The National Textbook Project

This is the second installment of textbooks completed by the Center as part of a three-stage effort to produce the books called for by the New Curricula. We are placing these books in the hands of students with the great hope that we are moving, step by step, toward the goal of acquiring sound and modern learning, using sophisticated educational means and up-to-date methodology that encourage and reinforce individual thinking and research, the acquisition of skills, the development of ethical and national attitudes, the feeling of national belonging as well as the feeling of belonging to humanity at large.

The on-going revolution in information, communication and educational technology has undoubtedly limited the role of the textbook and lowered the rank it used so recently to occupy. However, in our society and in many other societies, the textbook remains the basic means of education, and it is our duty to exert our utmost effort and care to come up with the best product as to form and content. Yet we should not lose sight of the fact that the textbook is not sufficient by itself but should rather be used as a stepping stone to access other sources of information. What is important is to keep a clear vision and maintain the right course toward our objective. The means should not turn into the end and the student should always remain the focus of the learning/teaching process.

No one ignores or denies the fact that textbook writing requires very high academic and educational qualifications and very wide field experience. The authors committees undeniably possess such qualifications and qualities, yet last year's textbooks did contain some faults and gaps which were duly pointed out by researchers in many articles, and, indeed, we have benefited from some of them. Such is the nature of human work, no matter how good the intentions or how great the effort exerted.

Constructive criticism is a real contribution to raising the standard of authorship, minimizing errors and filling gaps. We only hope that criticism will always be objective and motivated by a desire to enhance educational reform in order to achieve better products.

A favorite adage handed down from our old scholars: "He who criticizes you is as helpful as a co-author". Let all criticism directed at the Center be of this caliber.

In closing, we hope that we all will have benefited from our experience and that the textbooks of the third and final stage be closer to realizing our hopes and more beneficial to our students. We are now preparing ourselves to assess the parts so far achieved of the new curricula and to assure that our educational movement is proceeding on the right track for achieving the best results.

Exercise 3:

Scan the story to locate the main characters and the minor characters. List each in the appropriate place and state why you find each main or minor ones.

Major characters	Reasons

Minor charaters	Reasons

Exercise 1:

Read the selection and try to fit as many ideas as possible under each of the headings in the chart below. Some of the ideas in the selection may not fit under any of the headings.

Major Historical Events	Geographical Location	Economy and Trade	Archaeological Sites

Exercise 4:

Scan the story for any mention of/or reference to the character your teacher assigned to your group. List the information in the appropriate place.

Name of character _____

Physical appearance _____

Dress and clothes _____

Behavior with others _____

Deeds and actions _____

Personality or traits _____

Describe the above character in one or more paragraphs. Base your description on the information above.

Unit One

Historical Highlights: Personage and Archaeological Sites

Exercise 2:

Try to relate each idea listed under a certain heading in the chart (Exercise 1) to one or more ideas listed under other headings in the chart. Also, check whether it can be related to other ideas in the text (not listed in the chart). Specify whether the relationship is cause or effect. For example, the idea that “its colonies spread around the Mediterranean and Atlantic” (paragraph 3) is a cause which should be listed under **Historical Event**. It led to “bringing the city a flourishing maritime trade”, a result or effect which should be listed under **Economy and Trade**. This effect became the cause of another **Historical Event** “Nebuchadnezzar . . . laid siege to the walled city” (paragraph 4). Use the chart below for the first idea and draw a similar one for the rest on a separate sheet of paper.

Idea _____

Subject area (it belongs to) _____

Relationship _____

Geography	History	Economy & Trade	Archaeology

Exercise 6:

Scan the story and your description of the settings. Find all stated or implied references to water and list them below.

Stated / Direct References to Water	Implied / Indirect References to Water

100

Time: _____

Location / Geography : _____

Describe the setting/s in the story in one or more paragraphs.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

Exercise 7:

Choose one of the communities the story is about, for example, the village of Deir al-Qamar or Shanai, and draw a socio-economic profile of this community. Answer the following questions to help you draw this profile. Since climate and geography affect society and economics, you have to include these aspects as well to have a complete profile.

A. What can you say about the climate?

B. How would you describe the geography?

C. Can you tell whether there are different seasons? What are they?

D. What information does this story give about the flora?

E. What information does it give about the fauna?

F. What kinds of occupations do people have? What can you say about people's livelihoods?

G. What can you say about family structure in this community?

H. What information does the story give about parental authority?

I. What leisure activities do people pursue in this community?

J. What can you say about the male role in this community?

K. What can you say about the female role in this community?

Exercise 5:

General setting: Lebanon

Time : _____

Location / Geography: _____

Specific setting: Deir al-Qamar

Time: _____

Location / Geography _____

Specific setting: Emir Bashir's palace in Deir al-Qamar

Time _____

Location / Geograph _____

Specific setting: Mountain road Hassan took

Time: _____

Location / Geograph _____

L. Does the community emphasize conformity? Does it accept or look down on persons who are different?

M. Does it emphasize adherence to rules and obedience?

N. Are there different classes in this community or do the inhabitants mostly belong to the same social class? What is/are this/these class/classes?

O. How modern is this community? Are conveniences and facilities available?

B. Without referring to the script, compare and contract the beliefs of the four thinkers in terms of the three points of references listed in the chart.

Exercise 12:

Read the script of the lecture closely and extract the direct or indirect criticism in it of each thinker's beliefs. Add you own evaluation (which could be positive or negative) of each thinker.

A. Criticism of Comte's beliefs in the lecture

B. Your evaluation of Comte's beliefs

C. Criticism of Durkheim's beliefs in the lecture

Exercise 10:

Listen to parts of the lecture and write the name of the thinker whose ideas each part presents.

Part I _____
Part II _____
Part III _____
Part IV _____
Part V _____

Exercise 11:

A. Scan the script of the lecture and decide on the common issues the thinkers addressed. Put a tick next to the thinkers who analyzed social change, included economic factors in their theories, or included values as a factor in social change.

	Change	Economics	Values
Comte			
Durkheim			
Marx			
Weber			

Exercise 8:
