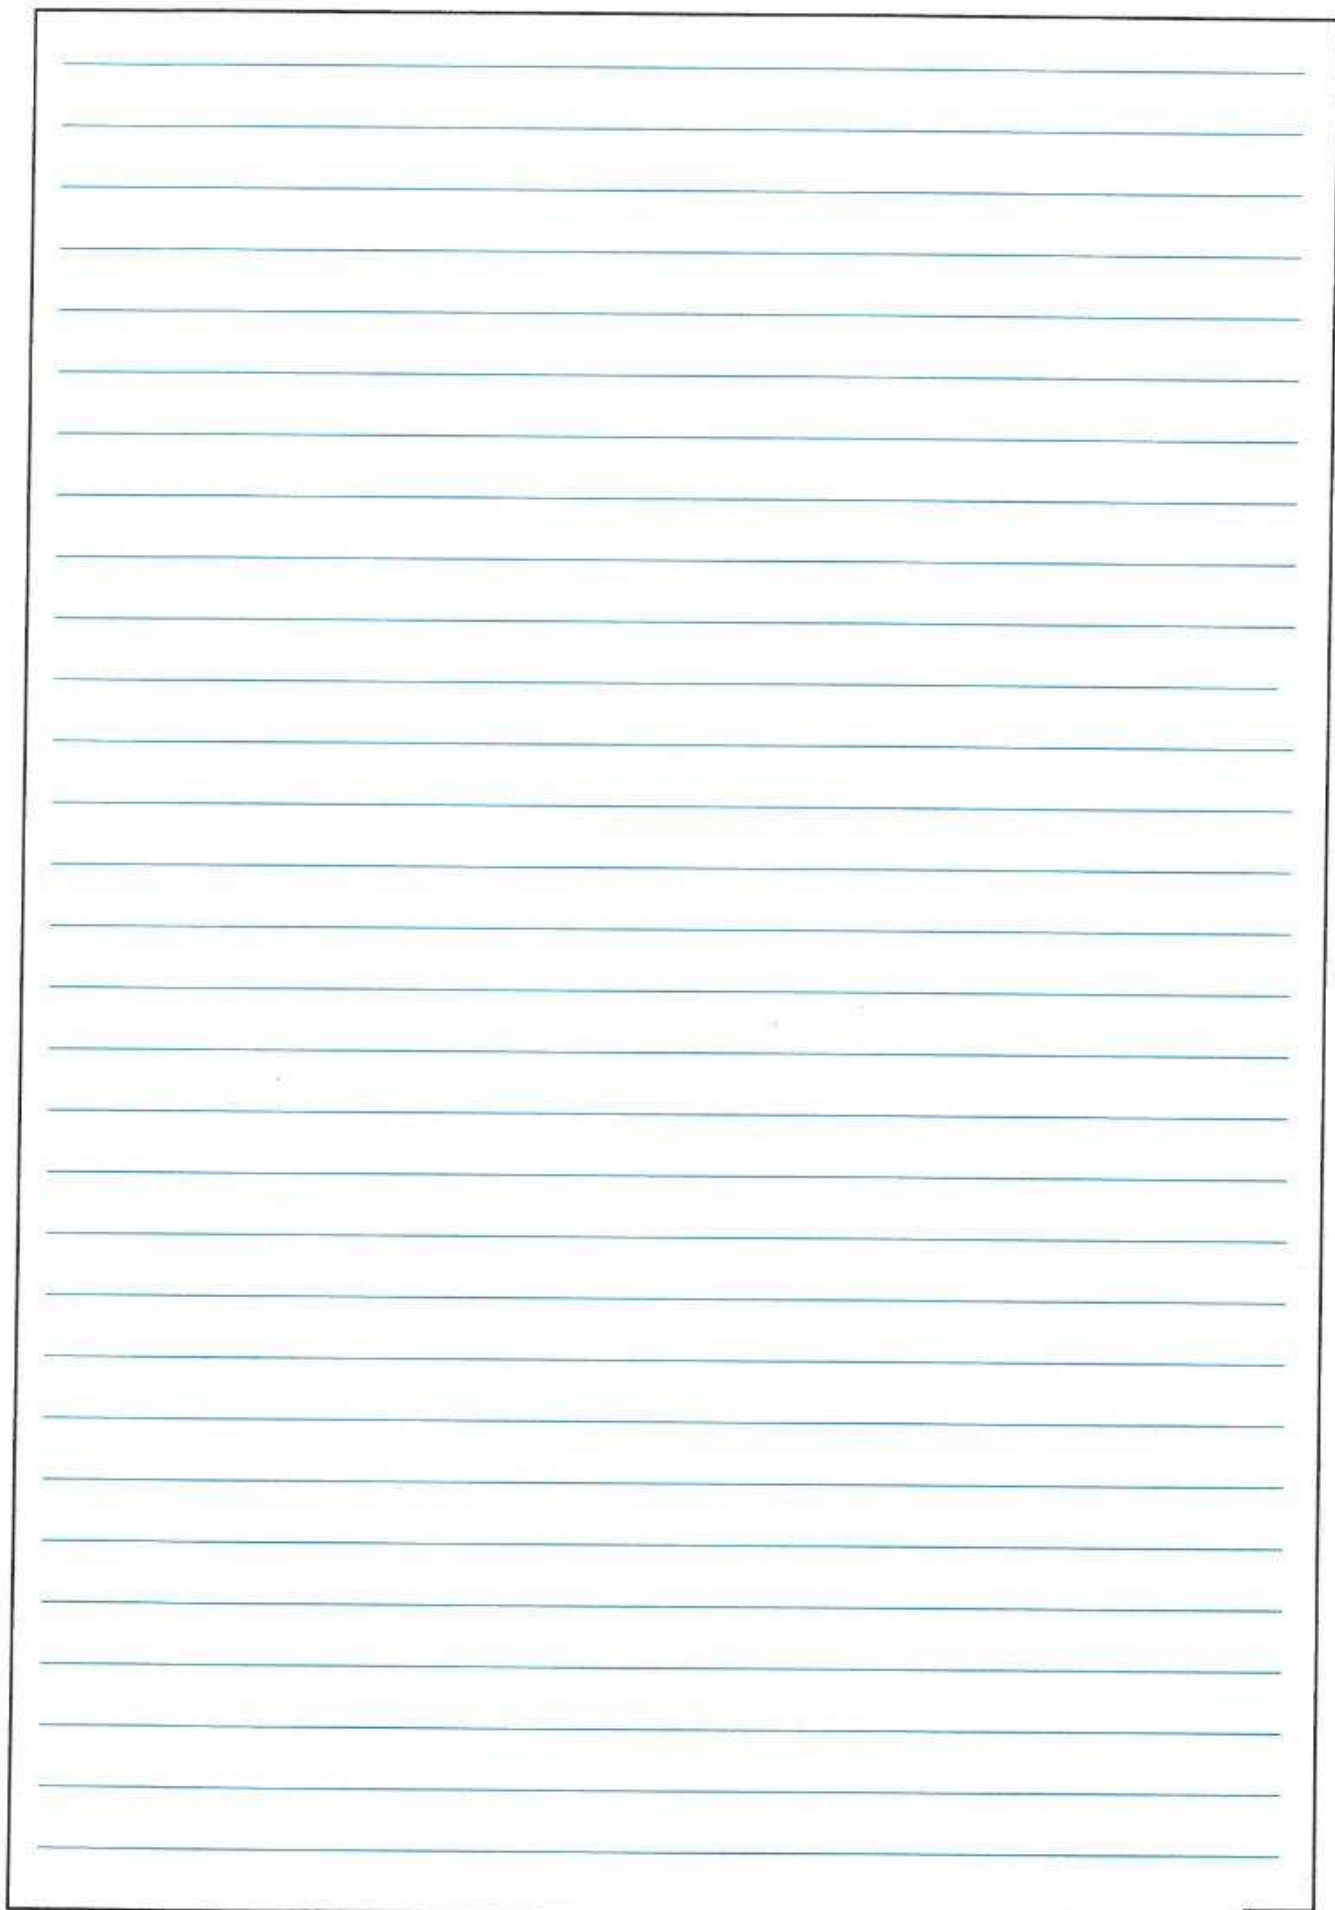

Your teacher or peers will make comments on how to improve your report before you attempt the final draft.

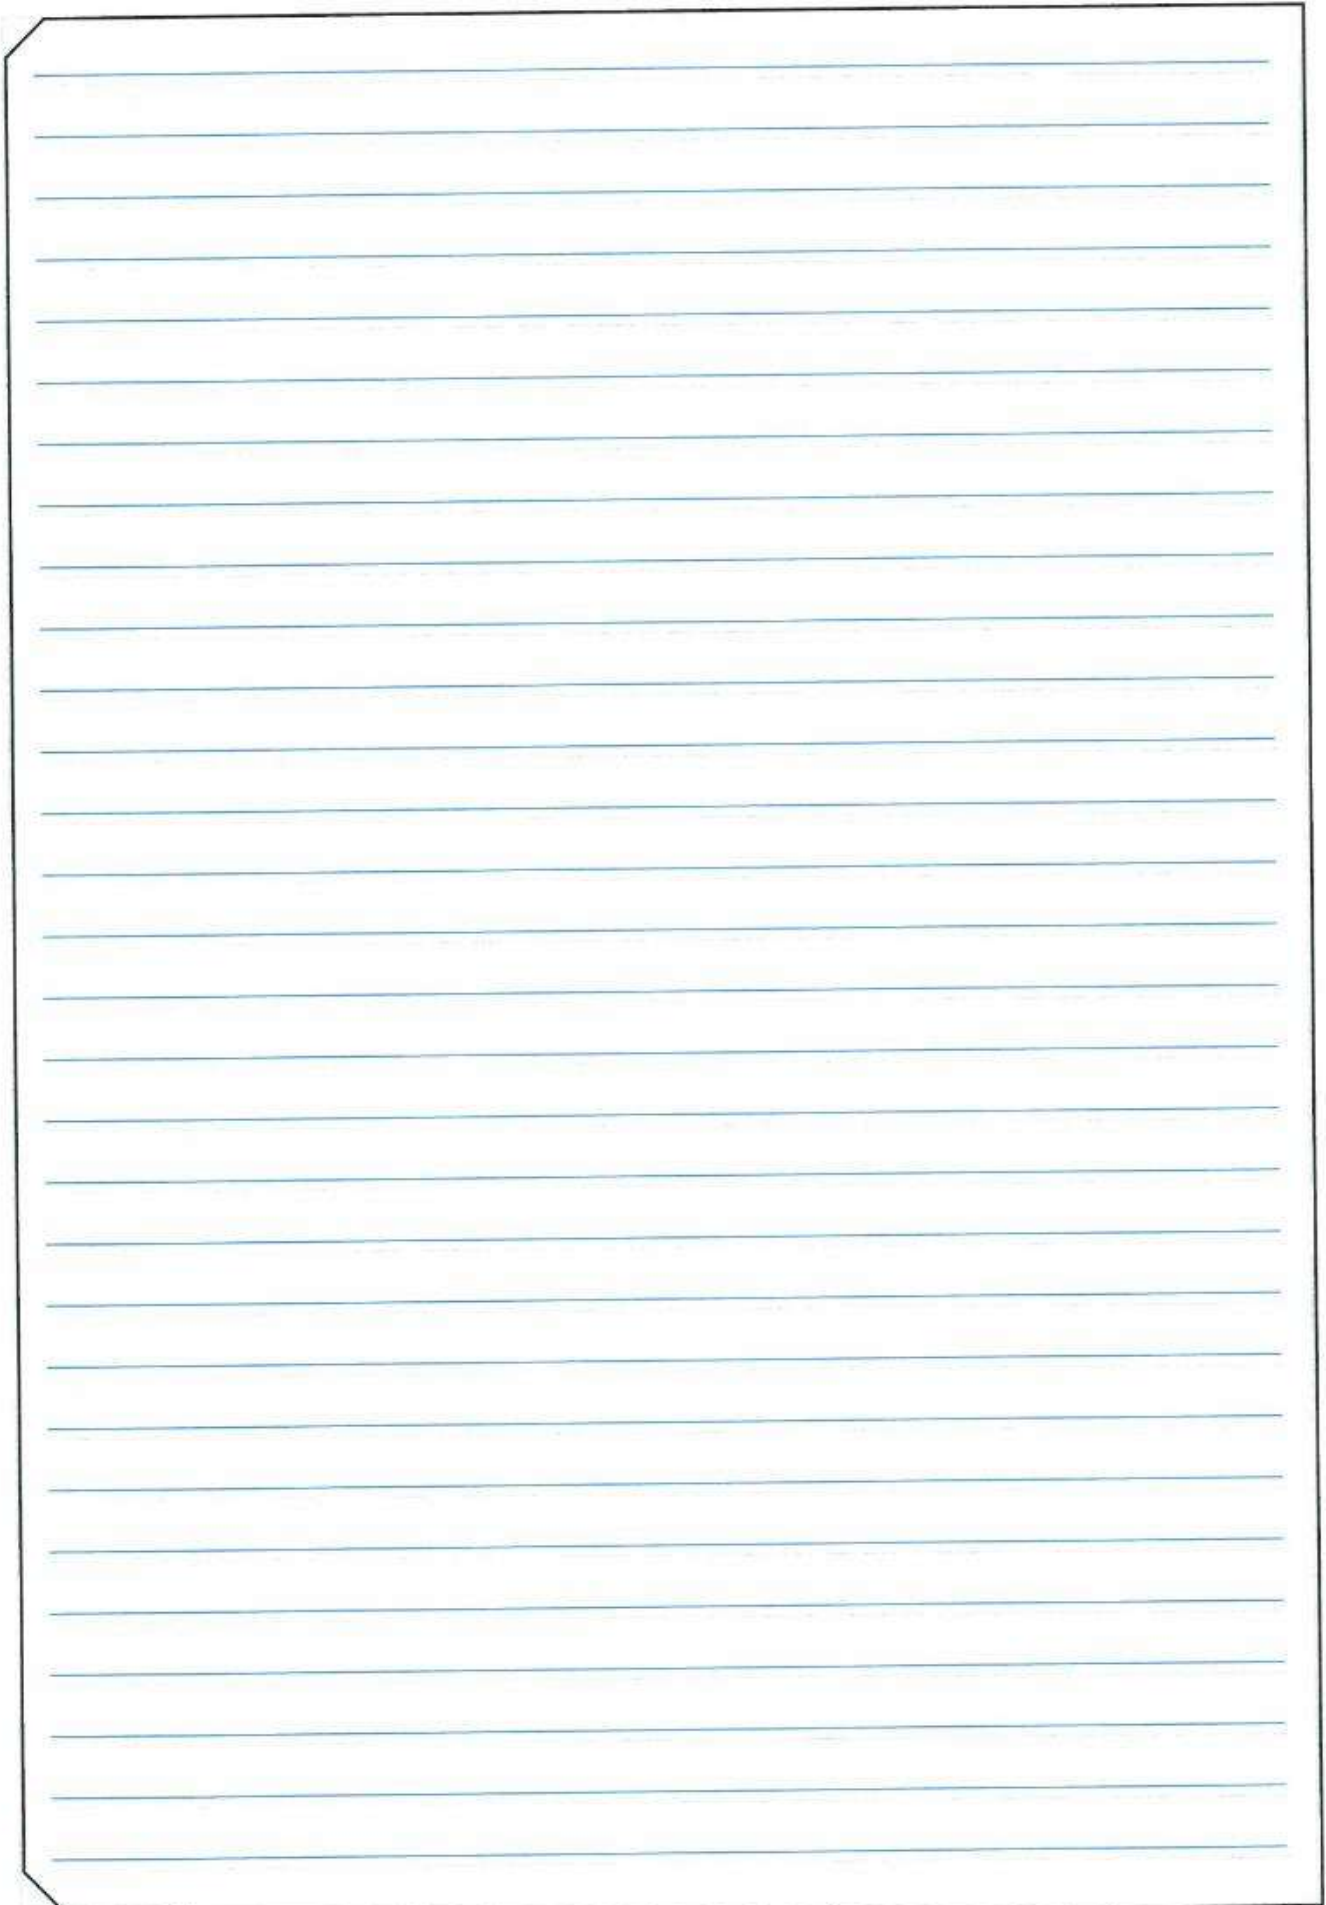

III. Final Draft - Report on Your Interview with an Expert

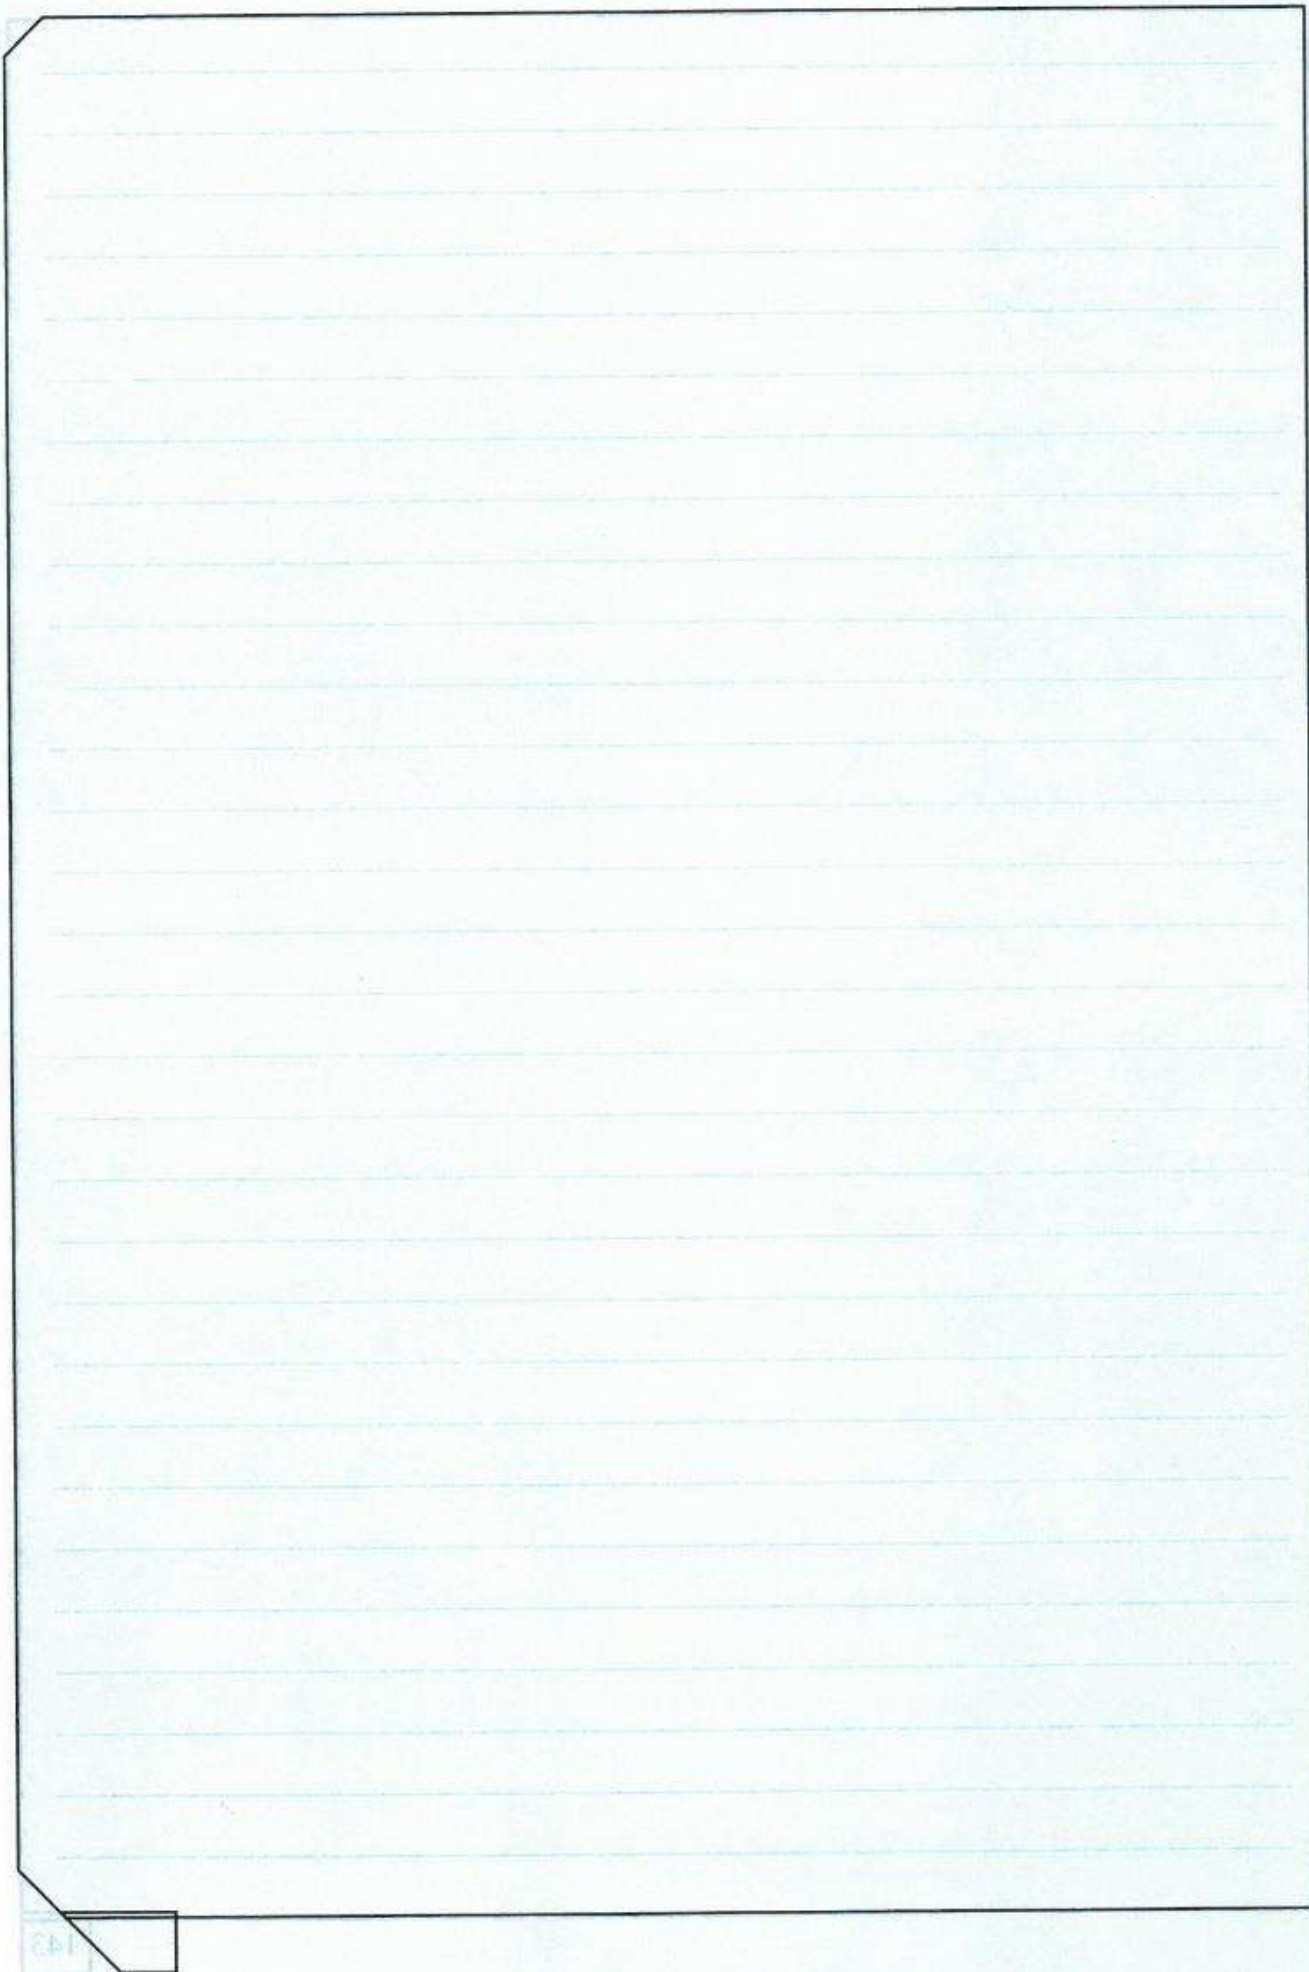

[illegible]

D. Paraphrase

II. Directions: Choose a longer passage from the texts in Part A or B of this chapter which you consider to be important or impressive information. Summarize this passage.

Part C

Writing Skills - More Paraphrasing and Summarizing

- I. Directions:** Choose two statements from the texts in Parts A and B of this chapter which you consider to be important or impressive information. Quote them and then paraphrase each of these quotations. Do not forget to state the source.

A. Quotation #1:

B. Paraphrase

C. Quotation #2

Part B

A Way With Words

- I. Fill in the blank with the word that best suits the meaning of the sentence. Choose a word from the box below and make any necessary changes.

access disseminate enhance sustainable trend

1. A light meal will not _____ us throughout the whole day.
2. The moonlight _____ the beauty of the scene as the couple gazed at the stars.
3. Their job was _____ ideas of rebellion among the populace.
4. More people now are knowledgeable about banking, so _____ to invest in stocks is going up.
5. The entry way was marked "Employees Only," thus barring _____ into the building to the general public.

- II. Now use each of the words in a sentence of your own.

1. access

2. disseminate

3. enhance

4. sustainable

5. trend

Chapter 2

The World Around Us

Part A

A Way With Words

I. Fill in the blank with the word that best suits the meaning of the sentence. Choose a word from the box below and make any necessary changes.

advocate enactment in earnest strive landfill massive contamination implement

1. He _____ for recognition as an artist.
2. The President must be given a chance to _____ his economic plans.
3. I do not _____ building large factories in residential areas.
4. We must make _____ efforts to improve sanitary conditions.
5. The government should find plans to improve ways of getting rid of garbage other than _____.
6. It soon began to snow _____.
7. Don't eat this food: it may have been _____ by the flies.
8. The _____ of the new environment law must be put in effect as soon as possible.

II. Now use each word in a meaningful sentence of your own.

1. advocate

2. enactment

3. in earnest

4. strive

5. landfill

5. massive

5. contamination

5. implement

Section 2: Pre-writing Activities

A. Write down the topic that you chose .

B. Brainstorming - Student's Choice

You have practiced several brainstorming strategies in this text (looping, cubing, questions, mind mapping, listing, and free writing). Choose one of these strategies which you consider suitable for gathering ideas for your topic.

Brainstorming Strategy: _____

3. Paraphrase the third paragraph and cite it.

4. Prepare a reference item for the source of this excerpt.

Write down a possible thesis statement for your topic.

C. Paraphrasing /Summarizing/Quoting

Select a passage and/or a quotation that is related to your topic from the texts in this chapter or from another multi-media source. Summarize or paraphrase the passage and/or quotation.

D. Reporting

Working with a classmate, tell him/her (1) what your thesis will be, (2) how you intend to support it, and (3) the probable number of body paragraphs. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Reminder: Cite your source(s).

Dr. DeBakey has also dedicated 50 years of service to the Baylor College of Medicine in Houston, Texas, where he held the posts of president and chancellor. Despite a hectic schedule, he still finds time to visit hospitals around the world, suggesting ways to bring their facilities up-to-date. During these trips, he also advocates "telemedicine," using video and the Internet, which will enable doctors around the world to consult daily with doctors in Houston or other places in order to receive training in new procedures and specific cases. During a visit to Lebanon in 1997, Dr. DeBakey placed the cornerstone for the DeBakey Medical Center, which will be built on the Lebanese American University campus near Byblos. Indeed, Dr. Micheal DeBakey is a legend, even in his own day.

Directions:

1. Quote a sentence which you consider to be important in this excerpt.

2. Summarize the excerpt.

Language Conventions: Comma Splices and Fused Sentences

III. Directions: Rewrite the following sentences, revising for parallelism.

1. The types of recycling now being carried out full scale in Japan are for steel cans, aluminum cans , and glass bottles are also being recycled.
2. Formerly, science was taught by the textbook method, while now the laboratory method is employed.
3. The school year normally extends over three seasons: fall, winter and in spring.
4. It was both a long lecture and very boring.
5. This is the time not for words, but action.

Part D

Focusing on Process/Product Writing

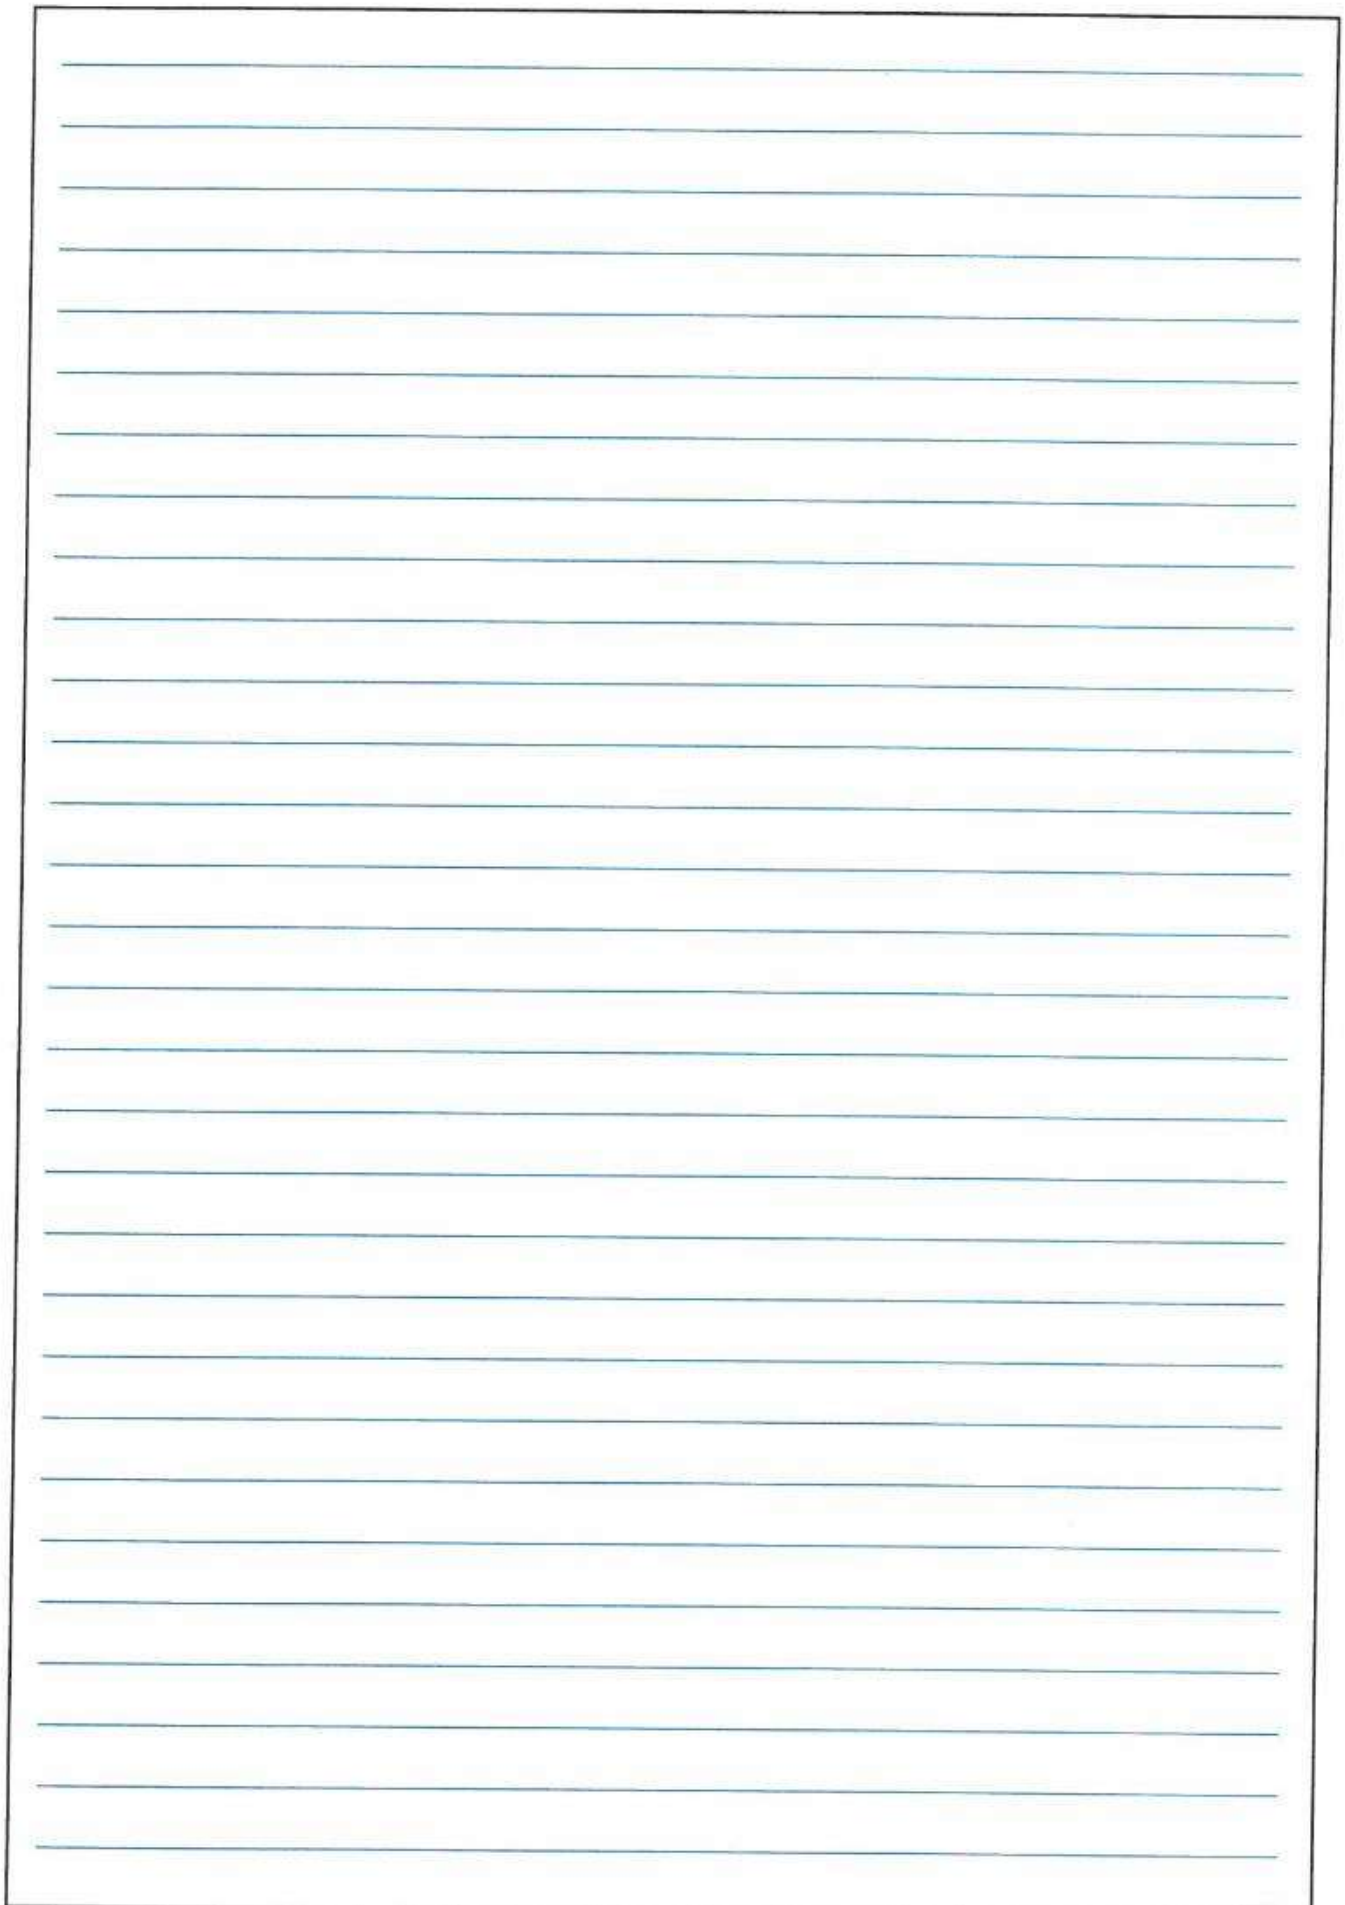

Section 1: Refocusing on Citing Sources, Paraphrasing, Summarizing, Quoting

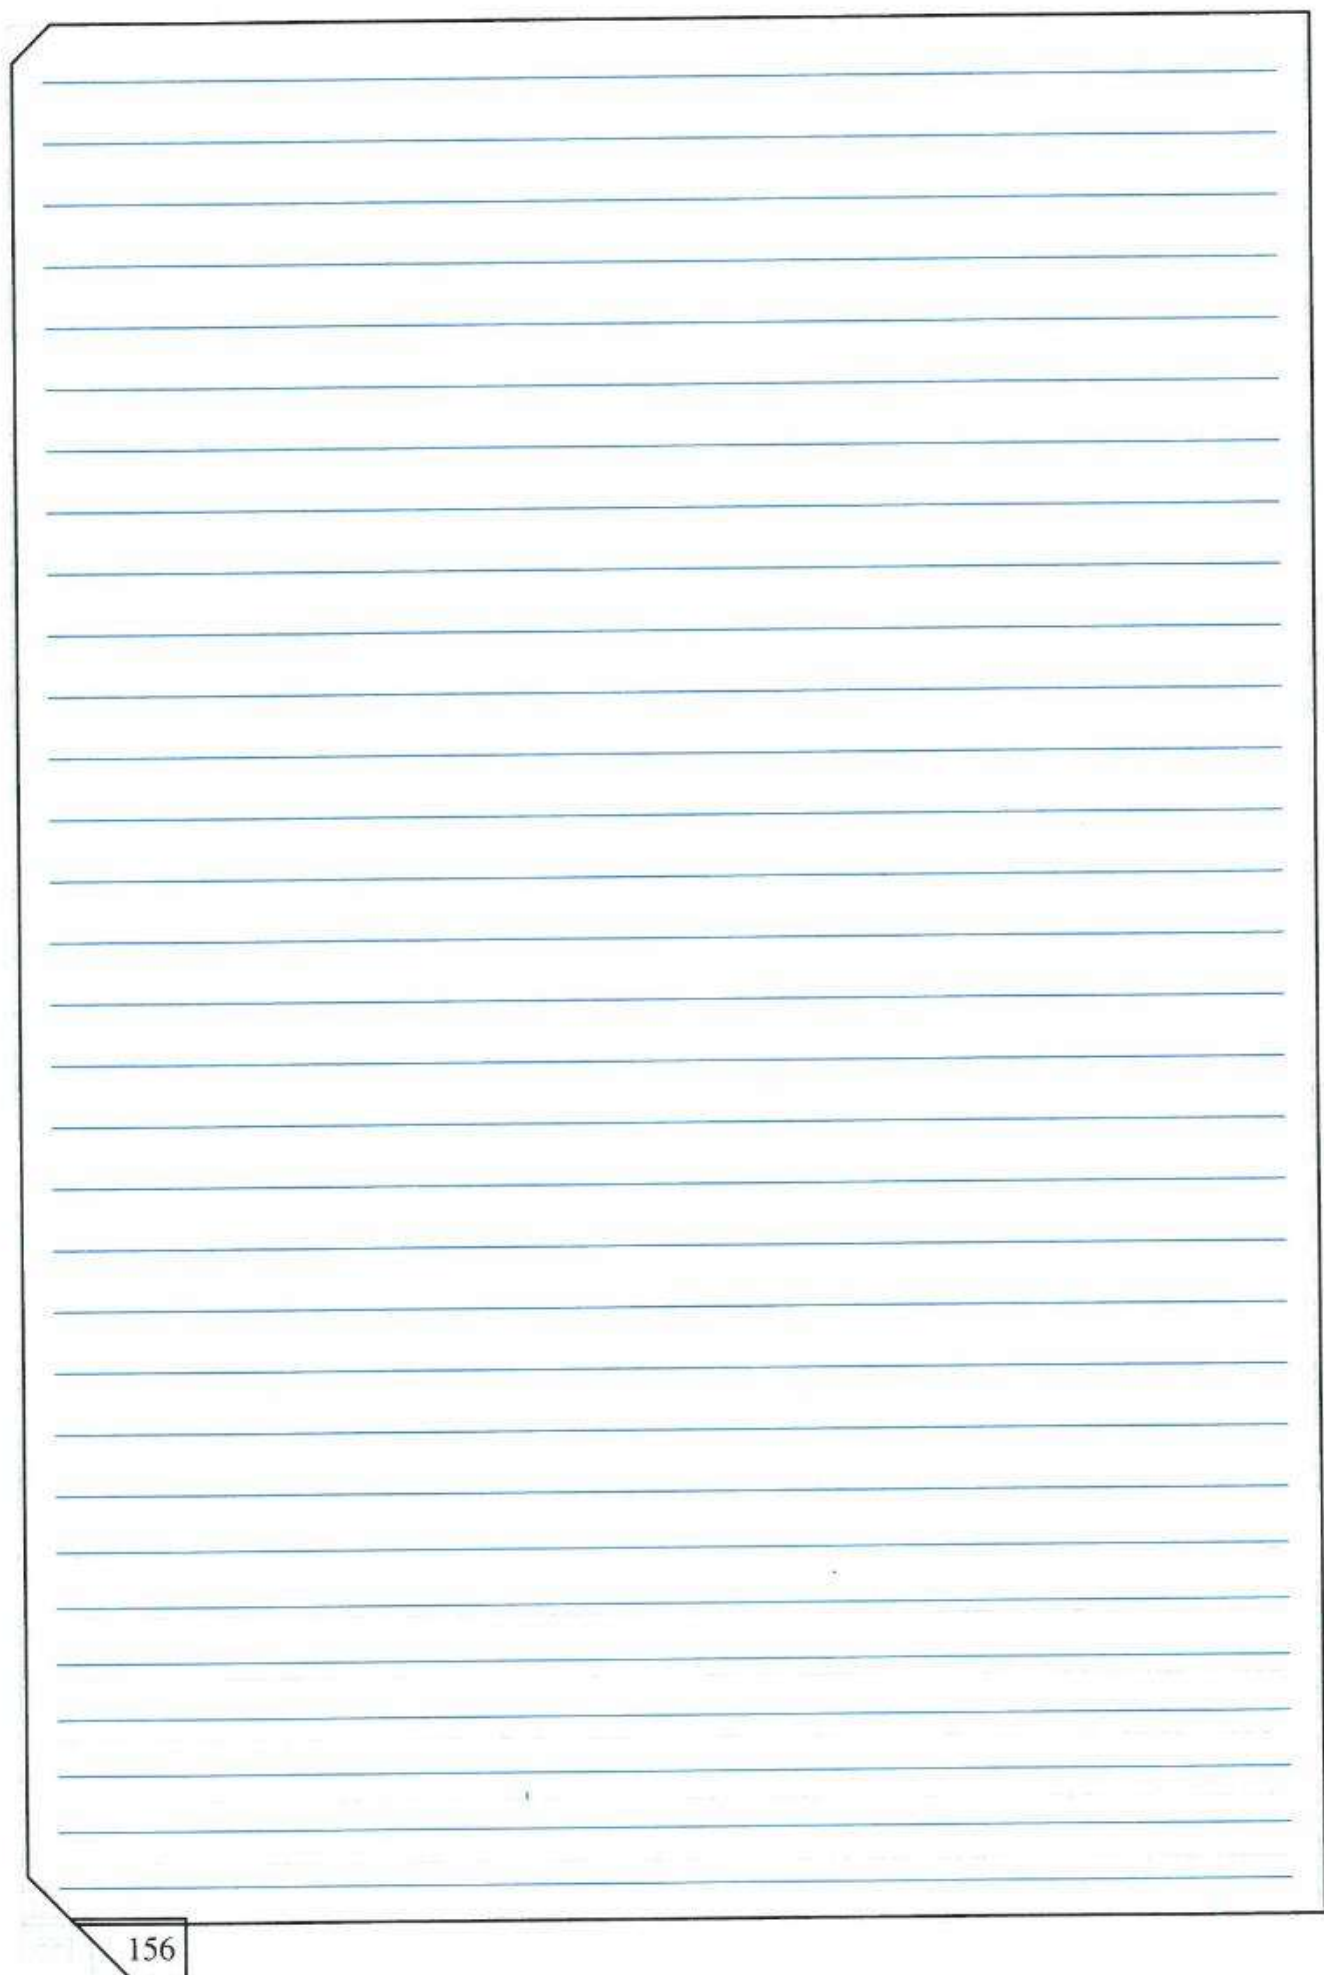

The following is an excerpt from pages 12-15 of a book by George C. Humphrey called *Meeting the Challenge: Medical Technology*. It was published in 1998 by IOS Press, Washington D.C. Read the excerpt and follow the directions below.

Dr. Michael DeBakey, the son of Lebanese immigrants, is truly a legend in his own time. He is not only world renowned as a heart surgeon, but also as an inventor, professor and international medical statesman.

Over and over again, Dr. DeBakey has created new technologies that save human lives. In 1932, he invented the roller pump, which takes over the functions of the heart and lungs during heart surgery. In the early 1950s, DeBakey invented an artificial graft used for replacing diseased arteries and conducted the first heart-bypass operation in 1964. Two years later, he became the first surgeon to successfully use a partial artificial heart.

Among one of Dr. DeBakey's recent inventions is a self-contained heart pump the size of a small battery. This device, called a Left Ventricular Assist Device, supplements the human heart. It is easy to install and requires less than eight watts of power. This pump is designed to be rechargeable through the skin.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guideline

For the writer:

- Read your essay clearly.
- Ask for peer comments (positive and negative).
- Make notes of suggested changes.

For the listener:

- Has the proper format been followed?
- Do all the writer's main supports refer back to the thesis statement?
- Does the writer use effective sub-supports?
- Does the writer use coherence devices properly?
- Has the writer summarized or paraphrased from at least one other source?

Section 2: Revising

Use the criteria listed in the "Essay Assessment Guidelines."

Section 3: Conferencing with the Teacher

Section 4: Further Drafting

Section 5: Final Outline

Make a final topic outline of your paragraph or essay.

The Paragraph

Topic Sentence:

A. First Major Support

1. First Minor Support

Section 6: Revising for Publishing

If your writing has been chosen to be placed on the bulletin board or to be published in the school magazine or on the Internet, you may need to revise it by going over the steps in parts D and E again.

Blank lined paper for writing.

Part F

Sequenced Writing Project

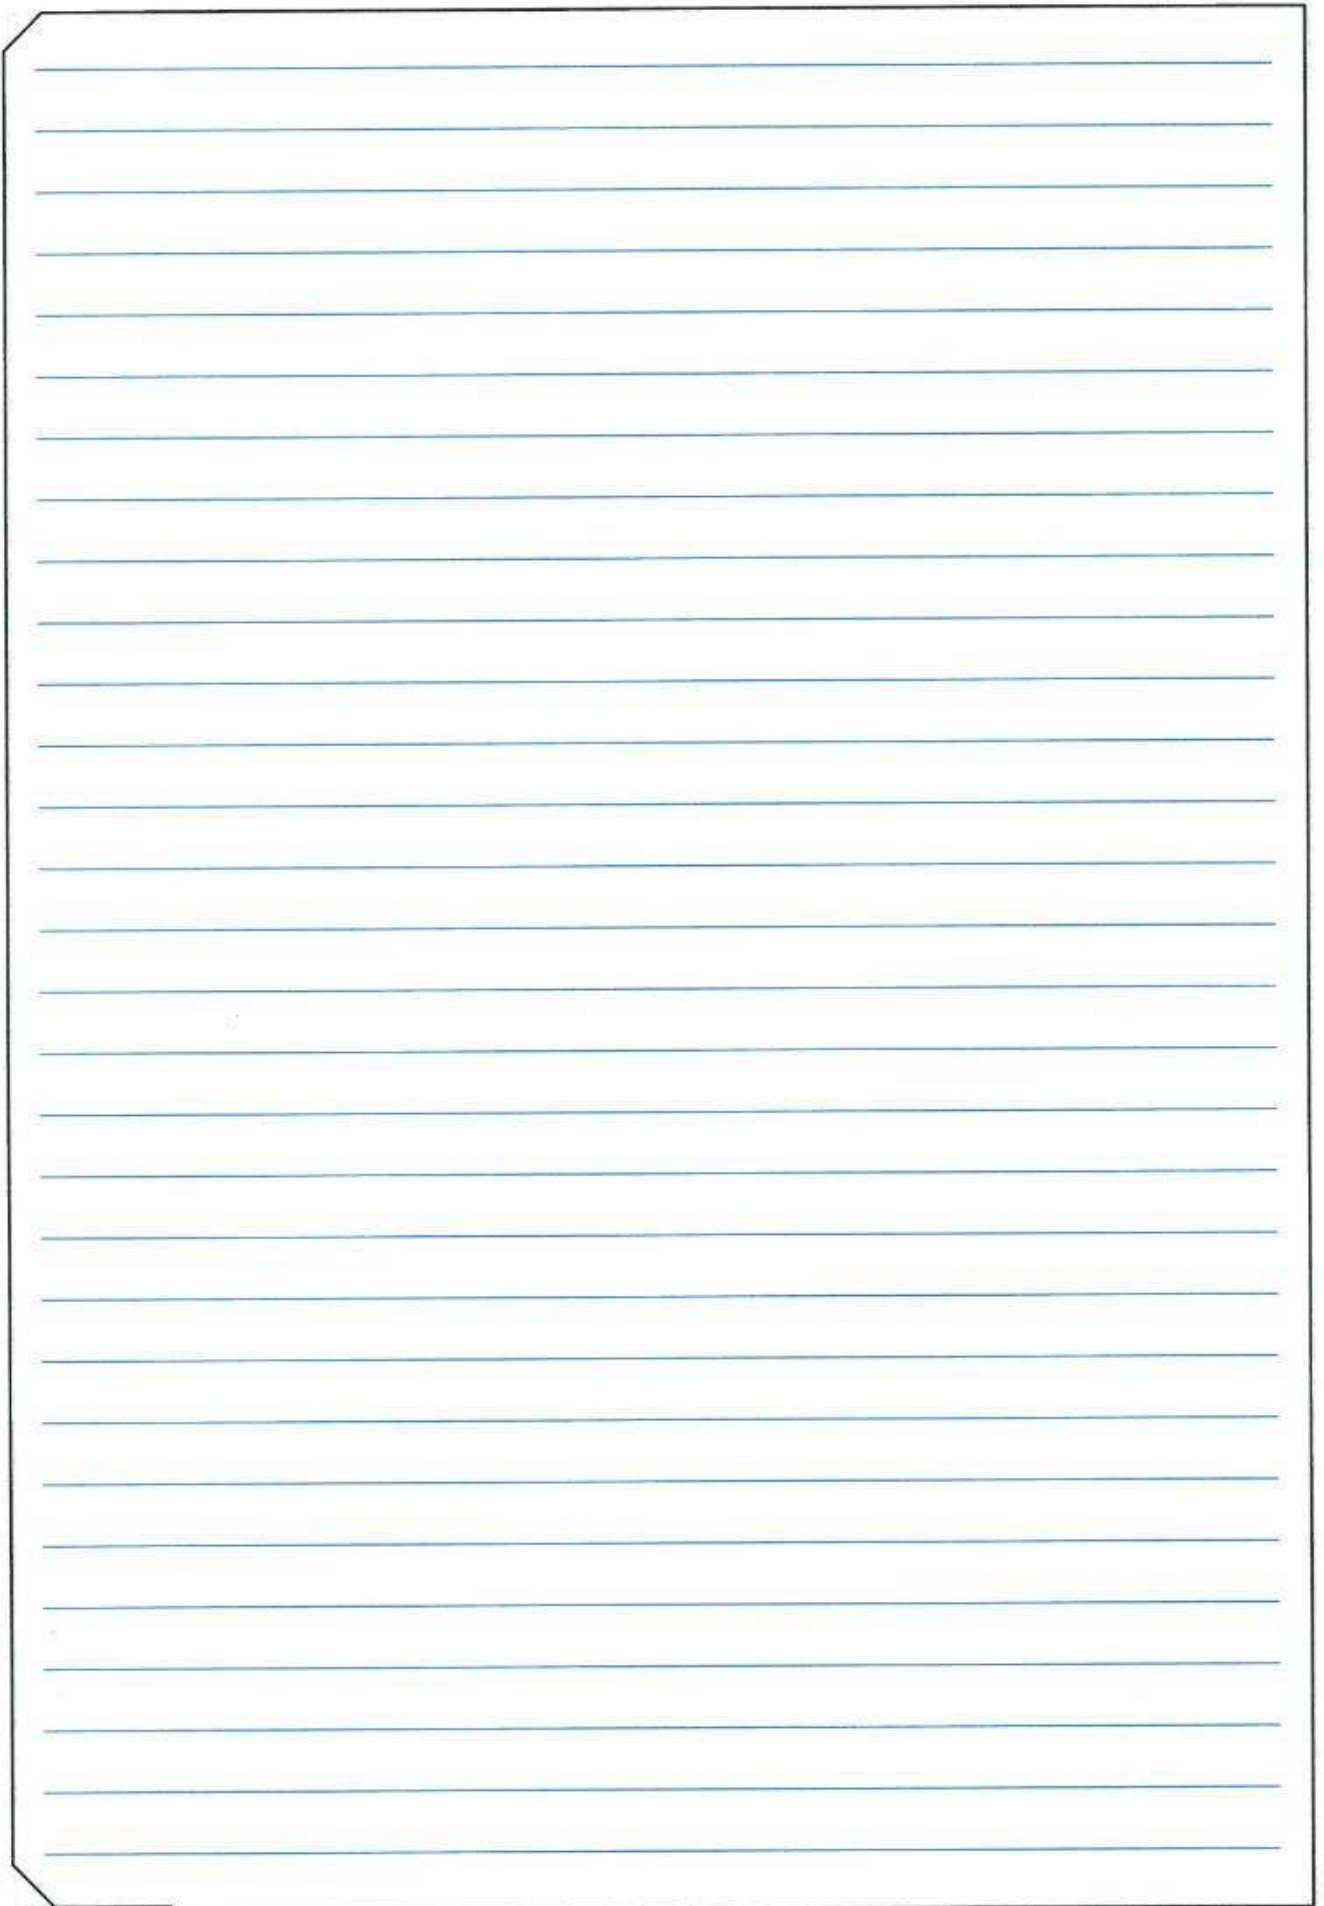

Summaries

Introduction

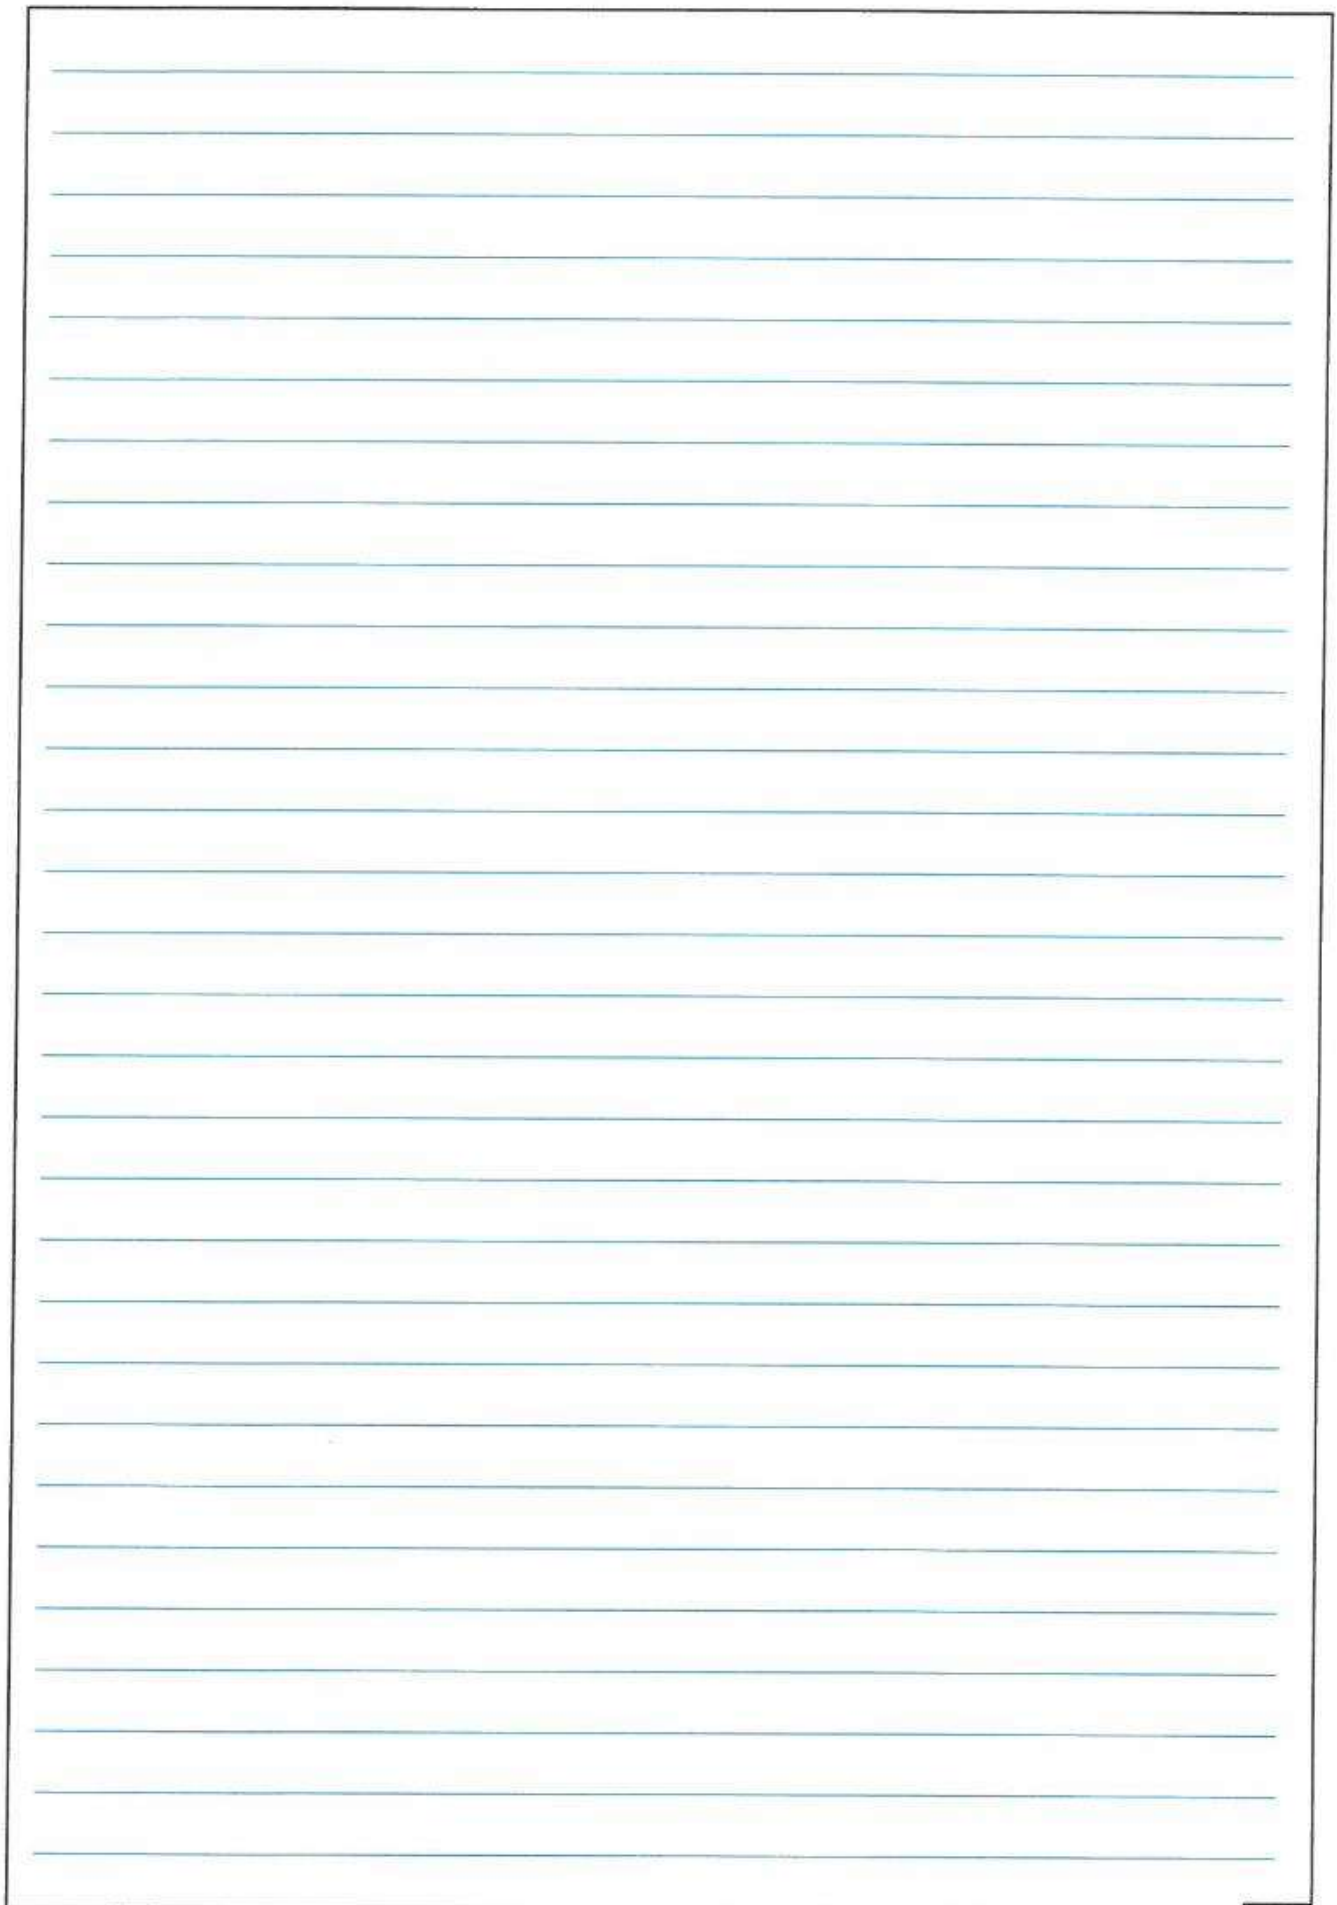

This image shows a single page of white paper with horizontal blue lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

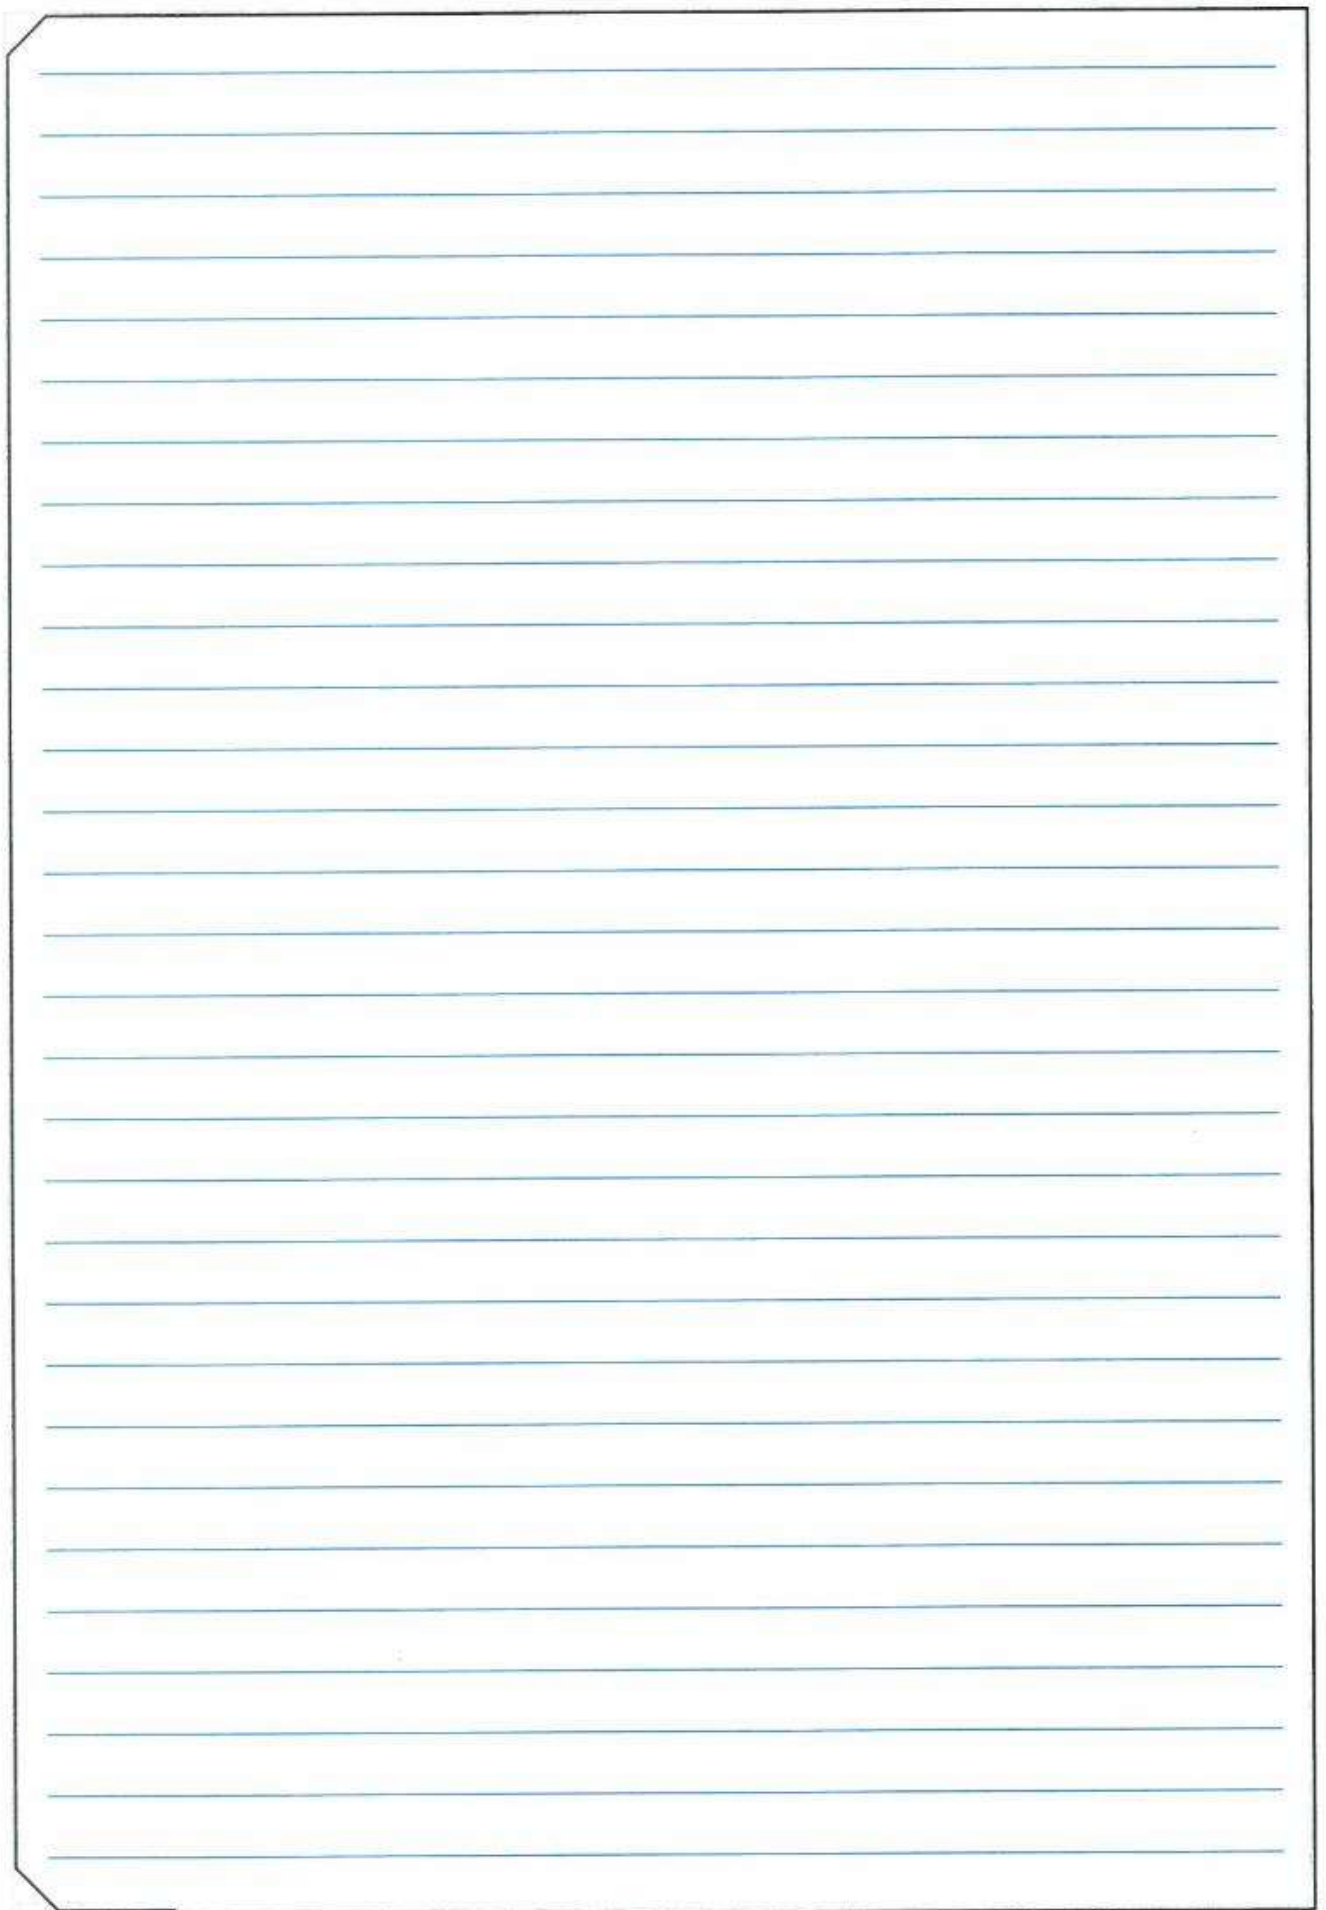

Conclusion

This image shows a single sheet of white paper with horizontal blue lines, resembling notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Third Summary

Blank lined paper with blue horizontal ruling.

Blank lined paper with horizontal blue lines and a red margin line on the right side.

Peer Feedback Guidelines

The writer successfully linked the three documents (publications) together with a clear main idea.

Each summary is cited properly.

The sources seem to be interesting and relevant.

Paraphrases and/or quotations are used properly.

Final Draft

Summaries

Blank lined paper with horizontal blue lines.

3. The old couple sat silently on the porch enjoying each other's company in the _____ of the evening.
4. The accused was _____ of murder after he was found guilty.
5. My father likes to _____ for ten or fifteen minutes after lunch on the living room couch.
6. It was a long _____ home, carrying our bags up the hill.
7. Everyone of us had listened to the band leader because of his strong, _____ voice.
8. The botanist _____ picked the delicate flower.

II. Find two meanings for the word *ginger*.

a. _____ b. _____

2. Find a formal meaning for the word *bust*.

3. How do you think the word *imperiously* originated?

4. What is another meaning of *conviction*?

Part C

Writing Skills - Summarizing a Short Story

Directions: Summarize the short story *Tomorrow and Tomorrow and Tomorrow* by Kurt Vonnegut, Jr.

Chapter 3

New Worlds

Unit 3

Part A

A Way With Words

I. Choose the best word to fit the blank.

1. The weather is _____ and unpleasant.
a. listless b. bleak c. cheerful d. gloomily
2. We could feel the _____ weather even though we were all wrapped up.
a. listless b. bleak c. nippy d. cheerful
3. Would you please stop _____ around with those tools?
a. tinkering b. cackling c. glistening d. smearing
4. Her eyes _____ with tears as she watched her husband board the plane.
a. cackled b. gabbled c. glistened d. smeared
5. Everyone could hear the _____ sound of the witch's laughter.
a. cackling b. gabbled c. tinkering d. nippy
6. Bleakly is closest in meaning to _____.
a. doggedly b. gloomily c. listlessly d. nippily
7. He looked _____ with no sign of life as they removed him from the wrecked car.
a. cackled b. smeared c. glistened d. listless

II. Match the word in Column A with its opposite meaning in Column B

Column A	Column B
1. listless	a. dry
2. gloomy	b. hesitant
3. glistened	c. happy
4. bleak	d. lively
5. dogged	e. cheerful

Part B

A Way With Words

I. From Column B, choose the best answer for the question in Column A.

Column A	Column B
1. Who would quibble?	A. one who is under a lot of stress
2. Who may crack up?	B. someone who has just passed an important test
3. Who would be petrified?	C. one who makes an issue of little, unimportant things
4. Who would beam?	D. one who is washing his mouth with water
5. Who would gurgle?	E. someone who is told that his favorite uncle is dishonest
6. Who would be dumbfounded?	F. one who suddenly comes across a large snake

II. Use the words below in sentences that show their meaning.

1. impeccable

2. wedge

3. jab

4. harrowing

5. stealthy

Part B1

I. Fill in the blanks with words from the box.

convicted gingerly haul imperiously incredulously snooze still

1. He looked at me _____ as I told him my strange experience in the park.
2. The scientist _____ lifted the test tube, making sure the contents were not shaken.

Section 2: Pre-writing Activities

A. Write down the topic that you chose. _____

B. Brainstorming - Student's Choice _____

Choose a brainstorming strategy (looping, cubing, questions, mind mapping, listing and free writing) which you consider suitable for gathering ideas for your topic.

Brainstorming strategy: _____

Write down a possible thesis statement for your topic.

C. Paraphrasing/Summarizing/Quoting

Select a passage and/or a quotation that is related to your topic from the texts in this chapter or from another multi-media source. Summarize or paraphrase the passage and/or quotation.

D. Reporting

Working with a peer, tell him/her (1) what your thesis statement is, (2) how you intend to support it, and (3) the probable number of paragraphs in your essay. If your plan seems feasible to your partner, you are ready to begin your first draft.

E. First Draft

Reminder: Cite your source(s)

The relatively small population of rich people, therefore, account for roughly two-thirds of the global environmental destruction, as measured by energy use. From this perspective, the most important population problem is overpopulation in the industrialized nations.

Rewrite the text.

1. The first part of the paper is a review of the literature on the topic of the paper. The second part is a description of the methodology used in the study. The third part is a presentation of the results of the study. The fourth part is a discussion of the results and their implications. The fifth part is a conclusion.

Language Conventions - Avoiding Gender Bias and Vague Reference

I. Directions: Rewrite the following sentences to avoid gender bias.

1. Every teacher that I have had in school has had his own way of teaching.

2. A student writer who does not concentrate on improving his second draft will never get a good evaluation.

3. A writer must always cite his sources.

4. Any student can ask his teacher a question at any time if he does not understand what to do.

5. Did everyone turn in *his* or *her* homework? (The *his* or *her* construction can be awkward, especially when overused.)

II. Directions: Rewrite the following sentences to eliminate the vague references in order to make the meaning clearer.

1. I forgot to apologize to my teacher for being late, which was rude.

2. They are always suggesting ways to make our environment cleaner.

3. If you have trouble writing good compositions, you can always benefit from peer-editing.

4. Suha is sure that she wants to be a pharmacist although she has not studied it.

5. Dany wanted to interview someone about the overpopulation problem in the Middle East but he does not know one.

Part D

Focusing on Process/Product Writing

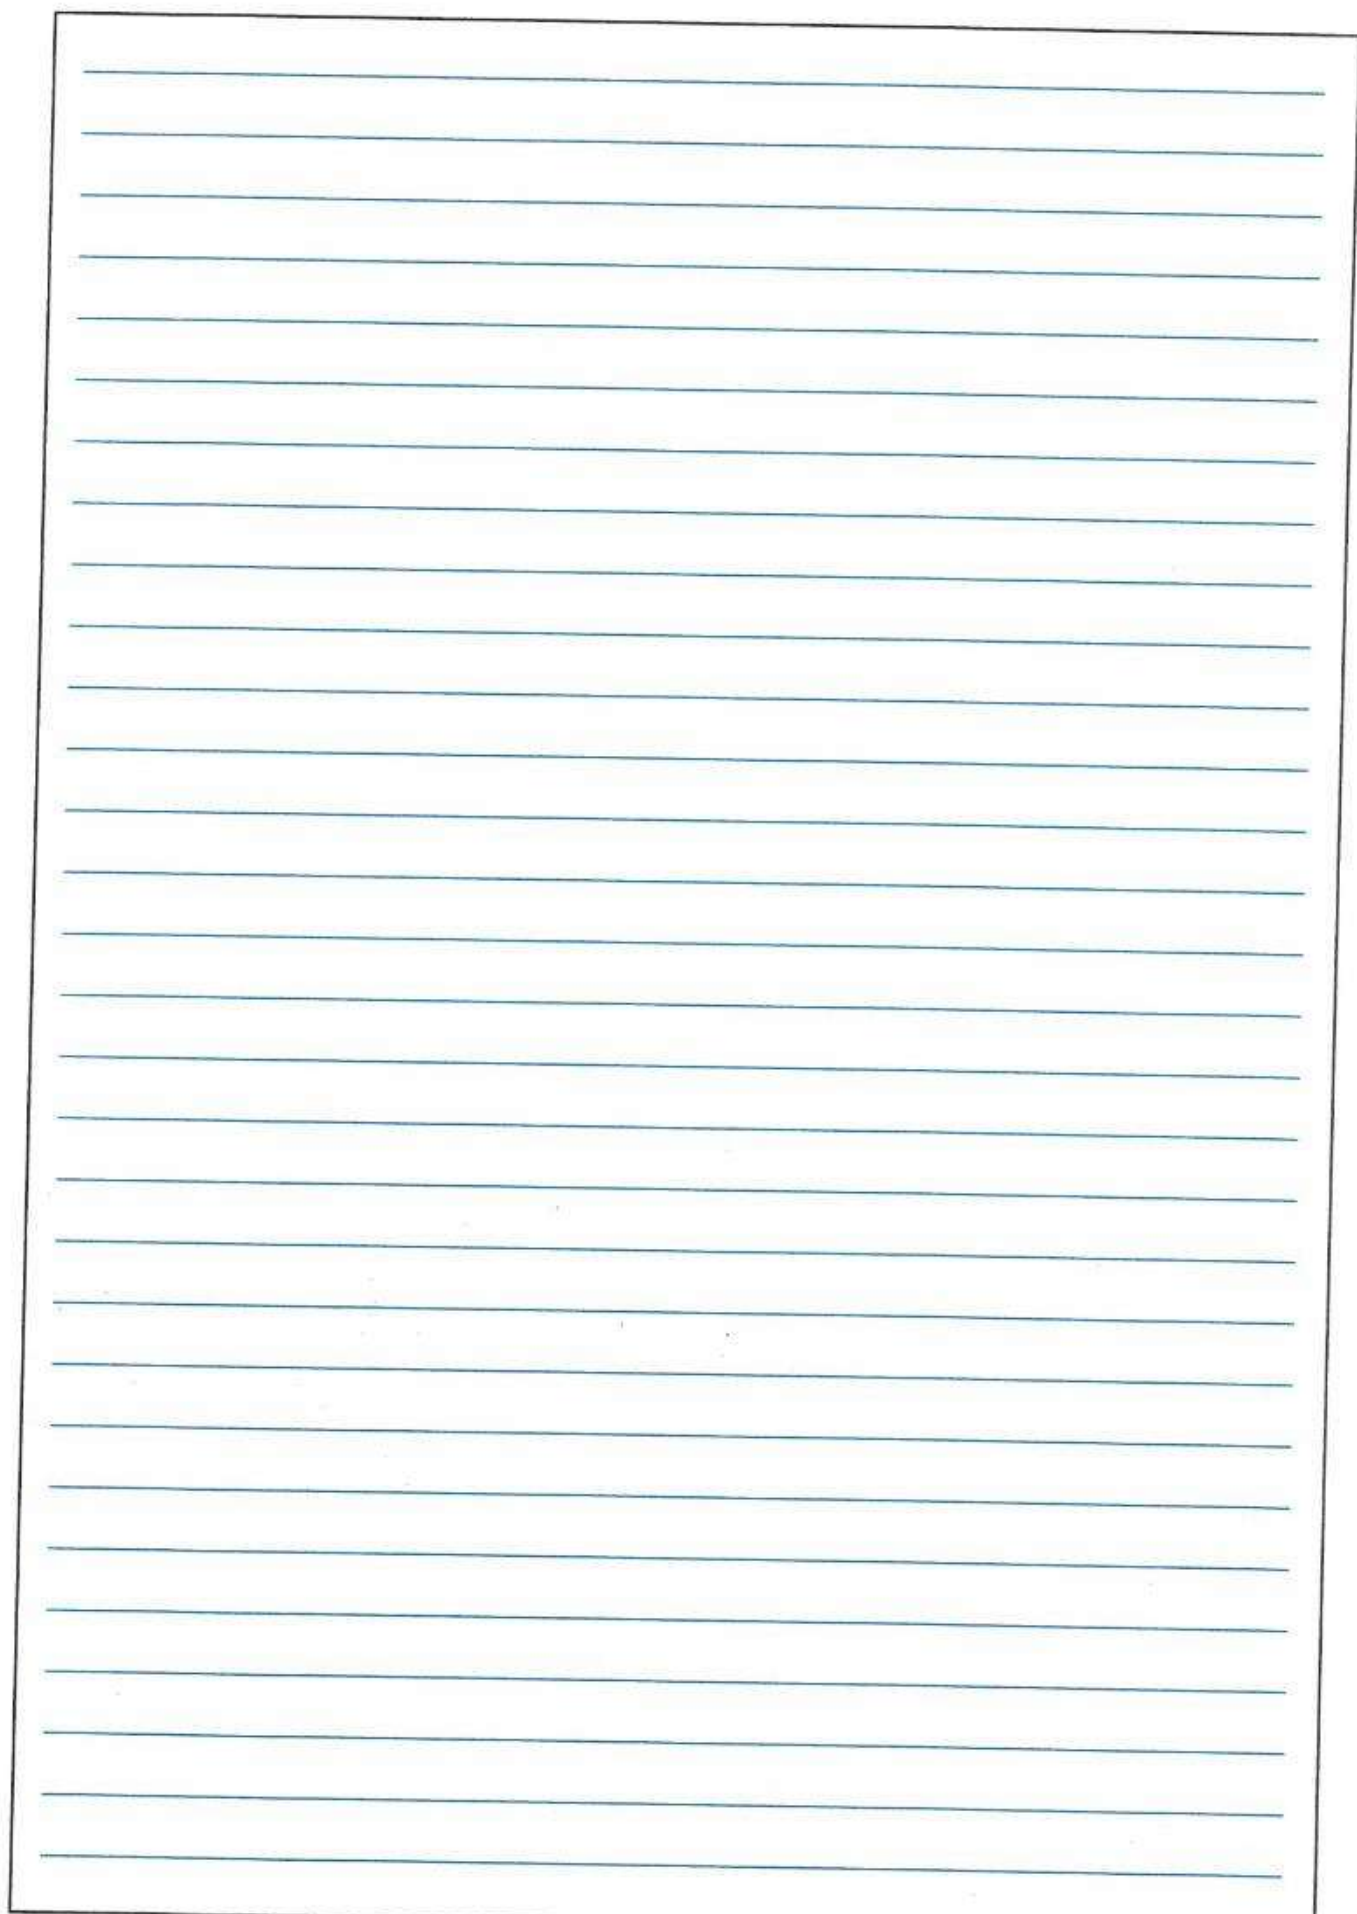

Section 1: Sharpening Your Editing Skills

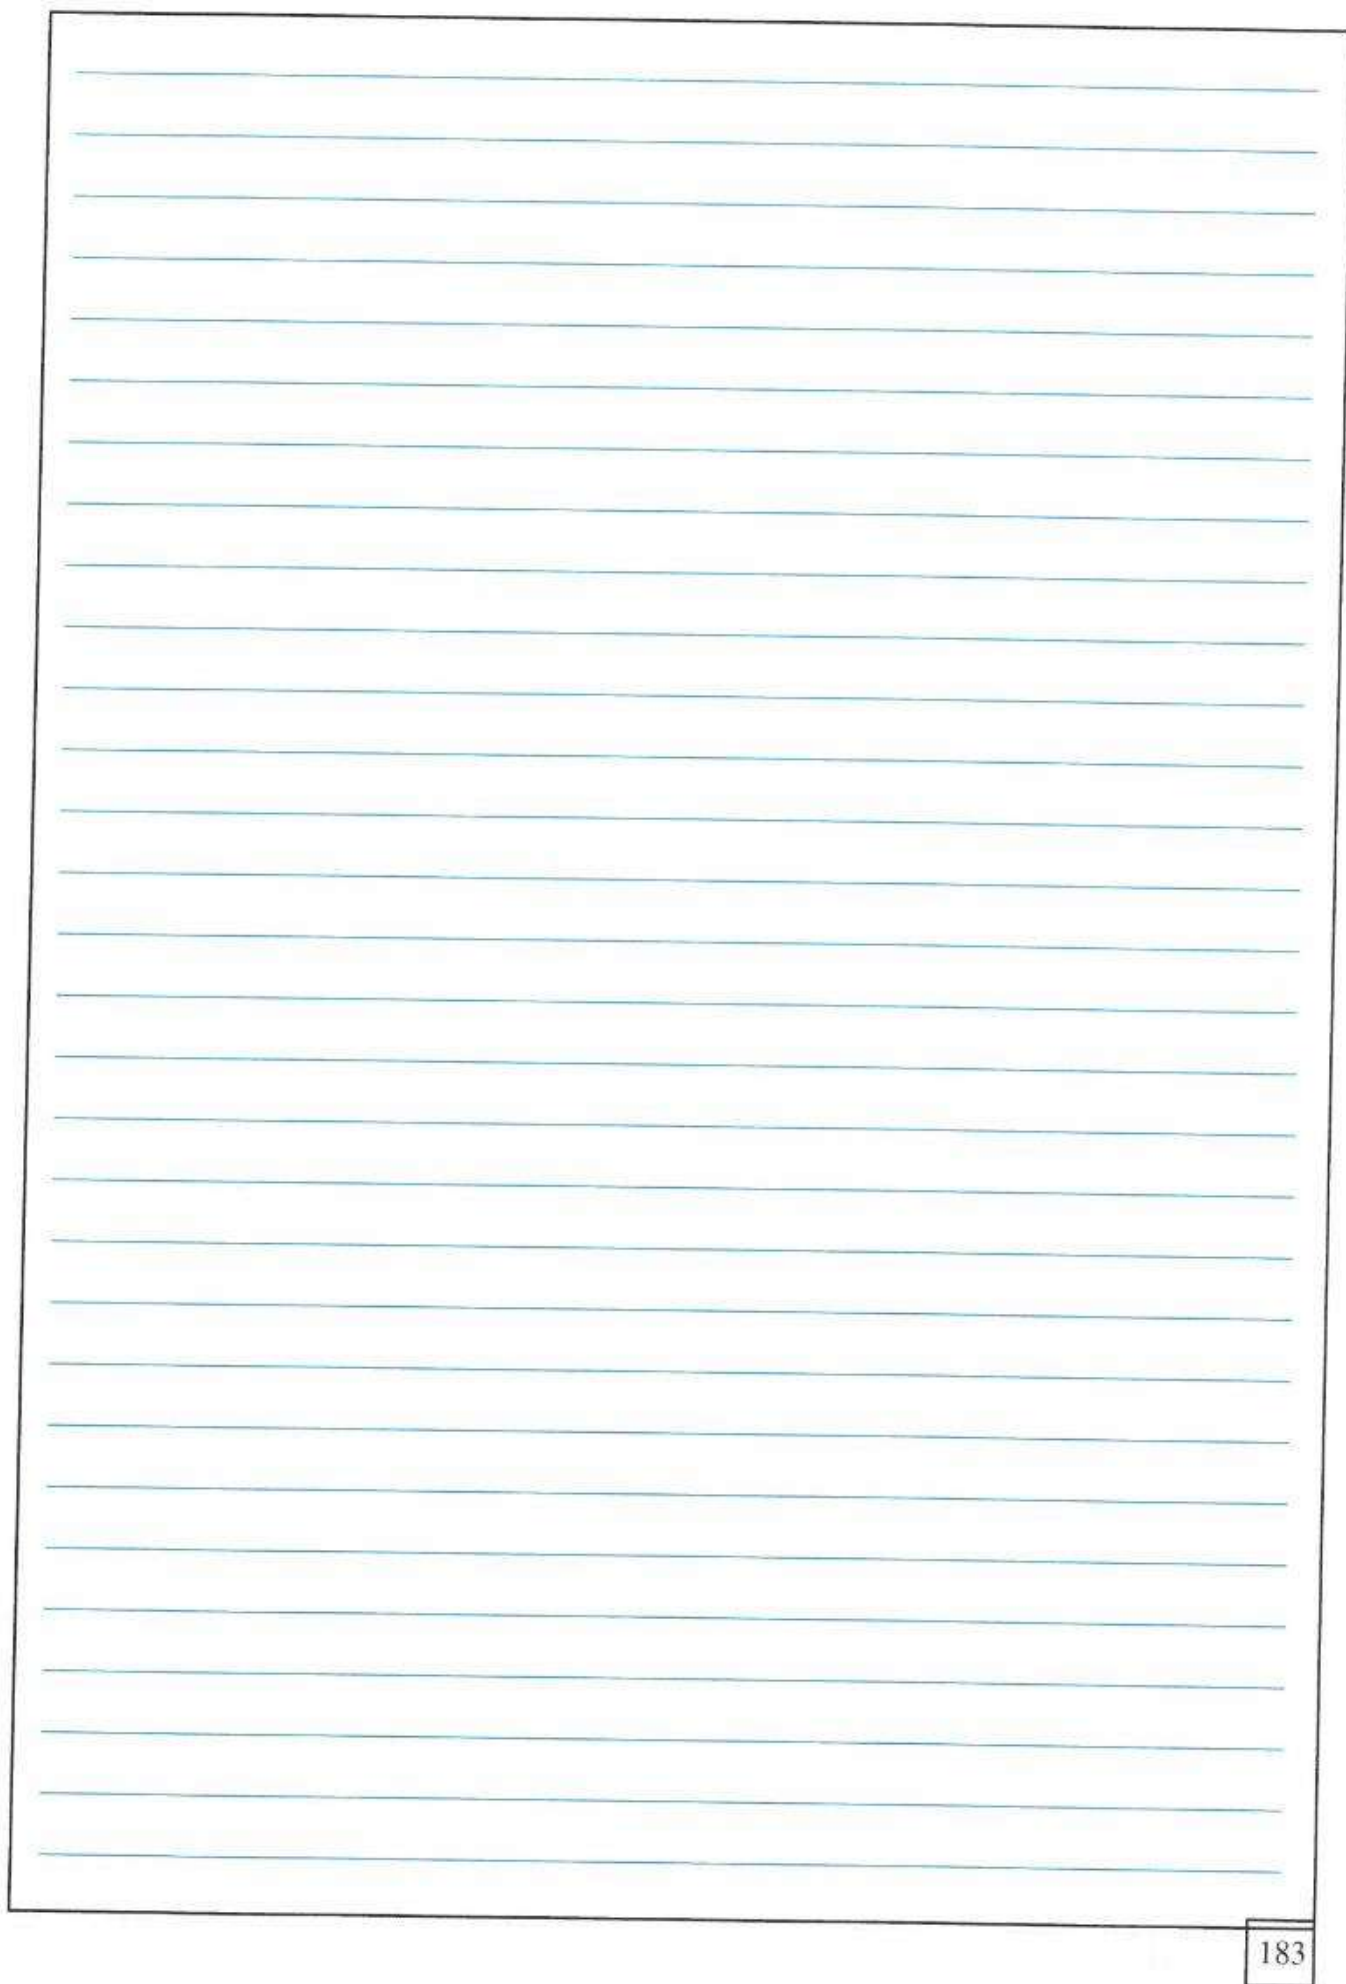

Edit the following text. Try to use strategy #3 in your book since you are editing someone else's writing, not your own.

Too Many Rich People: Burdens on the Planet

Citizens of rich countries generally focuses on rapid population growth in the poorer nations. But the impact of humanity on Earth's life support systems is not just determine by the number of people alive on the planet. Because it also depends on how those people behave. When this is considered, an entirely different picture emerge: the main population problem is in wealthy countries.

The amount of resources each person consumes and the damage done by the technologies used to supply them needs to be taken as much into account as the size of the population. The average rich-nation citizen uses 7.4 kilowatts (kW) of energy in 1990. Which was enough to power 74 100-watt lightbulbs. The average citizen of a poor nation, by contrast, used only 1 kW. There were 1.2 billion people in the rich nations, so their total environmental impact, as measured by energy use, was 1.2 billion x 7.4 kW, or 8.9 terawatts (TW) - 8.9 trillion watts. Some 4.1 billion people had lived in poor nations in 1990, their total impact (at 1 kW a head) was 4.1 TW.

Part E

Expanding Your Point of View

Section 1: Peer Feedback Guidelines

Peer Feedback Guidelines

For the writer:

- Read your essay clearly.
- Ask for peer comments (positive and negative).
- Make notes of suggested changes.

For the listener:

- Has the proper format been followed?
- Do all the writer's main supports refer back to the thesis statement?
- Does the writer use effective sub-supports?
- Does the writer use coherence devices properly?
- Has the writer summarized or paraphrased from at least one other source?
- Has the writer used any logical fallacies?

IV. Directions: Checking Your Published Sources

Did you quote, paraphrase or summarize your information properly? _____

Did you cite your sources? _____

V. Directions: Getting Peer Feedback

Working in pairs, comment on each other's report by answering the following questions.

Is this report interesting? _____

Can you easily follow the writer's ideas? _____

Has the writer used his/her data to explain or illustrate points in the report?

What did you like best about the report?

Did good intentions end in bad results? _____

Has your audience had any first-hand experience with your topic? _____

What kind of information will your audience need to understand your topic in order to agree with your analysis?

Do you plan to use anecdotes, incidents, personal experiences or comparisons as support material?

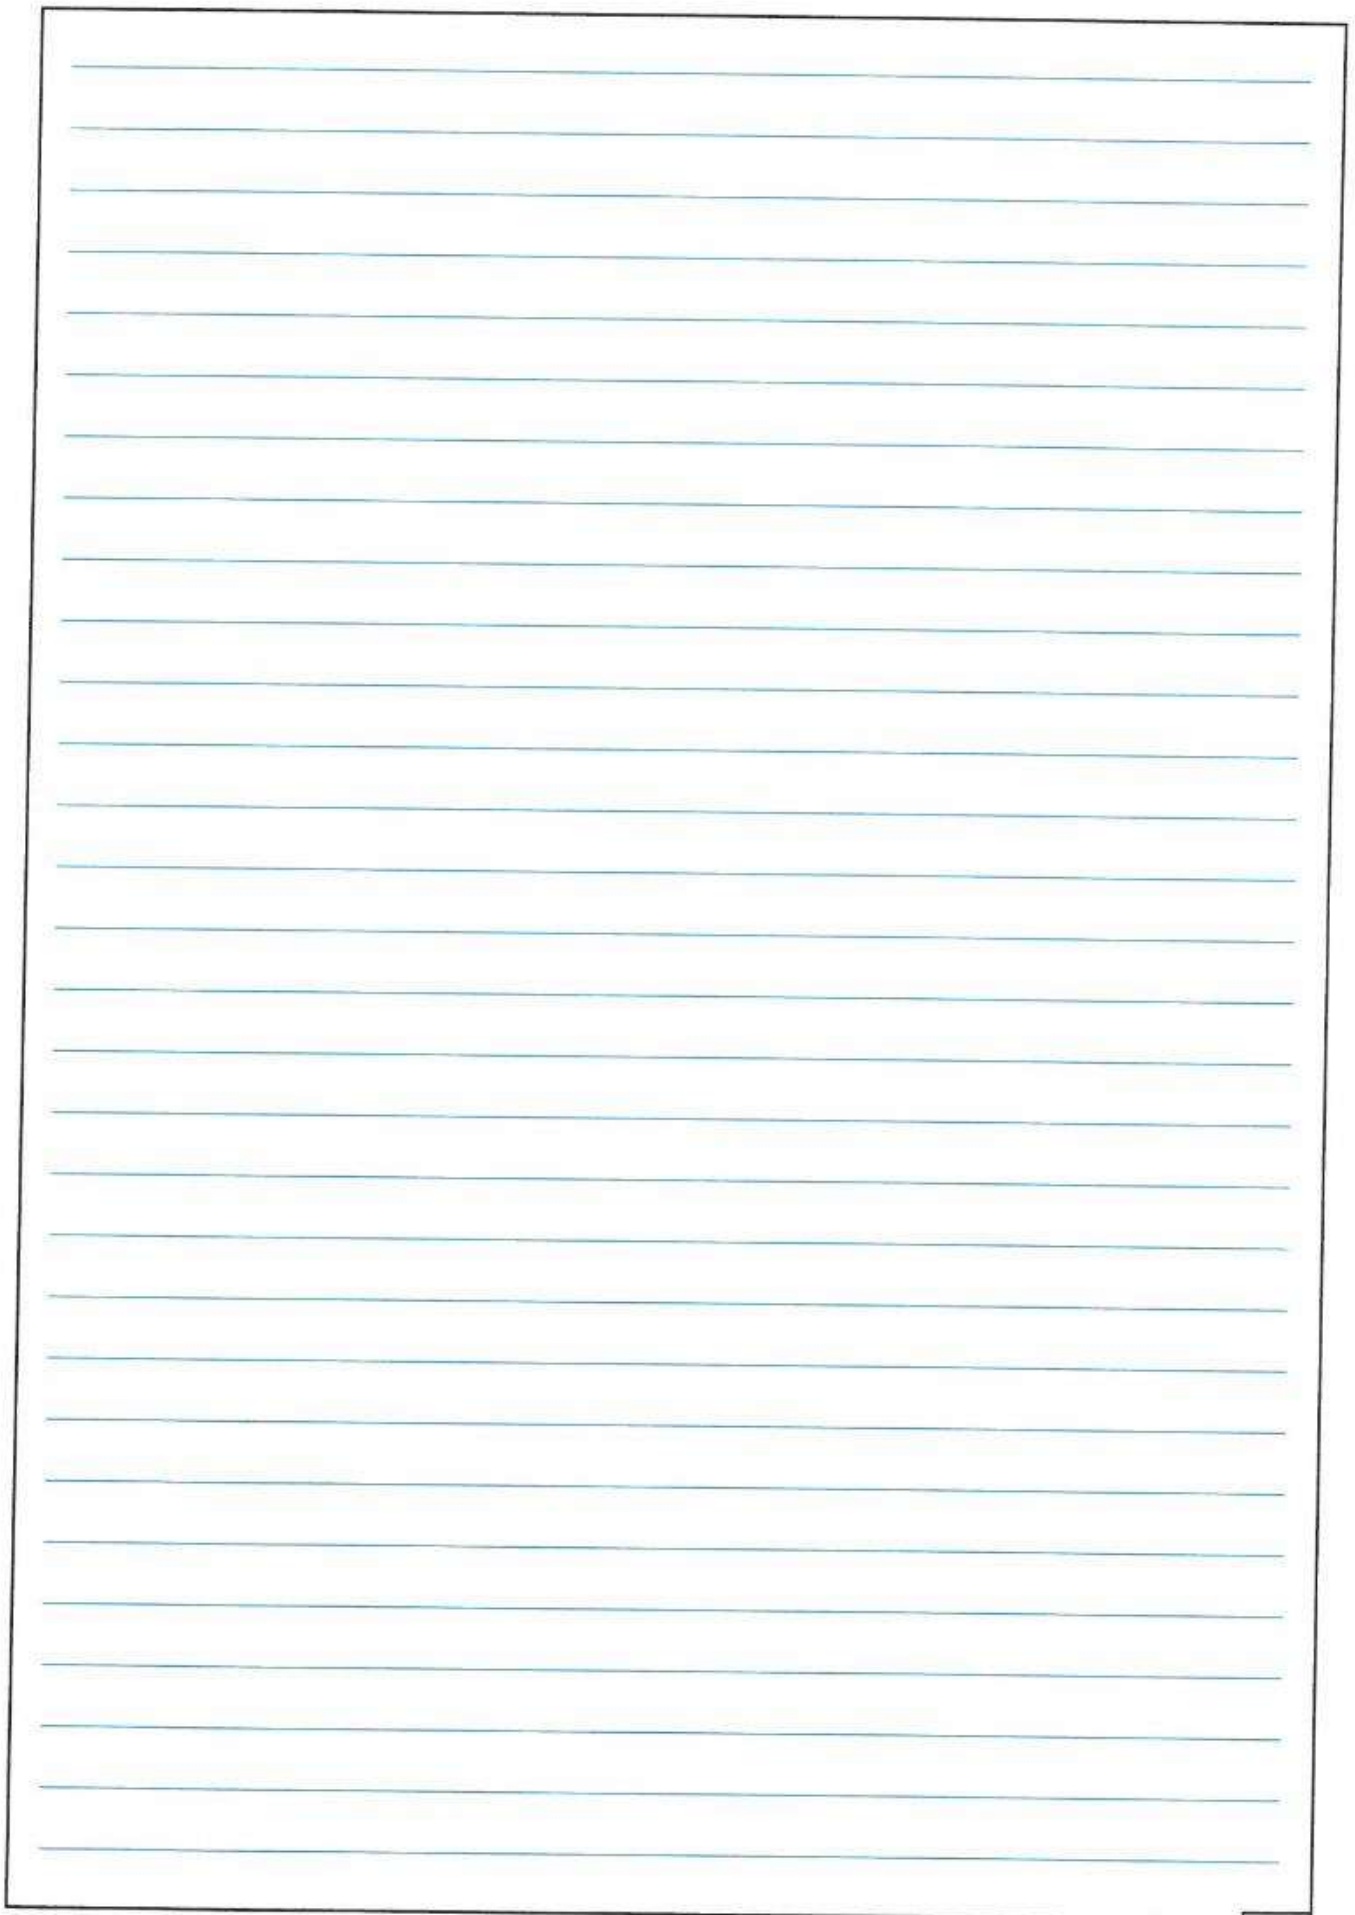

II. Directions: Organizing Your Information

Choose one of the following possible ways to organize your information.

- _____ From least important to most important
- _____ From most important to least important
- _____ From distant causes or consequences to immediate ones
- _____ From immediate causes or consequences to distant ones
- _____ From most general to most specific
- _____ From most specific to most general
- _____ From most obvious to least obvious
- _____ From least obvious to most obvious

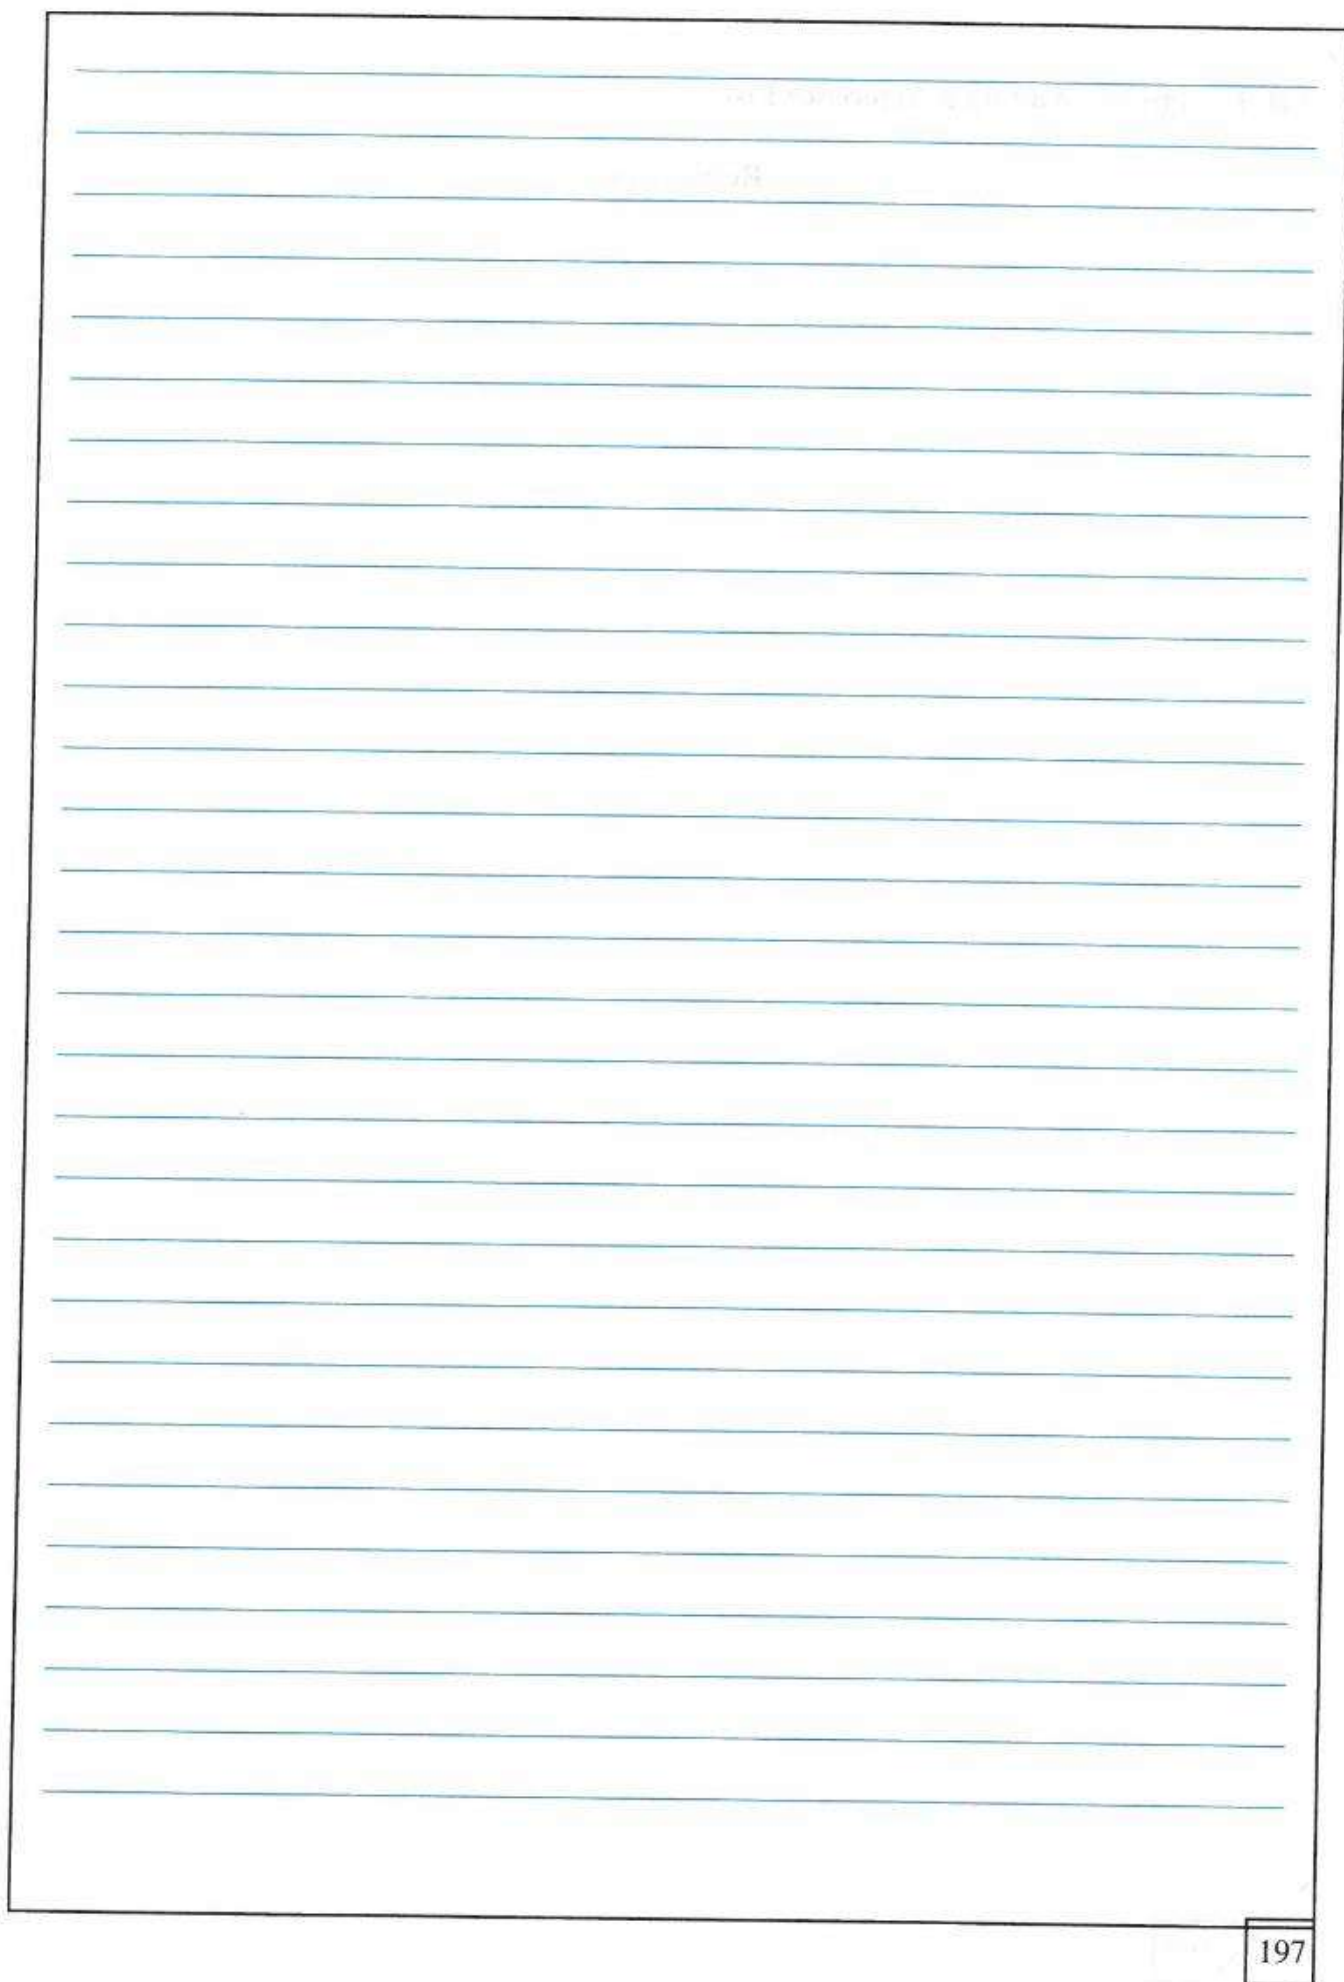

VII. Directions: Adding a Reference List

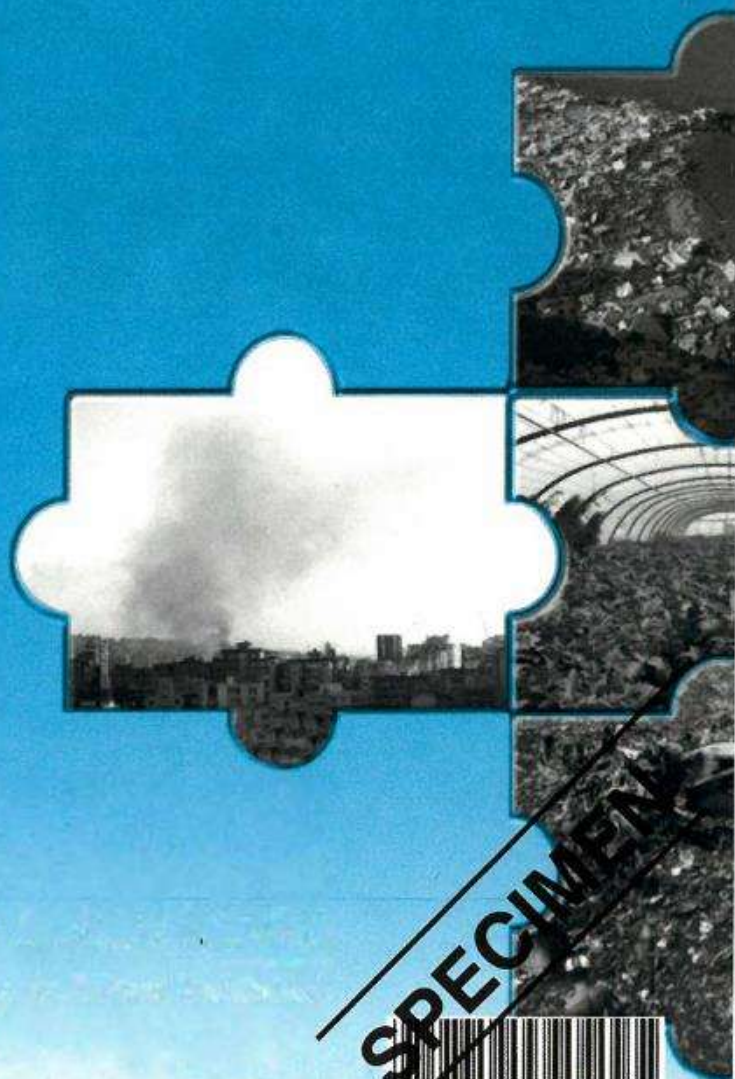

References

This image shows a single sheet of white paper with horizontal blue lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

1. $\frac{1}{x^2} = x^{-2}$
 $\frac{d}{dx} x^{-2} = -2x^{-3} = -\frac{2}{x^3}$
